[CDC-2016-0090; Docket Number NIOSH 288-A]

A Performance Test Protocol for Closed System Transfer Devices Used During Pharmacy Compounding and Administration of Hazardous Drugs; Extension of Comment Period

AGENCY: National Institute for Occupational Safety and Health (NIOSH) of the Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice and extension of comment period.

SUMMARY: On September 15, 2016 the Director of the National Institute for Occupational Safety and Health (NIOSH) of the Centers for Disease Control and Prevention (CDC), published a notice in the **Federal Register** [81 FR 63482] announcing a public meeting and request for public comment on a draft testing protocol. Written comments were to be received by December 7, 2016. In response to a request from interested parties, NIOSH has extended the comment period until June 7, 2017. The longer timeframe will allow companies to acquire the proposed challenge agents and test their CSTDs with the proposed universal CSTD performance test protocol.

DATES: NIOSH is extending the comment period on the document published September 15, 2016 [81 FR 63482]. Electronic or written comments must be received by June 7, 2017.

Administration for Children and Families

Submission for OMB Review; Comment Request

Title: Head Start Family and Child Experiences Survey (FACES).

OMB No.: 0970-0151.

Description: The Office of Planning, Research and Evaluation (OPRE), Administration for Children and Families (ACF), U.S. Department of Health and Human Services (HHS), is proposing to collect data for a new round of the Head Start Family and Child Experiences Survey (FACES). Featuring a new "Core Plus" study design, FACES will provide data on a set of key indicators, including information for performance measures. The design allows for more rapid and frequent data reporting (Core studies) and serves as a vehicle for studying more complex issues and topics in greater detail and with increased efficiency (Plus studies).

The FACES Core study will assess the school readiness skills of Head Start children, survey their parents, and ask their Head Start teachers to rate children's social and emotional skills.

In addition, FACES will include observations in Head Start classrooms, and program director, center director, and teacher surveys. FACES Plus studies include additional survey content of policy or programmatic interest, and may include additional

programs or respondents beyond those participating in the Core FACES study.

Previous notices provided the opportunity for public comment on the proposed Head Start program recruitment and center selection process (FR V.78, pg.75569 12/12/2013; FR V.79, pg.8461 02/12/2014), the child-level data collection in fall 2014 and spring 2015 (FR V. 79, pg. 11445 02/28/2014; FR V. 79; pg. 27620 5/14/2014), the program- and classroom-level spring 2015 data collection activities (FR v.79; pg. 73077 12/09/2014), the American Indian and Alaska Native Head Start Family and Child Experiences Survey (AI/AN FACES) child-level data collection activities in fall 2015 and spring 2016 (FR V. 80, pg. 30250 08/07/2015) and AI/AN FACES program- and classroom-level spring 2016 data collection activities (FR V. 80, pg 70231 11/13/2015).

This 30-day notice describes the planned additional data collection activities for FACES program- and classroom-level data collection in spring 2017. Spring 2017 data collection includes site visits to 360 centers in 180 Head Start programs. As in spring 2015, for the Core study teachers, program directors, and center directors will each complete surveys, approximately 25 to 30 minutes in length. Two Plus studies are planned related to program functioning for spring 2017. First, program and center directors in all 180 programs (and 360 centers) will complete a 5-minute survey on how programs are planning for implementing the new Head Start program performance standards. Second, all 720 teachers will complete a survey on program functioning, initially piloted in spring 2015.

The purpose of the Core data collection is to support the 2007 reauthorization of the Head Start program (Pub. L. 110-134), which calls for periodic assessments of Head Start's quality and effectiveness. As additional information collection activities are fully developed, in a manner consistent with the description provided in the 60-day notice (79 FR 11445) and prior to use, we will submit these materials for a 30-day public comment period under the Paperwork Reduction Act.

Respondents: Head Start teachers and Head Start directors.
