Amendments To Streamline Importation of Distilled Spirits, Wine, Beer, Malt Beverages, Tobacco Products, Processed Tobacco, and Cigarette Papers and Tubes and Facilitate Use of the International Trade Data System**AGENCY:** Alcohol and Tobacco Tax and Trade Bureau, Treasury.**ACTION:** Final rule; Treasury decision.

SUMMARY: In this document, the Alcohol and Tobacco Tax and Trade Bureau is amending its regulations governing the importation of distilled spirits, wine, beer and malt beverages, tobacco products, processed tobacco, and cigarette papers and tubes. The amendments in this document clarify and streamline import procedures, and support the implementation of the International Trade Data System and the filing of import information electronically. The amendments include providing the option for importers to file import-related data electronically when filing entry or entry summary data electronically with U.S. Customs and Border Protection (CBP), as an alternative to current TTB requirements that importers submit paper documents to CBP upon importation.

DATES: This final rule is effective December 31, 2016.

List of Subjects**Amendments to the Regulations****I. Background****A. TTB Authority**

The Alcohol and Tobacco Tax and Trade Bureau (TTB) of the Department of the Treasury regulates, among other things, the importation of distilled spirits, wine, and malt beverages¹ pursuant to the Federal Alcohol Administration Act (FAA Act). TTB also administers the provisions of the Internal Revenue Code of 1986, as amended (IRC), with respect to the taxation of distilled spirits, wine, beer,² tobacco products, processed tobacco, and cigarette papers and tubes. These statutory provisions are the basis of TTB regulations that require importers to submit certain information upon importation.

Section 103(a) of the FAA Act (27 U.S.C. 203(a)) requires that a person obtain a permit before engaging in certain activities related to distilled spirits, wine, and malt beverages, including importation. This section of the FAA Act states that it shall be unlawful, except pursuant to a “basic permit” issued by the Secretary of the Treasury (the Secretary), to engage in the business of importing into the United States distilled spirits, wine, or malt beverages. Section 103(a) of the FAA Act also states that it is unlawful, except pursuant to a basic permit, for any person so engaged to sell, offer or deliver for sale, contract to sell, or ship, in interstate or foreign commerce, directly or indirectly or through an affiliate, distilled spirits, wine, or malt beverages so imported. The terms “distilled spirits” and “wine,” when used in the context of the FAA Act,

¹ The FAA Act defines “malt beverage” as “a beverage made by the alcoholic fermentation of an infusion or decoction, or combination of both, in potable brewing water, of malted barley with hops, or their parts, or their products, and with or without other malted cereals, and with or without the addition of unmalted or prepared cereals, other carbohydrates or products prepared therefrom, and with or without the addition of carbon dioxide, and with or without other wholesome products suitable for human food consumption.” See 27 U.S.C. 211(a)(7). Throughout this document, the term “malt beverage” is used in reference to the FAA Act or regulations promulgated thereunder.

² The IRC defines “beer” as “beer, ale, porter, stout, and other similar fermented beverages (including sake or similar products) of any name or description containing one-half of 1 percent or more of alcohol by volume, brewed or produced from malt, wholly or in part, or from any substitute therefor.” See 26 U.S.C. 5052(a). Throughout this document, the term “beer” is used in reference to the IRC or regulations promulgated thereunder.

apply only to distilled spirits and wine for nonindustrial use.

Additionally, section 105(e) of the FAA Act (27 U.S.C. 205(e)) authorizes the Secretary to prescribe regulations relating to the packaging, marking, branding, labeling, and size and fill of containers of distilled spirits, wine, and malt beverages. With regard to imported commodities, the FAA Act provides that no person shall remove from customs custody, in bottles, for sale or any other commercial purpose, distilled spirits, wine, or malt beverages, without having obtained a certificate of label approval (COLA) and being in possession of that COLA.

Chapter 51 of the IRC pertains to the taxation and regulation of distilled spirits (including spirits used for both beverage and nonbeverage purposes), wine, and beer (see 26 U.S.C. chapter 51). The IRC imposes a Federal excise tax on all distilled spirits, wine, and beer manufactured in or imported into the United States. See, respectively, 26 U.S.C. 5001, 5041, and 5051. Section 7652 (26 U.S.C. 7652) imposes a tax on distilled spirits, wine, and beer brought into the United States from Puerto Rico and the U.S. Virgin Islands. The tax is equal to the internal revenue tax imposed on like commodities produced in the United States.

In general, the tax on distilled spirits, wine, and beer either imported from foreign countries or brought into the United States from the U.S. Virgin Islands is collected by U.S. Customs and Border Protection (CBP), along with any import duties. Puerto Rico is within the customs territory of the United States, and, as a result, shipments of such products from Puerto Rico do not pass through customs custody when brought into the United States. Furthermore, Puerto Rico is part of the United States for purposes of the FAA Act. See 27 U.S.C. 211(a)(1). This rule primarily addresses amendments to the TTB regulations to facilitate the electronic filing of information with CBP, and, as a result, distilled spirits, wine, and beer brought into the United States from Puerto Rico are not addressed in this document.

The IRC provides that, under limited circumstances, products may be withdrawn from customs custody without payment of tax for transfer to the bonded premises of an industry member regulated by TTB. Proprietors of distilled spirits plants must apply for and receive notice of a registration before commencing operations in the United States. See 26 U.S.C. 5171. Proprietors of bonded wine cellars must also apply for and receive permission to operate before commencing operations

in the United States. See 26 U.S.C. 5351. Brewers must file a notice before commencing business as a brewer in the United States. See 26 U.S.C. 5401. TTB assigns a registry number, referred to in this document as the “IRC registry number,” to each such distilled spirits plant, bonded wine cellar, and brewery at which operations are to be conducted. The IRC registry number issued to distilled spirits plants has been historically referred to as the “distilled spirits plant number.”

Under sections 5232, 5364, and 5418 of the IRC (26 U.S.C. 5232, 5364, and 5418), distilled spirits may be imported in bulk and released from customs custody without payment of excise tax for transfer in bond to a distilled spirits plant; natural wine (as defined in 26 U.S.C. 5381) may be imported in bulk and released from customs custody without payment of excise tax for transfer in bond to a bonded wine cellar; and beer may be imported in bulk and released from customs custody without payment of excise tax for transfer in bond to a brewery. Under these circumstances, the proprietor of the bonded premises becomes liable for the tax on the product upon its release from customs custody, and the applicable tax is collected by TTB when the product is removed from the distilled spirits plant, bonded wine cellar, or brewery, respectively.

