SUPPLEMENTARY INFORMATION:

A. Instructions

All comments must be in writing and submitted through one of the methods specified in the **ADDRESSES** section above. All submissions must include the title of the action and RIN for this rulemaking. Please include your name, title, organization, postal address, telephone number, and email address in the text of the message.

Comments submitted by email must be included in the text of the email or attached as a PDF file. Please avoid using special characters and any form of encryption. Please note that USAID

recommends sending all comments to the Federal eRulemaking Portal because security screening precautions have slowed the delivery and dependability of surface mail to USAID/Washington.

Three days after receipt of a comment and until finalization of the action, all comments will be made available at <http://www.regulations.gov> for public review without change, including any personal information provided. We recommend you do not submit information that you consider Confidential Business Information (CBI) or any information that is otherwise protected from disclosure by statute.

USAID will only address comments that explain why the rule would be inappropriate, ineffective, or unacceptable without a change. Comments that are insubstantial or outside the scope of the rule may not be considered.

B. Background

The Federal Government has been taking proactive steps to improve management and oversight of IT equipment especially in light of recent federal cybersecurity incidents. As part of a larger Agency effort to strengthen and clarify existing policy and procedures for accountability of all USAID Information Technology (IT) equipment and access to agency facilities and information systems, USAID is clarifying the requirements in the clause in the AIDAR at § 752.245-70, Government Property—USAID reporting requirements. While the clarifications are minor in nature, the entire clause at § 752.245-70 is being replaced at this time to correct formatting.

As stated in the clause at § 752.245-70, government-furnished property includes personal property furnished either prior to or during the performance of the contract by any U.S. Government accountable officer to the contractor for use in connection with performance of this contract and identified by such officer as accountable. Instead of requiring designation of mobile IT as accountable on a case-by-case basis, the clause is being amended to clarify that all mobile Information Technology (IT) equipment is identified as accountable. This includes both mobile IT equipment that is USAID-owned and furnished to the contractor, as well as contractor acquired mobile IT equipment, title to which vests in the U.S. Government. Mobile IT equipment includes, but is not limited to, mobile phones (e.g. smartphones), laptops, tablets, and encrypted devices. The format of the required Annual Report of Government

Property in Contractor's Custody is corrected to read that all accountable government-furnished property must be reported.

C. Regulatory Planning and Review

This rule has been determined to be “nonsignificant” under Executive Order 12866, Regulatory Planning and Review, dated September 30, 1993 and, therefore, is not subject to review.

This rule is not a major rule under 5 U.S.C. 804.

D. Regulatory Flexibility Act

The proposed rule does not have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.* Therefore, an Initial Regulatory Flexibility Analysis has not been performed.

E. The proposed rule clarifies but does not establish a new collection of information that requires the approval of the Office of Management and Budget under the Paperwork Reduction Act (44 U.S.C. chapter 35).

49 CFR Chapter V

[Docket No. NHTSA-2016-0090], Notice 3

Federal Automated Vehicles Policy

AGENCY: National Highway Traffic Safety Administration (NHTSA), Department of Transportation (DOT).

ACTION: Notice of public meeting.

SUMMARY: NHTSA is announcing a public meeting to seek input specifically on the Model State Policy and Modern Regulatory Tools sections of the recently released Federal Automated Vehicles Policy (the Policy). The Policy is guidance that seeks to speed the delivery of an initial regulatory framework for highly automated vehicles (HAVs) as well as encourage conformance with best practices to guide manufacturers and other entities in the safe design, development, testing, and deployment of HAVs.

The Model State Policy builds on collective knowledge gathered from safety stakeholders, and is intended to help avoid a patchwork of inconsistent laws and regulations. It outlines States' roles in regulating HAVs and lays out model procedures and requirements for use by States that wish to enact laws governing HAVs.

The Modern Regulatory Tools section includes potential new tools and authorities that could help NHTSA overcome the challenges and take advantage of the opportunities involved in the safe and expeditious development of HAVs.

Held in two distinct parts, the public meeting in the morning session will be an open listening session for the Model State Policy. In the afternoon session, there will be moderated panel discussions on the Modern Regulatory Tools. All comments during the public meeting will be oral.

DATES: NHTSA will hold the public meeting on December 12, 2016, in Arlington, VA. The meeting will start at 8:30 a.m. and continue until 5 p.m. local time. Check-in will begin at 8 a.m.
