

contained in its July 10, 2007 letter of assurance (LOA) to the U.S. Department of Justice (DOJ), U.S. Department of Homeland Security (DHS), and Federal Bureau of Investigation (FBI). The LOA outlines a number of commitments made by Redes to address national security, law enforcement, and public safety concerns.

On April 13, 2016, DOJ with the concurrence of DHS (collectively, the "Executive Branch Agencies") notified the Commission of Redes' non-compliance with the conditions of its authorization and requested that the Commission terminate, declare null and void and no longer in effect, the international section 214 authorization issued to Redes. The Executive Branch Agencies stated that on July 31, 2012, the designated point of contact informed DHS that Redes is no longer in business and open source research conducted by DHS confirms this fact. In addition, the Executive Branch Agencies stated that Redes has not filed any of its international traffic and revenue reports with the Commission since 2007. Based on this, the Executive Branch Agencies conclude that Redes is no longer providing services pursuant to its authorization.

The Commission has made significant efforts to communicate with Redes, but has also been unable to do so. On July 5, 2016, the International Bureau sent Redes a letter to the last addresses of record requesting that Redes respond to the *April 13, 2016 Executive Branch Letter* by August 3, 2016. Redes did not respond. Since that time, the International Bureau has provided Redes with additional opportunities to respond to these allegations. The International Bureau stated that failure to respond would result in termination of Redes' international section 214 authorization for failure to comply with the condition of its authorization. To date, Redes has not responded to any of the International Bureau or the Executive Branch Agencies' multiple requests to resolve this matter.

Discussion

We determine that Redes' international section 214 authorization to provide services issued under File No. ITC-214-20070515-00189 has terminated for inability to comply with an express condition for holding the international section 214 authorization. The International Bureau provided Redes with notice and opportunity to respond to the allegations in the *April 13, 2016 Executive Branch Letter* concerning Redes' non-compliance with the condition of the grant. Redes has not responded to any of our multiple

requests or requests from the Executive Branch Agencies. We find that Redes' failure to respond to our multiple requests demonstrates that it is unable to satisfy the LOA commitments, upon which the Executive Branch Agencies relied in providing their non-objection to the grant of the authorization to Redes, and compliance with which is a condition of the grant of its international section 214 authorization.

Furthermore, after having received an international 214 authorization, a carrier "is responsible for the continuing accuracy of the certifications made in its application" and must promptly correct information no longer accurate, "and in any event, within thirty (30) days." Redes has failed to inform the Commission of any changes in its business status of providing international telecommunications services, as required by the rules. Finally, as part of its authorization, Redes "must file annual international telecommunications traffic and revenue as required by § 43.62." Section 43.62(b) states that "[n]ot later than July 31 of each year, each person or entity that holds an authorization pursuant to section 214 to provide international telecommunications service shall report *whether* it provided international telecommunications services during the preceding calendar year." Our records indicate that Redes failed to file annual international telecommunications traffic and revenue reports indicating whether or not Redes provided services in 2014 and 2015, as required by section 43.62(b) of the Commission's rules. Redes' failure to adhere to the Commission's rules designed to ensure its ability to communicate with the holder of the authorization and to verify the holder is still providing service also warrants termination, wholly apart from Redes' non-compliance with the condition of its international section 214 authorization.

Ordering Clauses

Accordingly, *it is ordered*, pursuant to sections 4(i), 214, and 413 of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), 214, 413, and sections 1.47(h), 43.62, 63.18, 63.21, 63.22(h), 63.23(e), and 64.1195 of the Commission's rules, 47 CFR 1.47(h), 43.62, 63.18, 63.21, 63.22(h), 63.23(e), 64.1195, that the international section 214 authorization issued under File No. ITC-214-20070515-00189 is *hereby terminated and declared null and void*.

It is further ordered that the request of the U.S. Department of Homeland Security and U.S. Department of Justice, *is hereby granted*, to the extent set forth in this Order.

It is further ordered that a copy of this Order shall be sent by return receipt requested to Redes Modernas de la Frontera SA de CV at its last known addresses. In addition, this Order shall be posted in the Commission's Office of the Secretary.

It is further ordered that a copy of this Order, or a summary thereof, shall be published in the **Federal Register**.

This Order is issued on delegated authority under 47 CFR 0.51, 0.261, and is effective upon release. Petitions for reconsideration under section 1.106 of the Commission's rules, 47 CFR 1.106, or applications for review under section 1.115 of the Commission's rules, 47 CFR 1.115, may be filed within 30 days of the date of the release of this Order.

BILLING CODE P

FEDERAL COMMUNICATIONS COMMISSION

[DA 16-1322]

Order Declares IP To Go, LLC Section 214 Authorization Terminated

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: In this document, the International Bureau of the Federal Communications Commission (Commission) declares the international section 214 authorization granted to IP To Go, LLC (IPTG) terminated given IPTG's inability to comply with an express condition for holding the authorization. It also concludes that IPTG failed to comply with those requirements of the Communications Act of 1934, as amended (the Act) and the Commission's rules that ensure that the Commission can contact and communicate with the authorization holder and verify IPTG is still providing service, which failures have prevented any way of addressing IPTG's inability to comply with the condition of its authorization.