The IRC also contains provisions under which imported distilled spirits may be entered free of tax by the United States or any governmental agency of the United States for nonbeverage purposes. See 26 U.S.C. 5313; 5314(b). Furthermore, industrial alcohol may under certain circumstances be brought into the United States free of tax from the U.S. Virgin Islands by qualified industrial alcohol users. See 26 U.S.C. 5314(b).

Chapter 52 of the IRC contains excise tax and related provisions pertaining to tobacco products and cigarette papers and tubes. Section 5701 of the IRC (26 U.S.C. 5701) imposes Federal excise tax on such commodities manufactured in or imported into the United States. Section 7652 (26 U.S.C. 7652) imposes a tax on tobacco products and cigarette papers and tubes brought into the United States from Puerto Rico and the U.S. Virgin Islands. The tax is equal to the internal revenue tax imposed on like commodities produced in the United States. Such commodities brought into the United States from Puerto Rico are not addressed in this document.

In general, the tax on tobacco products and cigarette papers and tubes either imported from foreign countries or brought into the United States from

the U.S. Virgin Islands is collected by CBP, along with any import duties. Under 26 U.S.C. 5704, imported tobacco products and cigarette papers and tubes may be released from customs custody without payment of tax for delivery to the proprietor of an export warehouse³ or to a manufacturer of tobacco products or cigarette papers and tubes if such commodities are not put up in packages, in accordance with such regulations and under such bond as the Secretary shall prescribe. See 26 U.S.C. 5704(c). Imported tobacco products and cigarette papers and tubes previously exported and returned may be released from customs custody without payment of tax for delivery to the original manufacturer or to an export warehouse proprietor authorized by such manufacturer to receive the commodities, in accordance with such regulations and under such bond as the Secretary shall prescribe. See 26 U.S.C. 5704(d).

Chapter 52 of the IRC also contains provisions pertaining to the manufacture and importation of processed tobacco, which is not subject to tax. Section 5712 of the IRC (26 U.S.C. 5712) requires that importers of tobacco products or processed tobacco, before engaging in such businesses, apply for and obtain a permit.

TTB administers the FAA Act and chapters 51 and 52 of the IRC pursuant to section 1111(d) of the Homeland Security Act of 2002, as codified at 6 U.S.C. 531(d). The Secretary has delegated various authorities through Treasury Department Order 120–01, dated December 10, 2013 (superseding Treasury Department Order 120–01, dated January 24, 2003), to the TTB Administrator to perform the functions and duties in the administration and enforcement of these provisions. Responsibility for collecting the excise taxes incident to the importation of distilled spirits, wines, beer, tobacco products, and cigarette papers and tubes is vested by statute with the Secretary of the Treasury. See 26 U.S.C. 7801. TTB regulations provide that such taxes are collected, accounted for, and deposited as internal revenue collections by CBP in accordance with CBP requirements. See 27 CFR 27.48 and 41.62. Under the authority of the Homeland Security Act of 2002, see 6 U.S.C. 212 and 215(1), the Secretary has

³ Under the IRC at 26 U.S.C. 5702(h), an export warehouse is a bonded internal revenue warehouse for the storage of tobacco products or cigarette papers or tubes or any processed tobacco, upon which the internal revenue tax has not been paid, for subsequent shipment to a foreign country, Puerto Rico, the U.S. Virgin Islands, or a possession of the United States, or for consumption beyond the jurisdiction of the internal revenue laws of the United States.

delegated these customs revenue functions to the Secretary of Homeland Security. See Treasury Department Order 100–16, 68 FR 28322 (May 23, 2003).

TTB has authority under section 2(d) of the FAA Act, Public Law 74–401 (1935) “to prescribe such rules and regulations as may be necessary to carry out [its] powers and duties” under the FAA Act. In addition, as previously mentioned, section 105(e) of the FAA Act (27 U.S.C. 205(e)), authorizes the Secretary of the Treasury to prescribe regulations for the labeling of wine, distilled spirits, and malt beverages. Section 7805(a) of the IRC (26 U.S.C. 7805(a)) provides the general authority to the Secretary to issue regulations to carry out the provisions of the IRC.

The TTB regulations that implement the basic permit requirements of the FAA Act are set forth in part 1 of title 27 of the Code of Federal Regulations (27 CFR part 1).

The TTB regulations that implement the labeling provisions of the FAA Act, as they relate to wine, distilled spirits, and malt beverages, are set forth in 27 CFR part 4, Labeling and Advertising of Wine (27 CFR part 4); 27 CFR part 5, Labeling and Advertising of Distilled Spirits (27 CFR part 5); and 27 CFR part 7, Labeling and Advertising of Malt Beverages (27 CFR part 7). For imported alcohol beverages specifically, these regulations include several requirements related to certification by a foreign government of the origin and, in some cases, age, vintage date, or method of production of the alcohol beverage.

Regulations implementing the importation-related provisions of chapter 51 of the IRC are found in 27 CFR part 27. Specifically, this part contains procedural and substantive requirements that apply to the importation of distilled spirits, wine, and beer into the United States from foreign countries, including requirements related to recordkeeping and reporting. Regulations implementing the IRC as it applies to distilled spirits, wine, and beer brought into the United States from Puerto Rico or the U.S. Virgin Islands are found in 27 CFR part 26.⁴

Regulations implementing the importation-related provisions of chapter 52 of the IRC are found in 27 CFR part 41. Specifically, this part governs the importation of tobacco products, cigarette papers and tubes,

⁴ 27 CFR part 26 also contains regulations applicable to articles, which are generally defined in § 26.11 as preparations unfit for beverage use. Such articles are not within the scope of this rulemaking.

and processed tobacco, including requirements related to permits, recordkeeping, and reporting. Part 41 includes provisions applicable to such commodities brought into the United States from Puerto Rico or the U.S. Virgin Islands.

B. The International Trade Data System

The International Trade Data System (ITDS) is an interagency program to establish an electronic “single window” through which importers and exporters may submit electronically the data required by Federal government agencies for clearing imports or exports. Section 405 of the Security and Accountability for Every Port Act of 2006 (SAFE Port Act) (Pub. L. 109–347) mandates participation in ITDS by all agencies that require documentation for clearing or licensing the importation and exportation of cargo.

