FOR FURTHER INFORMATION CONTACT: Ms. Cecelia L. Davis, Procurement Analyst, at 202-219-0202 or via email at cecilia.davis@gsa.gov.

SUPPLEMENTARY INFORMATION:

A. Purpose

The information on place of manufacture was formerly used by each Federal agency to prepare a report to Congress required by 41 U.S.C. 8302(b)(1) for FY 2009 through 2011 on acquisitions of articles, materials, or supplies that are manufactured outside the United States. However, the data is still necessary for analysis of the application of the Buy American statute and the trade agreements and for other reports to Congress. Additionally, contracting officers require this data as the basis for entry into the Federal Procurement Data System for further data on the rationale for purchasing foreign manufactured items.

B. Annual Reporting Burden

Number of respondents: 482,150.

Responses per respondent: 10.

Total annual responses: 1,483,592.

Hours per response: 0.01.

Total response burden hours: 14,836.

C. Public Comments

Public comments are particularly invited on: Whether this collection of information is necessary for the proper performance of functions of the FAR, and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

Obtaining Copies of Proposals: Requesters may obtain a copy of the information collection documents from the General Services Administration, Regulatory Secretariat Division (MVCB), 1800 F Street NW., Washington, DC 20405, telephone 202-501-4755.

This notice sets out a summary of the use and burden associated with the following information collections. More detailed information can be found in each collection's supporting statement and associated materials (see **ADDRESSES**).

CMS-10632 Evaluating Coverage to Care (C2C)

Under the PRA (44 U.S.C. 3501-3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. The term "collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA requires federal agencies to publish a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension or reinstatement of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, CMS is publishing this notice.

Information Collection

1. *Type of Information Collection Request:* New collection (Request for a new OMB control number); *Title of*

Information Collection: Evaluating Coverage to Care (C2C); *Use:* CMS OMH has contracted with the RAND Corporation to evaluate From Coverage to Care (C2C). From the beginning of the Affordable Care Act's implementation, the Centers for Medicare & Medicaid Services, Office of Minority Health (CMS OMH) recognized that achieving better health and reduced health care costs would require individuals to take an active role in their health care and regularly use primary and preventive care services. To address this need, CMS OMH launched From Coverage to Care (C2C) in June 2014. C2C was designed to help consumers understand what it means to have health insurance coverage, how to find a provider, when and where to seek appropriate health services, and why prevention and partnering with a provider is important for achieving optimal health. It was also designed to equip health care providers and stakeholders in the community who support consumers' connection to care with the tools needed to promote consumer engagement and to promote changes in the health care system that improve access to care. As part of C2C, CMS produced a range of consumer-oriented materials, both web-based and in print. The most in-depth of the print materials is an eight-step booklet titled "A Roadmap to Better Care and a Healthier You." Based on the need for the information to be communicated in smaller, more digestible packets, booklets were developed to correspond to each of the eight steps. Four of the most popular pages of the Roadmap have been made available as single-page handouts for easier distribution. These materials are currently available in eight languages, including English, Spanish, Arabic, Chinese, Haitian Creole, Korean, Russian, and Vietnamese.

Since the national launch in 2014, CMS has disseminated C2C through speaking engagements, webinars, and meetings sponsored by CMS regional offices. CMS fills product orders and recently completed a redesign of the C2C Web site. C2C has grown to address emerging needs of consumers, as well as stakeholders or organizations that work with and support consumers, across the full continuum of health insurance and care: Plan selection, enrollment, finding a provider, and engaging in care over time.

RAND spent the past year designing and preparing for this evaluation to assess C2C's impact on consumer health insurance literacy and care utilization. This evaluation will also help CMS understand how C2C is spread within a community and disseminated to consumers, and in turn how best to
