Foreign-Trade Zones Board

[B-84-2016]

Foreign-Trade Zone (FTZ) 21— Dorchester County, South Carolina, Notification of Proposed Production Activity, AGRU America Charleston, LLC (Industrial Pipes), North Charleston, South Carolina

The South Carolina State Ports Authority, grantee of FTZ 21, submitted a notification of proposed production activity to the FTZ Board on behalf of AGRU America Charleston, LLC (AGRU), located in North Charleston, South Carolina. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on December 9, 2016.

The AGRU facility is located within Site 5 of FTZ 21. The facility is used for the production of large volume industrial pipes for high volume flow applications. Pursuant to 15 CFR 400.14(b), FTZ activity would be limited to the specific foreign-status materials and components and specific finished products described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt AGRU from customs duty payments on the foreign-status component used in export production. On its domestic sales, AGRU would be able to choose the duty rate during customs entry procedures that applies to high density polyethylene (HDPE) pipes (duty rate 3.1%) for the foreign-status input noted below. Customs duties also could possibly be deferred or reduced on foreign-status production equipment.

The components and materials sourced from abroad include high density polyethylene (HDPE) pellets having relative viscosity of 1.44 or more (duty rate 6.5%).

Public comment is invited from interested parties. Submissions shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is January 25, 2017.

A copy of the notification will be available for public inspection at the Office of the Executive Secretary, Foreign-Trade Zones Board, Room 21013, U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230-0002, and in the "Reading Room" section of the Board's Web site, which is accessible via www.trade.gov/ftz.

For further information, contact Elizabeth Whiteman at Elizabeth.Whiteman@trade.gov or (202) 482-0473.

Dated: December 12, 2016.

Andrew McGilvray,
Executive Secretary.

Lightweight Thermal Paper From the People's Republic of China: Final Results of Antidumping Duty Administrative Review; 2014-2015

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: On August 12, 2016, the Department of Commerce ("Department") published the preliminary results of the administrative review of the antidumping duty order on lightweight thermal paper ("LWTP") from the People's Republic of China ("PRC"). The period of review ("POR") is November 1, 2014, through October 31, 2015. The review covers two exporters of subject merchandise: Jaan Huey Co. Ltd. ("Jaan Huey") and Shanghai Hanhong Paper Co., Ltd. and Hanhong Paper Co. Ltd (together, "Hanhong"). We invited interested parties to comment on our preliminary results. No party provided comment. Accordingly, for the final results of review, we continue to find that because neither respondent participated in this review, Jaan Huey and Hanhong have not demonstrated eligibility for a

separate rate in this segment of the proceeding, and therefore, we are treating both as part of the PRC-wide entity.

DATES: Effective December 16, 2016.

FOR FURTHER INFORMATION CONTACT: Keith Haynes, AD/CVD Operations, Office III, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-5139.

SUPPLEMENTARY INFORMATION:

Background

On August 12, 2016, the Department of Commerce ("Department") published the *Preliminary Results*¹ of the instant review, preliminarily finding that because neither respondent participated in this review, Jaan Huey and Hanhong did not demonstrate eligibility for a separate rate in this segment of the proceeding and are, thus, both a part of the PRC-wide entity. We invited interested parties to submit comments on the *Preliminary Results*. We received no comments from interested parties.

The Department has conducted this review in accordance with section 751(a)(1)(B) of the Tariff Act of 1930, as amended ("the Act").

Scope of the Order

The merchandise covered by this review includes certain lightweight thermal paper, which is thermal paper with a basis weight of 70 grams per square meter (g/m²) (with a tolerance of ± 4.0 g/m²) or less; irrespective of dimensions;² with or without a base coat³ on one or both sides; with thermal active coating(s)⁴ on one or both sides that is a mixture of the dye and the developer that react and form an image when heat is applied; with or without

¹ See *Lightweight Thermal Paper from the People's Republic of China: Preliminary Results of Antidumping Duty Administrative Review; 2014-2015*, 81 FR 53431 (August 12, 2016) ("*Preliminary Results*").

² LWTP is typically produced in jumbo rolls that are slit to the specifications of the converting equipment and then converted into finished slit rolls. Both jumbo and converted rolls (as well as LWTP in any other form, presentation, or dimension) are covered by the scope of these orders.

³ A base coat, when applied, is typically made of clay and/or latex and like materials and is intended to cover the rough surface of the paper substrate and to provide insulating value.

⁴ A thermal active coating is typically made of sensitizer, dye, and co-reactant.