Currently, importers and exporters that are regulated by multiple agencies or that import or export commodities regulated by multiple agencies submit data to those agencies through various channels, often in paper form. Through the implementation of ITDS, data is submitted through CBP’s Automated Broker Interface (ABI) to the Automated Commercial Environment (ACE), a CBP system, and then made available through ACE to each government agency. Accordingly, TTB is providing electronic filing options for information related to the importation of commodities regulated by TTB.

C. Executive Order 13659—Streamlining the Export/Import Process for America’s Businesses

On February 19, 2014, the President issued Executive Order 13659, “Streamlining the Export/Import Process for America’s Businesses.”⁵ The Executive Order mandated that agencies be able to utilize ITDS by December 31, 2016. The Executive Order also directed Federal agencies that use ITDS to review their existing regulations for the import and export of goods to determine whether those regulations should be modified to implement ITDS, and if so, to initiate rulemaking to implement those modifications.

D. Electronic Submission of TTB-Required Information to CBP

The current TTB provisions applicable to imports include requirements that importers submit information or documentation at importation to CBP. That information

can be submitted electronically pursuant to 27 CFR 73.40. That section provides that a regulated entity may satisfy any requirement in the TTB regulations to submit a form to another agency by submitting the form to that other agency by electronic means, as long as that agency provides for, and authorizes, the electronic submission of the form and any registration and other requirements to use the electronic submission functionality are met. In part 73, the term “form” includes any documentation required to be submitted. Section 73.40 was the result of amendments to the TTB regulations published in the **Federal Register** (79 FR 17029) on March 27, 2014, as a final rule, T.D. TTB–119, and it generally removes any regulatory barrier to the submission of documents to CBP electronically.

On August 7, 2015, TTB published in the **Federal Register** (80 FR 47558) a notice, “Importation of Distilled Spirits, Wine, Beer, Tobacco Products, Processed Tobacco, and Cigarette Papers and Tubes; Availability of Pilot Program and Filing Instructions to Test the Collection of Import Data for Implementation of the International Trade Data System.” In the notice, TTB announced a pilot program in which importers, CBP, and TTB would test, as part of the ITDS project, the electronic collection of TTB import data and the transfer of that data through ACE to TTB. Technical instructions on the submission of data using the TTB Partner Government Agency (PGA) Message Set provided in ACE were made available in “ACE Filing Instructions for TTB-Regulated Commodities” at Docket No. TTB–2016–0004 on *Regulations.gov* (www.regulations.gov). That document also appears on the CBP Web site at www.cbp.gov. On October 21, 2015, TTB also published on its Web site, www.ttb.gov, Industry Circular 2015–1, “Automated Commercial Environment Pilot Program; Alternate Method for Participants to Fulfill TTB Requirements for Importation,” to allow importers to test the usability and functionality of the TTB PGA Message Set, while still complying with regulatory requirements.

TTB notes that under these amended regulations, importers may elect not to file TTB data electronically, but may instead continue to submit paper documentation consistent with existing requirements.

II. Publication of Notice of Proposed Rulemaking

On June 21, 2016, TTB published in the **Federal Register** (81 FR 40404) a

notice of proposed rulemaking, Notice No. 159, setting forth the proposed amendments to parts 1, 4, 5, 7, 26, 27, and 41 of the TTB regulations concerning the implementation of ITDS. Notice No. 159 and the comments received in response to that document may be viewed in their entirety within Docket No. TTB–2016–0004 at the *Regulations.gov* Web site (www.regulations.gov).

As described in Notice No. 159, TTB’s general approach in the proposed regulations was to set forth new information submission requirements to better support administration and enforcement of the IRC and FAA Act with regard to imports, and require information to be submitted or made available through one of the following methods: (1) The electronic submission of TTB-required data along with the submission of the customs entry or entry summary, as appropriate; or (2) the retention and provision of information only upon specific request by TTB or CBP.

There are generally two methods of electronic submission of information: Electronic submission of data directly and electronic submission of documents as electronic images. In many instances, TTB has chosen the former, that is, to provide importers with the option to directly submit required data electronically. The regulations, however, also allow for the submission of certain paper documents as electronic images in some circumstances. In circumstances in which the amended regulations require that the importer make a document available to TTB or CBP upon request, the document may be submitted through ACE as an electronic image. Specifically, electronic images may be uploaded into ACE through the Document Imaging System (DIS) module. More information regarding the submission of data using the DIS module is available in the “ACE Filing Instructions for TTB-Regulated Commodities” at Docket No. TTB–2016–0004 on *Regulations.gov* (www.regulations.gov).

Notice No. 159 describes in detail the rationale for each proposed regulatory amendment. The principal regulatory amendments proposed in Notice No. 159 can be summarized as follows:

- *Filing of the FAA Act Basic Permit Number:* TTB proposed amendments to 27 CFR 1.58 to require that importers of alcohol beverages file their FAA Act basic permit number with CBP when filing TTB data electronically, and, regardless of the method of filing, to require that such importers make their basic permit available to TTB or CBP upon request. TTB also proposed

⁵ See <https://www.whitehouse.gov/the-press-office/2014/02/19/executive-order-streamlining-exportimport-process-america-s-businesses>.

amendments to 27 CFR 26.202 removing the requirement that importers of alcohol beverages file a copy of their FAA Act basic permit with CBP at the port of entry when bringing such products into the United States from the U.S. Virgin Islands, and instead requiring that such importers file their basic permit number with the customs entry when filing TTB data electronically, and, regardless of the method of filing, make their basic permit available to TTB or CBP upon request.

- *Filing of a COLA Identification Number or COLA Documents:* TTB proposed amendments to 27 CFR 4.40, 5.51, and 7.31 allowing importers of alcohol beverages, when filing TTB data electronically, to file with the customs entry the TTB-assigned identification number of the COLA associated with bottled wine, distilled spirits, or malt beverages. TTB also proposed amendments to 27 CFR 26.314 and 27.204 to remove requirements, applicable to distinctive liquor bottles, for importers to provide a photograph of the bottle to CBP upon entry. The proposed regulations retained the current requirement that, if the importer is not filing electronically, the importer must provide a copy of the COLA to CBP at time of entry.

