

Procedural Requirements Environmental Compliance

In compliance with the National Environmental Policy Act (NEPA) of 1969, 42 U.S.C. 4321, *et seq.*, the Council on Environmental Quality Regulations for implementing NEPA, 40 CFR parts 1500 through 1508, and the Integrated DOE NEPA Implementing Procedures, 10 CFR part 1021, WAPA has determined this action is categorically excluded from the preparation of an environmental assessment or an EIS.

Determination Under Executive Order 12866

WAPA has an exemption from centralized regulatory review under Executive Order 12866; accordingly, no clearance of this notice by the Office of Management and Budget is required.

Regulatory Flexibility Analysis

The Regulatory Flexibility Act of 1980 (RFA), 5 U.S.C. 601, *et seq.*, requires a Federal agency to perform a regulatory flexibility analysis whenever the agency is required by law to publish a general notice of proposed rulemaking for any proposed rule, unless the agency can certify that the rule will not have a significant economic impact on a substantial number of small entities. In defining the term “rule,” the RFA specifies that a “rule” does not include “a rule of particular applicability relating to rates [and] services . . . or to valuations, costs or accounting, or practices relating to such rates [and] services . . .” 5 U.S.C. 601. WAPA has determined that this action relates to rates or services offered by WAPA and, therefore, is not a rule within the purview of the RFA.

Dated: November 18, 2016.

Mark A. Gabriel,
Administrator.

ENVIRONMENTAL PROTECTION AGENCY

[Petition IV-2015-3; FRL-9955-79-Region 4]

Clean Air Act Operating Permit Program; Petition for Objection to State Operating Permit for Tennessee Valley Authority—Bull Run (Anderson County, Tennessee)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of final order on petition to object to state operating permit.

SUMMARY: The EPA Administrator signed an Order, dated November 10, 2016, granting petition to object to Clean Air Act (CAA) title V operating permit issued by the Tennessee Department of Environment and Conservation (TDEC) to the Tennessee Valley Authority (TVA) Bull Run facility located in Clinton, Anderson County, Tennessee. This Order constitutes a final action on the petition submitted by Sierra Club and Environmental Integrity Project (Petitioners) and received by EPA on September 29, 2015.

ADDRESSES: Copies of the Order, the petition, and all pertinent information relating thereto are on file at the following location: EPA Region 4; Air, Pesticides and Toxics Management Division; 61 Forsyth Street SW.; Atlanta, Georgia 30303-8960. The Order is also available electronically at the following address: https://www.epa.gov/sites/production/files/2016-11/documents/tva_bull_run_order_granting_petition_to_object_to_permit_.pdf.

FOR FURTHER INFORMATION CONTACT: Art Hofmeister, Air Permits Section, EPA Region 4, at (404) 562-9115 or hofmeister.art@epa.gov.

SUPPLEMENTARY INFORMATION: The CAA affords EPA a 45-day period to review and, as appropriate, the authority to object to operating permits proposed by state permitting authorities under title V of the CAA, 42 U.S.C. 7661-7661f. Section 505(b)(2) of the CAA and 40 CFR 70.8(d) authorize any person to petition the EPA Administrator to object to a title V operating permit within 60 days after the expiration of EPA’s 45-day review period if EPA has not objected on its own initiative. Petitions must be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided by the state, unless the petitioner demonstrates that it was impracticable to raise these issues during the comment period or the grounds for the issues arose after this period.

Petitioners submitted a petition regarding the aforementioned TVA Bull Run facility, requesting that EPA object to the CAA title V operating permit (#01-0009/567519). Petitioners alleged that the permit was not consistent with the CAA because it lacks sufficient monitoring to assure compliance with the opacity limit established pursuant to Tennessee Comprehensive Rules & Regulations 1200-03-05-.01.

On November 10, 2016, the Administrator issued an Order granting the petition. The Order explains EPA’s rationale for granting the petition.

Dated: November 18, 2016.

Heather McTeer Toney,

Regional Administrator, Region 4.

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; Information Requirements for New Marine Compression Ignition Engines at or Above 30 Liters per Cylinder (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency has submitted an information collection request (ICR), “Information Requirements for New Marine Compression Ignition Engines at or Above 30 Liters per Cylinder (Revision),” EPA ICR Number 2345.04, OMB Number 2060-00641, to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through November 30, 2016. Public comments were previously requested via the **Federal Register** (81 FR 65634) on September 23, 2016 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. **DATES:** Additional comments may be submitted on or before December 29, 2016.

