

requirements for all service providers no matter the risk for consumer harm. As a result, some small service providers have reported that entities have imposed the same due diligence requirements on them as for the largest service providers. The amendment clarifies that the risk management program may be tailored very appropriately to the size, market, and level of risk for consumer harm presented by the service provider.

This change is consistent with the guidance of the Federal prudential regulators and aligns the bulletin with the Bureau's approach that a risk management program should take into account the risk of consumer harm presented by the service being provided and supervised entities may tailor their due diligence based on the risk of consumer harm. Appropriate risk management programs would further the goal of ensuring that entities comply with Federal consumer financial laws and avoid consumer harm, including when using service providers.

6. Conclusion

The Bureau expects that regular publication of *Supervisory Highlights* will continue to aid CFPB-supervised entities in their efforts to comply with Federal consumer financial law. The report shares information regarding general supervisory and examination findings (without identifying specific institutions, except in the case of public enforcement actions), communicates operational changes to the program, and provides a convenient and easily accessible resource for information on the CFPB's guidance documents.

SUPPLEMENTARY INFORMATION:

A. Purpose

Public disclosure of Greenhouse Gas (GHG) emissions and reduction goals or targets has become standard practice in many industries, and companies are increasingly asking their own suppliers about their GHG management practices. Performing a GHG inventory provides insight into operations, spurs innovation, and helps identify opportunities for efficiency and savings that can result in both environmental and financial benefits. By asking suppliers whether or not they publicly report emissions and reduction targets, the Federal Government will have accurate, up-to-date information on its suppliers. An annual representation will promote transparency and demonstrate the Federal Government's commitment to reducing supply chain emissions. Furthermore, by promoting GHG management and emissions reductions in its supply chain, the Federal Government will encourage supplier innovation, greater efficiency, and cost savings, benefitting both the Government and suppliers and adding value to the procurement process.

This representation would be mandatory only for vendors who received \$7.5 million or more in Federal contract awards in the preceding Federal fiscal year. The representation would be voluntary for all other vendors. Additionally, as long as the vendor's emissions are reported publicly—either by the entity itself or rolled up into the public emissions report of a parent company—the emissions would be considered publicly reported.

B. Annual Reporting Burden

Respondents: 5,500.
Responses per Respondent: 1.
Annual Responses: 5,500.
Hours Per Response: .25.
Total Burden Hours: 1,375.
Affected Public: Businesses or other for-profit and not for profit institutions.
Frequency: Annual.

C. Public Comments

Public comments are particularly invited on: Whether this collection of information is necessary for the proper

performance of functions of the FAR, and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

Obtaining Copies of Proposals:

Requesters may obtain a copy of the information collection documents from the General Services Administration, Regulatory Secretariat (MVCB), 1800 F Street NW., Washington, DC 20405, telephone 202-501-4755.