- *Removal of Requirement for Certain Gin Statements of Process:* TTB proposed removing the regulatory requirement in 27 CFR 5.51(d) that a COLA covering labels for imported gin bearing the word “distilled” be accompanied by a statement of process. TTB notes that a requirement remains, pursuant to 27 CFR 5.33(g) and TTB guidance, that a statement of process be submitted to TTB as part of the application for a COLA covering labels on distilled gin products.⁶ The amendment to the regulation clarifies that the statement of process is not submitted at importation along with the approved COLA.

- *Possession and Retention of Certificates of Age, Origin, or Identity Issued by Foreign Governments for Importations of Certain Wine and Distilled Spirits Products:* TTB proposed

amendments to 27 CFR 4.45, 5.52, and 5.56 to clearly state that certain wine and distilled spirits are not eligible for release from customs custody, and no person may remove those products from customs custody, unless that person has obtained and is in possession of a certificate of age, origin, or identity, as applicable, from an official duly authorized by the appropriate foreign government. The certificate must be made available to TTB or CBP upon request. TTB proposed amending those regulatory sections and adding a new section, 27 CFR 4.53, to specify that the certificates must be retained and made available upon request for five years following importation.

- *Certification of Imported Vintage Wine:* TTB proposed amendments to 27 CFR 4.27 removing the requirement that the importer or bottler of imported vintage wine possess a specific certificate issued by a duly authorized official of the country of origin certifying that the wine meets various criteria related to the vintage wine and, instead, requiring that the importer or domestic bottler of wine be able to demonstrate upon request that the wine is entitled to be labeled with the vintage date. Other rules set forth in § 4.27 relating to the use of a vintage date on labels of imported wine remain unchanged.

- *Imported Natural Wine and Possession of Certificates:* TTB proposed amendments to 27 CFR 26.11 and 27.11 adding a definition of natural wine applicable to all of parts 26 and 27. TTB also proposed amendments to 27 CFR 4.43, 4.45, and 27.140 allowing importers and domestic bottlers to meet requirements related to natural wine certificates by having the applicable certificates in their possession, to be made available to TTB or CBP upon request. The proposed amendment to part 27 requires the certificates to be retained for three years, and the proposed amendment to part 4 requires the certificates to be retained for five years.

- *Removal of Requirement To Present CBP with Certificates of Nonstandard Fill for Wine and Distilled Spirits:* TTB proposed removing requirements at 27 CFR 4.46 and 5.53 that an importer present to CBP certification that wine or distilled spirits imported in containers not conforming to authorized standards of fill meet certain criteria showing that it is eligible for release. Review of such certification is performed by TTB when the importer submits to TTB the COLA application covering the products, and the proposal reflects TTB’s view that the showing of certification to CBP is no longer necessary.

- *Removal of Requirements Concerning Liquor Bottles and Filing Certain Applications in Triplicate:* TTB proposed amendments to 27 CFR 26.316 and 27.206 clarifying that liquor bottles found to be deceptive by the appropriate TTB officer may not be brought into the United States. TTB proposed removing provisions in 27 CFR 26.318 and 26.208 requiring that applications for authorization to receive such bottles be filed in triplicate. TTB also proposed removing provisions in §§ 26.319, 26.331, 27.209, and 27.221 requiring that applications related to receipt of used liquor bottles and applications for alternate methods or procedures be filed in triplicate.

- *Filing of Data on Distilled Spirits, Wine, and Beer Imported or Brought into the United States From the U.S. Virgin Islands Subject to Tax:* TTB proposed amendments to 27 CFR 27.48 and 26.200 requiring that importers file with CBP and/or retain certain information identifying distilled spirits, wine, and beer imported or brought into the United States from the U.S. Virgin Islands subject to tax, as well as information identifying the importer and ultimate consignee of such products. Information retained would be required to be made available upon request to TTB or CBP. The proposed amendments also provide that any information provided to CBP to meet CBP requirements, and any supporting documentation must also be made available upon request to TTB or CBP.

- *Distilled Spirits to Which an Effective Tax Rate or Standard Effective Tax Rate Applies:* TTB proposed amendments to 27 CFR 27.76 and 27.77 removing the requirement that the importer submit the certificate of effective tax rate or the standard effective tax rate approval applicable to distilled spirits at entry or entry summary, and instead requiring that the importer have the certificate in its possession at the time of filing the entry summary and make it available upon request to TTB or CBP. In the case of distilled spirits withdrawn from customs custody without payment of tax for transfer to the bonded premises of a distilled spirits plant, the current requirement remains unchanged, which is that the importer must provide a copy of the certificate of effective tax rate or the standard effective tax rate approval to the proprietor of the distilled spirits plant.

- *Alcohol Beverages Imported or Brought into the United States From the U.S. Virgin Islands in Bulk:* TTB proposed amendments to 27 CFR 27.171 and 26.300 to set forth the general provisions related to bulk beer and

⁶ At the time of publication of Notice No. 159, Industry Circular 2007-4, which addresses pre-COLA evaluation requirements, identified imported distilled gin as requiring the submission of a “pre-import letter” with the application for a COLA. Following publication of Notice No. 159, TTB issued updated pre-COLA evaluation requirements addressing distilled spirits products in guidance document TTB G 2016-3. Under both Industry Circular 2007-4 and TTB G 2016-3, as part of the application for a COLA, an importer of distilled gin must submit a pre-import letter detailing, among other things, the manufacturing process of distilled gin.

natural wine imported or brought into the United States from the Virgin Islands without payment of tax. The proposed amendments generally provide for the transfer of tax liability to the proprietor of the bonded wine cellar or bonded brewery receiving such bulk wine or beer, respectively. TTB also proposed amendments to 27 CFR 27.138, 27.172, 26.273a, and 26.301 to include transfer record requirements for bulk wine and beer released from customs custody without payment of tax, and to add specific information that is required to be captured in such records. Finally, TTB proposed various clarifying amendments in 27 CFR parts 26 and 27 relating to imports in bulk, including amendments to the definition of “bulk container” in 27 CFR 27.11 and 27 CFR 26.11.

- *Filing of Permit Number and Other Information for Industrial Alcohol Shipments to the United States From the U.S. Virgin Islands*: TTB proposed amendments to 27 CFR 26.292, 26.294, and 26.296 to provide for electronic filing of the consignee permit number and other information for tax-free industrial alcohol shipments to the United States from the U.S. Virgin Islands.