FOR FURTHER INFORMATION CONTACT:

Veronica Garcia-Ulloa, Telecommunications and Analysis Division, International Bureau at (202) 418-0481 or Veronica.Garcia-Ulloa@fcc.gov.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's Order, DA 16-1322, adopted and released November 30, 2016. The full text of this

document can be located at http://transition.fcc.gov/Daily_Releases/Daily_Business/2016/db1130/DA-16-1322A1.pdf.

Background

Section 214(a) of the Act prohibits any carrier from constructing, extending, acquiring, or operating any line, and from engaging in transmission through any such line, without first obtaining a certificate of authorization from the Commission. Under section 214(c) of the Act, the Commission “may attach to the issuance of the certificate such terms and conditions as in its judgment the public convenience and necessity may require.” On December 19, 2011, the International Bureau granted IPTG an international section 214 authorization to provide international global or limited global facilities-based authority, and global or limited global resale authority, in accordance with section 63.18(e)(1) and 63.18(e)(2) of the Commission’s rules. The International Bureau granted the application on the express condition that IPTG abide by the commitments and undertakings contained in its December 5, 2011 letter of assurance (LOA) to the U.S. Department of Justice (DOJ). The LOA outlines a number of commitments made by IPTG to address national security, law enforcement, and public safety concerns.

On April 11, 2016, DOJ notified the Commission of IPTG’s non-compliance with the conditions of its authorization and requested that the Commission terminate, declare null and void and no longer in effect, and/or revoke the international section 214 authorization issued to IPTG. DOJ believes that IPTG “is neither providing services pursuant to authorization file number ITC–214–20090508–00208 nor still in existence.” DOJ stated that it has been unable to contact IPTG using the telephone numbers listed in its application or through open source research since January 2016. Additionally, DOJ indicates that it contacted IPTG via the email addresses provided in IPTG’s application several times since January 2016, with no response. DOJ states that IPTG listed a telephone number on its application as belonging to Alonzo Bevene from the Regulatory Back Office, Inc., but that number belongs to Maldonado Law Group. DOJ stated that in February 2016, DOJ called and Mr. Maldonado answered this number advising DOJ “that the firm is no longer on retainer with IPTG and has no forwarding information for the company.” Finally, DOJ stated that the Florida Department of State Division of Corporations lists IPTG as an active

company as of May 22, 2007 with a mailing address for Hitstay, a travel company, also owned by IPTG business owner, Ricardo Mandini, but no telephone number was found for Hitstay.

The Commission has made significant efforts to communicate with IPTG, but has also been unable to do so. On July 5, 2016, the International Bureau sent IPTG a letter to the last addresses of record requesting that IPTG respond to the *April 11, 2016 Executive Branch Letter* by August 3, 2016. IPTG did not respond. Since that time, the International Bureau has provided IPTG with additional opportunities to respond to these allegations. The International Bureau stated that failure to respond would result in termination of IPTG’s international section 214 authorization for failure to comply with the condition of its authorization. In IPTG’s application, IPTG stated it was incorporated in Florida, and according to the Florida Department of State Division of Corporations, on October 14, 2016, IPTG filed a voluntary dissolution letter and is now listed as “inactive.” To date, IPTG has not responded to any of the International Bureau or DOJ’s multiple requests to resolve this matter.

Discussion

We determine that IPTG’s international section 214 authorization to provide services issued under File No. ITC–214–20090508–00208 has terminated for inability to comply with an express condition for holding the international section 214 authorization. The International Bureau provided IPTG with notice and opportunity to respond to the allegations in the *April 11, 2016 Executive Branch Letter* concerning IPTG’s non-compliance with the condition of the grant. IPTG has not responded to any of our multiple requests or requests from DOJ. We find that IPTG’s failure to respond to our multiple requests demonstrates that it is unable to satisfy the LOA commitments, upon which the Executive Branch Agencies relied in providing their non-objection to the grant of the authorization to IPTG, and compliance with which is a condition of the grant of its international section 214 authorization.

Furthermore, after having received an international section 214 authorization, a carrier “is responsible for the continuing accuracy of the certifications made in its application” and must promptly correct information no longer accurate, “and in any event, within thirty (30) days.” IPTG has failed to inform the Commission of any changes in its business status of providing

international telecommunications services, as required by the rules. Finally, as part of its authorization, IPTG “must file annual international telecommunications traffic and revenue as required by section 43.62.” Section 43.62(b) states that “[n]ot later than July 31 of each year, each person or entity that holds an authorization pursuant to section 214 to provide international telecommunications service shall report *whether* it provided international telecommunications services during the preceding calendar year.” Our records indicate that IPTG failed to file annual international telecommunications traffic and revenue reports indicating whether or not IPTG provided services in 2014 and 2015, as required by section 43.62(b) of the Commission’s rules. IPTG’s failure to adhere to the Commission’s rules designed to ensure its ability to communicate with the holder of the authorization and to verify if the holder is still providing service also warrants termination, wholly apart from IPTG’s non-compliance with the condition of its international section 214 authorization.