ADDRESSES: Submit your comments, referencing Docket ID Number Docket ID No. EPA-HQ-OAR-2013-0246, to (1) EPA online using www.regulations.gov (our preferred method), by email to and-r-Docket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW., Washington, DC 20460, and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA’s policy is that all comments received will be included in the public

docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT:

Nydia Yanira Reyes-Morales, Environmental Protection Agency, 1200 Pennsylvania Avenue NW., Mail Code 6403], Washington, DC 20460; telephone number: 202-343-9264; fax number: 202-343-2804; email address: reyes-morales.nydia@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, EPA West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information, visit <http://www.epa.gov/dockets>.

Abstract: For this ICR, EPA is seeking a revision to an existing package with a three year extension. Title II of the Clean Air Act, (42 U.S.C. 7521 *et seq.*; CAA), charges the Environmental Protection Agency (EPA) with issuing certificates of conformity for those engines that comply with applicable emission standards. Such a certificate must be issued before engines may be legally introduced into commerce. Under this ICR, EPA collects information necessary to (1) issue certificates of compliance with emission statements, and (2) verify compliance with various programs and regulatory provisions pertaining to marine compression-ignition engines with a specific engine displacement at or above 30 liters per cylinder, also referred to as Category 3 engines. To apply for a certificate of conformity, manufacturers are required to submit descriptions of their planned production engines, including detailed descriptions of emission control systems and test data. This information is organized by “engine family” groups expected to have similar emission characteristics. There are recordkeeping requirements of up to eight years. The Act also mandates EPA to verify that manufacturers have successfully translated their certified prototypes into mass produced engines, and that these engines comply with emission standards throughout their useful lives.

Under the Production Line Testing Program (“PLT Program”), manufacturers of Category 3 engines are

required to test each engine at the sea trial of the vessel in which the engine is installed or within the first 300 hours of operation, whichever comes first. This self-audit program allows manufacturers to monitor compliance and minimize the cost of correcting errors through early detection. In addition, owners and operators of marine vessels with Category 3 engines must record certain information and send minimal annual notifications to EPA to show that engine maintenance and adjustments have not caused engines to be noncompliant. From time to time, EPA may test in-use engines to verify compliance with emission standards throughout the marine engine’s useful life and may ask for information about the engine family to be tested.

Proprietary information is kept confidential in accordance with the Freedom of Information Act (FOIA), EPA regulations at 40 CFR parts 2 and 1042.915, and class determinations issued by EPA’s Office of General Counsel. Non-confidential business information may be disclosed as requested under FOIA. That information may be used by trade associations, environmental groups, and the public. Most of the information is collected in electronic format and stored in CD’s databases.

Form Numbers: 5900-90 (Annual Production Report); 5900-297 (PLT CumSum Report); 5900-298 (PLT Non-CumSum Report); 5900-124 (Application for Certification).

Respondents/affected entities: Manufacturers, owners or operators of marine compression-ignition engines above 30 liters per cylinder and the vessels in which those engines are installed, within the following North American Industry Classification System (NAICS) codes: 333618 (Other Engine Equipment Manufacturing), 336611 (Manufacturers of Marine Vessels); 811310 (Engine Repair and Maintenance); 483 (Water transportation, freight and passenger).

Respondent’s obligation to respond: Required to obtain or retain a benefit. Manufacturers must respond to this collection if they wish to sell and/or operate their Category 3 engines in the US, as prescribed by Section 206(a) of the CAA (42 U.S.C. 7521) and 40 CFR part 1042. Certification reporting is mandatory (Section 206(a) of CAA (42 U.S.C. 7521) and 40 CFR part 1042, subpart C). PLT reporting is mandatory (Section 206(b)(1) of CAA and 40 CFR part 1042, subpart D).

Estimated number of respondents: 201 (total).

Frequency of response: Quarterly, Annually, On Occasion, depending on the type of response.

Total estimated burden: 24,813 hours per year. Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$2,012,094 (per year), includes an estimated \$760,734 annualized capital or maintenance and operational costs.

Changes in the Estimates: There is no change in the total estimated burden from the burden currently identified in the OMB Inventory of Approved ICR Burdens.

Courtney Kerwin,

Director, Regulatory Supprt Division.

Agency Information Collection Activities; Proposed Renewal of EPA ICR No. 0616.12; Comment Request

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (PRA), this document announces that EPA is planning to submit an Information Collection Request (ICR) to the Office of Management and Budget (OMB). The ICR, entitled: “Compliance Requirement for Child-Resistant Packaging” and identified by EPA ICR No. 0616.12 and OMB Control No. 2070-0052, represents the renewal of an existing ICR that is scheduled to expire on July 31, 2017. Before submitting the ICR to OMB for review and approval, EPA is soliciting comments on specific aspects of the proposed information collection that is summarized in this document. The ICR and accompanying material are available in the docket for public review and comment.

DATES: Comments must be received on or before January 30, 2017.

ADDRESSES: Submit your comments, identified by docket identification (ID) number EPA-HQ-OPP-2016-0630, by one of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.