- *Filing of Permit Number and Data by Government Agencies Importing Distilled Spirits Free of Tax*: TTB proposed amendments to 27 CFR 27.183 and 27.284 to provide for electronic filing of the permit number of government agencies importing distilled spirits for nonbeverage purposes free of tax, and for electronic filing of other information associated with such imports. TTB also proposed to remove 27 CFR 27.185, as it describes customs processes and inspection related to the release of distilled spirits free of tax to government agencies. (As noted in Notice No. 159, TTB generally proposed to remove most references to actions that CBP will take at entry, and replace them, where appropriate, with text that clarifies the requirements that apply to the importer at entry.)

- *Certificate Covering Distilled Spirits, Wine, or Beer Brought into the United States From the U.S. Virgin Islands*: TTB proposed amendments to 27 CFR 26.205 and 26.260. Section 26.205 requires that every person bringing distilled spirits, wine, or beer into the United States from the U.S. Virgin Islands, except tourists, obtain a certificate in the English language from the manufacturer detailing certain information, such as the name and address of the consignee, the kind and brand name of the products, the quantity, and information upon which an effective tax rate is based. The

proposed amendments no longer require this certificate to be filed with CBP at the time of entry summary, and instead provide that the information associated with the certificate must be maintained as a record by the importer and must be made available upon request to TTB or CBP. The proposed amendments also provide that for distilled spirits, natural wine, or beer withdrawn from customs custody without payment of tax, the importer must furnish a copy of the certificate described in § 26.205 to the proprietor of the distilled spirits plant, bonded wine cellar, or brewery receiving the products.

- *Clarification of Record Retention Requirements*: TTB proposed amendments to 27 CFR 26.276 and 27.137, which set forth recordkeeping requirements for all documents or copies of documents that support records required by parts 26 and 27. The proposed amendments clarify that the three-year record retention requirements in parts 26 and 27 are measured from the time of release from customs custody, and require that such records, which include information and supporting documentation filed with CBP pursuant to CBP requirements, be made available to TTB or CBP upon request.

- *Removal of Requirements for CBP to Gauge or Inspect*: TTB proposed removing various provisions in 27 CFR parts 26 and 27 that state that customs officers shall inspect or gauge shipments of alcohol before release.

- *Filing of Data for Importation of Tobacco Products Subject to Tax and Processed Tobacco*: TTB proposed amendments to 27 CFR 41.81 providing for electronic filing of data required for imports of tobacco products and cigarette papers and tubes subject to tax. The proposed amendments require that importers of tobacco products file information identifying the importer (including the TTB permit number for importers of tobacco products) and ultimate consignee, and further require that the importer retain the required information and supporting documentation, to be made available to TTB or CBP upon request. Similar provisions applicable to imports of processed tobacco were proposed at a new section 27 CFR 41.265. In both cases, the proposed regulations additionally provide that any information and supporting documentation required as part of the entry or entry summary by CBP for CBP purposes must be made available upon request to TTB. TTB also proposed amendments to 27 CFR 41.204, which concerns records and reports, to remove references to “physical” receipt and

disposition of tobacco products. The proposed amendments require importers of tobacco products to account for all tobacco products released from customs custody under the importer’s TTB permit, including receipt and disposition. Proposed § 41.204 would also require recordkeeping by importers of cigarette papers and tubes.

- *Filing of Data for Importation of Tobacco Products Without Payment of Tax*: TTB proposed amendments to 27 CFR 41.86, which addresses the release of tobacco products and cigarette papers and tubes from customs custody without payment of tax under internal revenue bond, to provide for electronic filing of data required for imports of such articles without payment of tax. While the current regulations require the filing of a paper form, TTB F 5200.11, the proposed amendments allow the data required on TTB F 5200.11 to be input directly into ACE. The proposed amendments additionally require the filing of the importer’s TTB permit number (for tobacco products only) and the employer identification number (EIN) of the recipient of the tobacco products or cigarette papers and tubes, and require that the importer retain the required information and supporting documentation, to be made available to TTB or CBP upon request.

- *Entries for Warehousing*: TTB proposed amendments to 27 CFR 26.200, 27.45, and 27.48, and proposed a new section at 27 CFR 41.84, to incorporate statutory provisions, codified in the IRC at 26 U.S.C. 5061(a)(2) for distilled spirits, wine, and beer and at 26 U.S.C. 5703(b)(2) for tobacco products and cigarette papers and tubes, providing generally that tax is due on products entered for warehousing not later than the 14th day after the last day of the semimonthly period during which the products are removed from the first such warehouse.

Subject to certain clarifying changes described in the Discussion of Comments and Other Clarifying Changes sections below, TTB is finalizing the proposed amendments in this rulemaking.

III. Discussion of Comments

Comment Overview

TTB received seven comments in response to Notice No. 159, which included comments submitted by or on behalf of one customs brokers and several trade organizations: Portside Customs Service, Inc. (Portside Customs Service); the Comité Interprofessionnel du Vin de Champagne (Comité Champagne); the Bureau National

Interprofessionnel du Cognac; the French Federation of Wine and Spirits Exporters (or “Fédération des Exportateurs de Vins et Spiritueux de France”); the Distilled Spirits Council of the United States, Inc. (DISCUS); the National Association of Beverage Importers (NABI); and the National Association of Foreign-Trade Zones (NAFTZ).

Comments from the Comité Champagne, the French Federation of Wine and Spirits Exporters, DISCUS, and NABI expressed general support for the implementation of the electronic “single window” through which importers may submit electronically the data required by Federal government agencies for clearing imports. Each of these entities, along with the remaining commenters, also submitted requests for clarifications and/or changes to the regulatory amendments proposed in Notice No. 159.

Descriptions of the comments, along with TTB’s responses, are organized by topic and set forth below.

Possession and Retention of Certificates of Age, Origin, or Identity Issued by Foreign Governments for Importations of Certain Wine and Distilled Spirits

Comment

Three commenters expressed concern over amendments to 27 CFR 4.45 and 27 CFR 5.52. The commenters generally express concern with any shift from a requirement that certificates of age, origin, and identity be submitted to CBP in order to obtain release from customs custody to a solely post-release review, viewing such a shift as weakening the implementation of the certificate requirements and encouraging non-compliance.