Ordering Clauses

Accordingly, *it is ordered*, pursuant to sections 4(i), 214, and 413 of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), 214, 413, and sections 1.47(h), 43.62, 63.18, 63.21, 63.22(h), 63.23(e), and 64.1195 of the Commission’s rules, 47 CFR 1.47(h), 43.62, 63.18, 63.21, 63.22(h), 63.23(e), 64.1195, that the international 214 authorization issued under File No. ITC–214–20090508–00208 is *herely terminated and declared null and void*.

It is further ordered that the request of the U.S. Department of Justice, *is hereby granted*, to the extent set forth in this Order.

It is further ordered that a copy of this Order shall be sent registered mail, return receipt requested to IP To Go, LLC at its last known addresses. In addition, this Order shall be posted in the Commission’s Office of the Secretary.

It is further ordered that a copy of this Order, or a summary thereof, shall be published in the **Federal Register**.

This Order is issued on delegated authority under 47 CFR 0.51, 0.261, and is effective upon release. Petitions for reconsideration under section 1.106 of the Commission’s rules, 47 CFR 1.106, or applications for review under section 1.115 of the Commission’s rules, 47 CFR 1.115, may be filed within 30 days of the date of the release of this Order.

 Prevention**

[30Day-17-16ATI]

**Agency Forms Undergoing Paperwork
 Reduction Act Review**

The Centers for Disease Control and Prevention (CDC) has submitted the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995. The notice for the proposed information collection is published to obtain comments from the public and affected agencies.

Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address any of the following: (a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) Enhance the quality, utility, and clarity of the information to be collected; (d) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other

technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses; and (e) Assess information collection costs.

To request additional information on the proposed project or to obtain a copy of the information collection plan and instruments, call (404) 639-7570 or send an email to *omb@cdc.gov*. Written comments and/or suggestions regarding the items contained in this notice should be directed to the Attention: CDC Desk Officer, Office of Management and Budget, Washington, DC 20503 or by fax to (202) 395-5806. Written comments should be received within 30 days of this notice.

Proposed Project

Development of CDC’s Act Against AIDS Social Marketing Campaigns Targeting Consumers—New—National Center for HIV/AIDS, Viral Hepatitis, STD, and TB Prevention (NCHHSTP, Centers for Disease Control and Prevention (CDC).

Background and Brief Description

In an effort to refocus attention on domestic HIV and AIDS, CDC launched the Act Against AIDS (AAA) initiative in 2009 with the White House and the U.S. Department of Health and Human Services. AAA is a multifaceted national communication initiative that supports reduction of HIV incidence in the U.S. through multiple, concurrent communication and education campaigns for a variety of audiences including, the general public populations most affected by HIV and health care providers. The campaigns target consumers 18-64 years old and include the following audiences: (1) Men who have sex with men (MSM) of all races; (2) Blacks/African Americans; (3) Hispanics/Latinos; (4) Transgender individuals; (5) HIV-positive individuals; and (6) national audience

of all races. All campaigns support the comprehensive HIV prevention efforts of CDC and the National HIV/AIDS Strategy (NHAS).

The goal of this study is to qualitatively test messages and materials that will be used in specific HIV social marketing campaigns under the AAA initiative that target consumers in order to increase HIV testing rates, increase HIV awareness and knowledge, challenge commonly held misperceptions about HIV, and promote HIV prevention and risk reduction. The intended use of the resulting data is for CDC to revise and/or develop timely, relevant, clear, and engaging materials for these social marketing campaigns.

Qualitative methods will be used to collect the data include focus groups, intercept interviews, and in-depth interviews. Qualitative methods provide flexible in-depth exploration of the participants’ perceptions and experience; and the interviews yield descriptions in the participants’ own words. Qualitative methods also allow the interviewer flexibility to pursue relevant and important issues as they arise during the discussion.

The participants will also participate in a brief 15-minute brief survey. Data collected by the brief survey will provide a source of quantitative data supplementing the qualitative data collected during the interviews. The brief survey will be administered to participants before the individual in-depth interview and focus group. The survey will collect basic background information about the participants’ knowledge, attitudes and beliefs about HIV, HIV testing behaviors, risk behaviors and demographics to enable us to more fully describe the participants.

There is no cost to participants other than their time. The total estimated annualized burden hours are 2,063.

ESTIMATED ANNUALIZED BURDEN HOURS

Respondents	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)
Individuals (males and females) aged 18-64.	Study screener	2338	1	2/60