The current regulations at 27 CFR 4.45 and 27 CFR 5.52 contain requirements under which importers must possess certain certifications from duly authorized foreign officials in order for the labels of those beverages to bear certain designations. In general, paragraph (a) of § 4.45 addresses certificates of origin and identity for wine, which certify the identity of the wine and that the wine has been produced in compliance with the laws of the respective foreign government regulating the production of such wine for home consumption. Paragraphs (a) through (e) of § 5.52 set forth similar certificate of origin requirements for Scotch, Irish, and Canadian whiskies; brandy, Cognac, and rum; Tequila; other whiskies; and other distilled spirits, respectively. In some cases, the certificates must also address production practices or age statements.

Under current TTB regulations, the above certificates must generally accompany the wines or distilled spirits (or accompany the invoice applicable to such wines or distilled spirits). The amended regulations at 27 CFR 4.45(a) and 27 CFR 5.52(a) through (e) instead require the importer to have the certificate in its possession, to be made available to TTB or CBP upon request.

The Comité Champagne, which is the body authorized by the government of France to issue documents that certify that wines are produced according to Champagne appellation requirements, notes in its comment its belief that systematic controls of certificates of origin remain the most effective anti-counterfeit methods. Its comment further states that since Champagne certificates of origin are secured electronic documents, systematic controls would not create unnecessary burdens for importers or U.S. controllers.

With respect to the amendments to 27 CFR 5.52(b), the Bureau National Interprofessionnel du Cognac, which describes itself as the governing body entitled by French and EU Law to protect the geographical indication Cognac and represent and defend the interest of all the Cognac producers and trade houses, expresses concern that a shift from a systematic *pre-release* monitoring of certificates of age and origin to a potential post-release review may encourage noncompliance and eventually erode Cognac’s status as a distinctive product of France under TTB’s regulations. The Bureau National Interprofessionnel du Cognac requests retention of the requirement that the certificates required under § 5.52(b) accompany the shipment.

The French Federation of Wine and Spirits Exporters, which is a trade association representing the wine and spirit exporting companies of France, commented supporting the proposed requirement that the importer must possess the certificates required under 27 CFR 4.45 and 27 CFR 5.52, as opposed to the existing requirements that the certificate accompany the wines or distilled spirits when clearing CBP. However, the French Federation of Wine and Spirits Exporters notes its concern that a shift to a “post release review on a random basis” from a systematic control upon importation might weaken the implementation of these provisions, encourage non-compliance, and eventually result in weakening the level of protection afforded to the consumer under the present regulations. The French Federation of Wine and Spirits Exporters expresses its view that

certificates required under §§ 4.45 and 5.52 must be issued with each single shipment, and properly reference the shipment information, so that a given certificate can be traced back to a single shipment. The French Federation of Wine and Spirits Exporters also encourages TTB to enforce post-entry review in a manner and at a frequency that will encourage compliance, and to enforce tough penalties for noncompliance, especially when there is suspicion or proof of fraud.

TTB response: As noted above, the current regulations at 27 CFR 4.45 and 27 CFR 5.52 contain certain requirements under which importers must possess certifications from duly authorized foreign officials that the wines or distilled spirits being imported have been produced using specific practices or in conformity with certain laws of the country of origin in order for the labels of those beverages to bear certain designations. Under current TTB regulations, such certificates must generally accompany the wines or distilled spirits (or accompany the invoice applicable to such wines or distilled spirits). The amended regulations at 27 CFR 4.45(a) and 27 CFR 5.52(a) through (e) instead require the importer to have the certificate in its possession, to be made available to TTB or CBP upon request. The amended regulations also require importers to retain these certificates for a period of five years.

TTB notes that the amendments to 27 CFR 4.45 and 5.52 are not intended to change in any way the eligibility requirements for wines or distilled spirits to be released from customs custody. Under the amended regulations, as under the current regulations, products requiring a certificate of age, origin, or identity may not enter the United States for consumption unless covered by such a certificate. CBP has the authority to examine such certificates prior to release, and the amended regulations do not in any way diminish this authority. Additionally, for electronic filers, the TTB PGA Message Set allows the importer to attest to the possession of certificates of age, origin, or identity at importation, where such certificates are required by regulation.

TTB exercises its authority to regulate beverage alcohol importers under the FAA Act in part through post-release review of compliance with requirements such as the certificate requirements of 27 CFR 4.45 and 5.52. This includes the review of documents that an importer is required to have in its possession at the time of the filing of the entry. As noted in Notice No. 159, TTB now has timely

access to importation information through ACE and has the ability to determine whether a certificate of age, origin, or identity is required for a certain product and whether a certificate is valid, including by requesting that the importer upload an image of the certificate through the Document Imaging System (DIS) module in ACE. Under the amended regulations, TTB will be able, through post-release review of the importation information, to determine whether the appropriate certificate of age, origin, or identity is in the possession of the importer. TTB's post-release review capabilities include the ability to reconcile certificates of age, origin, or identity with the specific shipments covered by those certificates. This approach supports compliance in a way that facilitates legitimate trade, expedites the release of compliant wines and distilled spirits from customs custody, and allows enforcement resources to be focused on identifying noncompliance and preventing future noncompliance by taking enforcement action against noncompliant actors.

Comment

Two commenters expressed concern over TTB's proposed amendments to 27 CFR 5.56. Under current regulation, 27 CFR 5.56 provides that distilled spirits imported in bulk for bottling in the United States may not be removed from the plant where bottled unless the bottler possesses the certificates of age and certificates of origin required under 27 CFR 5.52 for like spirits were they imported in bottles. The current § 5.56 provides that bottler must possess certificates "which are similar to" the certificates required under § 5.52. The amendment to § 5.56 proposed in Notice No. 159 would require that the bottler possess certificates which provide the "same information" as a certificate required under § 5.52 would provide for like spirits imported in bottles.

The French Federation of Wine and Spirits Exporters notes reservations about the proposed amendment to § 5.56, particularly concerning the potential meaning of the amendment. It states that if the proposed change results in certificates of age and origin being issued by an entity different from the authorized issuer (e.g., the Bureau National Interprofessionnel du Cognac in the case of Cognac), the amendment would significantly weaken the trust and confidence that the U.S. consumer has in the integrity of the product. The Bureau National Interprofessionnel du Cognac notes similar concerns, and states that if the proposed change would allow entities other than the Bureau National Interprofessionnel du Cognac

to issue certificates of age and certificates of origin for Cognac imported in bulk, it may affect the impact the authenticity, age, or quality of the Cognac sold in the United States and seriously damage the confidence of U.S. consumers in Cognac.

TTB response: The proposed amendment to § 5.56 was not intended to change the entities that may issue certificates of age, origin, or identity; rather, TTB intended to replace the reference to "certificates which are similar to the certificates required under § 5.52" with a more specific reference to the content of the certificates. TTB did not intend to imply that the certificates could be issued by an entity other than an official duly authorized by the appropriate foreign government. TTB understands the commenters' concerns regarding the potential ambiguity created by the proposed regulatory text. In the amended regulations finalized in this document, we have clarified that the certificates required under § 5.56 are those issued by an official duly authorized by the foreign government as set forth in § 5.52. TTB has further determined that the same ambiguity identified by the commenters may exist in the proposed new 27 CFR 4.53, and so has also clarified this issue in the § 4.53 regulatory text finalized in this document.

Comment

DISCUS requests that TTB adopt a single three-year recordkeeping retention requirement for all components of an entry filing, specifically noting that TTB has specified a record retention period of five years for certificates of age, origin, or identity, while other documents have a three-year record retention requirement.

TTB response: TTB has set forth a five-year record retention period for certificates of age, origin, or identity because the requirement for such certificates is promulgated under the FAA Act, and there is a five-year statute of limitations for criminal violations of the FAA Act. Specifically, the TTB regulations at 27 CFR 4.45, 27 CFR 4.53, 27 CFR 5.52, and 27 CFR 5.56 concerning certificates of age, origin, or identity implement labeling provisions of the FAA Act codified in the United States Code at 27 U.S.C. 205. Pursuant to the United States Code at 27 U.S.C. 207, violation of section 205 is a criminal offense.

While the FAA Act does not contain any specific recordkeeping requirements applicable to certificates of age, origin, or identity, such records are necessary to enforce the requirements of the FAA

Act. See, e.g., *National Confectioners Ass'n v. Califano*, 569 F.2d 690, 693–94 (D.C. Cir. 1978), which upheld the U.S. Food and Drug Administration's authority to require records in the absence of a specific statutory requirement, where records were necessary to help in the efficient enforcement of the Federal Food, Drug and Cosmetic Act. Additionally, as noted above, TTB has authority under section 2(d) of the FAA Act, Public Law 74–401 (1935) "to prescribe such rules and regulations as may be necessary to carry out [its] powers and duties" under the FAA Act.

TTB further notes that the amended regulations do not require industry members to retain paper copies of each certificate; they may retain electronic copies of certificates.

Filing of a COLA Identification Number or COLA Documents by Importers of Alcohol Beverages

Comment

Portside Customs Service comments on the proposed amendments to 27 CFR 4.40, 5.51, and 7.31 which require that importers of alcohol beverages enter the COLA identification number for the COLA applicable to each wine, distilled spirit, or malt beverage included in a shipment. Portside Customs Services comments that requiring importers of alcohol beverages to enter a COLA identification number for each line of an import entry will require too much time for customs brokers to clear shipments or, alternatively, will result in customs brokers charging more for their services. Portside Customs Service requests that TTB remove this requirement.

TTB response: Section 105(e) of the FAA Act (27 U.S.C. 205(e)) sets forth labeling requirements and, with respect to imports, provides that no person shall remove from customs custody, in bottles, for sale or any other commercial purpose, distilled spirits, wine, or malt beverages, without having obtained and being in possession of a COLA covering the distilled spirits, wine, or malt beverages and issued by the Secretary of the Treasury.

To implement this requirement, TTB's regulations at 27 CFR 4.40, 5.51, and 7.31 currently state that no bottled wine, distilled spirits, or malt beverages, respectively, shall be released from customs custody for consumption unless an approved COLA covering the label of the product has been deposited with the appropriate customs officer at the port of entry. With an approved COLA, the brand or lot of wine, distilled spirits, or malt beverages bearing

approved labels may be released from customs custody.

As explained in Notice No. 159, TTB believes it is not necessary to require the importer to deposit a paper copy of the approved COLA upon importation when filing TTB data electronically. Each approved COLA has a number associated with it, and images of approved COLAs can be accessed by entering the COLA identification number into TTB's online database, the Public COLA Registry.⁷ TTB is therefore amending §§ 4.40, 5.51, and 7.31 to require that, upon importation, the importer either file with the customs entry the TTB-assigned identification number of the COLA (when filing electronically), or provide a copy of the COLA to CBP. Accordingly, importers may satisfy the requirements of amended §§ 4.40, 5.51, and 7.31 by entering the COLA identification numbers applicable to an entry in the TTB PGA Message Set in ACE, or may continue the current practice of providing a copy of the COLA to CBP.

TTB believes that the amendments to §§ 4.40, 5.51, and 7.31 ultimately streamline the implementation of the FAA Act's COLA provisions, and provide options that can ease compliance burdens on industry members.

Comments

Two commenters suggest that TTB implement in ACE a method for importers to identify whether they are the holder of the COLA(s) applicable to an entry, or instead are authorized to import products covered by that COLA(s) by the entity to which the COLA is issued. In the case of an importer that is using another entity's COLA with authorization, the commenters request that TTB implement in ACE a method for importers to submit proof of that authorization to ensure that COLAs are used only by authorized entities. Both commenters frame their request in the specific context of "direct import" transactions.

DISCUS notes that the proposed amendments to 27 CFR 5.51 would provide that no person may remove bottled distilled spirits from customs custody unless the person "has obtained and is in possession of a certificate of label approval (COLA)." DISCUS explains that importers that are the holders of the COLA for a brand often will have imported product delivered directly to a domestic wholesaler; *i.e.*, a

"direct import." DISCUS notes that in direct import transactions, the domestic wholesaler often does not have in its possession the COLA applicable to the imported products. DISCUS requests that TTB implement in ACE a "drop-down" box where the wholesaler could indicate that it is in the possession of a letter from the importer authorizing the wholesaler's use of the importer's COLA, or submit such a letter. DISCUS states that this feature would provide all interested stakeholders with the confidence that only appropriate parties are clearing customs for the appropriate brands. DISCUS also states that requiring the person removing the product from customs custody to be in possession of the COLA could disrupt current supply chain dynamics and efficiencies, without any commensurate benefit.

NABI states that direct imports are a component of a secure supply chain, and encourages TTB to work with the importer and brokerage communities to assure that COLAs are only used by authorized partners in the international supply chain. NABI explains that direct import transactions involve beverage wholesalers acting as agents of authorized importers. NABI states that the authorized importer is the holder of the COLA and, in the case of a direct import by the importer's business partner, a letter of authorization is issued to facilitate the release of cargo from CBP. NABI concludes that these letters of authorization must be incorporated into ACE to assure that there is no interruption in CBP release of products.

TTB response: As noted above, the TTB regulations at 27 CFR 4.40, 5.51, and 7.31 currently state that no bottled wine, distilled spirits, or malt beverages, respectively, shall be released from customs custody for consumption unless an approved COLA covering the label of the product has been deposited with the appropriate customs officer at the port of entry. Pursuant to ATF Ruling 84-3, TTB has allowed, under certain specified circumstances, the use of a COLA by an importer that is not the importer to which the COLA was issued if: (1) The importer to which the COLA was issued has authorized such use, (2) each bottle or individual container bears the name (or trade name) and address of the importer to which the COLA was issued and (3) the importer to which the COLA was issued maintains records of the companies it has authorized to use its certificate. TTB notes that, under current regulations, an importer importing products using a COLA issued to another entity must possess the COLA to meet the requirement of

§§ 4.40, 5.51, and 7.31 to deposit the COLA with the appropriate customs officer at the port of entry.

The amendments proposed in Notice No. 159 to §§ 4.40, 5.51, and 7.31 would provide, in pertinent part, that bottled wine, distilled spirits, or malt beverages, respectively, are not eligible for release from customs custody, and no person may remove such products from customs custody for consumption, unless "the person removing the [products] has obtained and is in possession of a certificate of label approval (COLA)". The proposed amendment would also require that any person removing such products from customs custody for consumption "must first apply for and obtain a COLA covering the [products] from the appropriate TTB officer."

TTB agrees that the proposed amendments to §§ 4.40, 5.51, and 7.31 failed to capture this practice, which was not TTB's intent. Accordingly, in the regulatory text finalized in this document, we have changed the amendments to §§ 4.40, 5.51, and 7.31 to clarify that bottled wine, distilled spirits, or malt beverages may be released to an importer who is authorized by a COLA holder to import products covered by the COLA. TTB notes that these amendments do not supersede ATF Ruling 84-3 or its holding that the COLA holder remains responsible for the imported product and its distribution in the United States.

Both commenters requested that TTB implement a method in ACE for a domestic wholesaler to indicate that it is in the possession of a letter from the importer authorizing the wholesaler's use of the importer's COLA, or submit such a letter, in order to ensure that only authorized entities are entering products subject to the COLA requirements.

TTB believes it is necessary to clarify certain facts related to this request. First, the provisions of §§ 4.40, 5.51, and 7.31 are applicable to the importer of the products, that is, the entity under whose FAA Act basic permit the products are released. Under the amended regulations, an importer filing electronically must file with CBP, at the time of filing the customs entry, the TTB-assigned identification number of the valid COLA covering the label on the alcohol beverages being imported. If the importer is not filing electronically, the importer must provide a copy of the COLA to CBP at time of entry. In neither scenario is a wholesaler to whom the products may ultimately be shipped required by TTB regulations to provide information or documentation for the products to be released. In general, a

⁷ For the Public COLA Registry, see <https://www.ttbonline.gov/colasonline/publicSearchColasBasic.do>.

wholesaler is not required to submit information or documentation into ACE for the release of bottled wine, distilled spirits, or malt beverages unless that wholesaler is itself the importer.

Second, in situations where an importer imports products covered by a COLA issued to another entity (with the authorization of the entity to which the COLA was issued), there is no requirement in the TTB regulations that a COLA authorization letter be submitted to CBP in order for such products to be released. However, the amended regulations clarify that proof of such authorization must be made available to TTB or CBP upon request. Where an importer is authorized to import products covered by another importer's COLA, the importer importing the products must have a copy of the COLA, and as a result will also have the COLA identification number, either of which may be used to satisfy the initial release eligibility requirements of §§ 4.40, 5.51, and 7.31. If CBP or TTB requests that an importer submit proof of their authorization to use another person's COLA, any supporting documentation may be uploaded into ACE through the DIS module, or submitted in paper. More information regarding the submission of data using the DIS module is available in the "ACE Filing Instructions for TTB-Regulated Commodities" at Docket No. TTB-2016-0004 on [Regulations.gov](http://www.regulations.gov) (www.regulations.gov).

TTB appreciates the commenters' input regarding the need to ensure that all alcohol beverages imported into the United States comply with the labeling provisions of the FAA Act. TTB is considering the enforcement efficacy of implementing an indicator in the TTB PGA Message Set through which importers would indicate that they are using a COLA held by another entity. If TTB determines that these steps would be valuable for purposes of enforcing §§ 4.40, 5.51, and 7.31, they will be proposed in a separate action.

Comments

Three commenters request that requests for waivers from the COLA requirement for imports for trade shows and/or sales samples be accepted electronically. DISCUS specifically requests that acceptance of such documents in ACE be allowed, as either an electronic document upload or as an electronic certification that the waiver is in the importer's possession. The French Federation of Wine and Spirits Exporters generally requests that electronic submission, or electronic certification of possession, be available for such documents. NABI suggests that

TTB convert COLA waivers to electronic documents, or electronically stamp COLA waiver applications, so that COLA waivers may be submitted as digital documents along with documentation filed with CBP.

TTB response: TTB first notes that there is an exemption code in the TTB PGA Message Set for importers to indicate that a product is exempt from the COLA requirement under a waiver. Further, COLA waiver documents may be uploaded electronically into ACE through the DIS module.

With regard to the suggestions that TTB further streamline the way that it indicates authorization of a waiver, although that is outside the scope of the current rulemaking (as this rulemaking is directed at amending current regulations to provide for electronic submission of information to CBP or TTB upon import), TTB is considering further streamlining of the COLA waiver process, which may be addressed in a future rulemaking.

Reporting of Certain Required Information for Foreign-Trade Zone Related Entries

Comment

NAFTZ requests that, for foreign-trade zone (FTZ) related entries, the "importer of record" continue to be considered the consignee for purposes of reporting CBP and TTB information in ACE "at the time of a Type 06 FTZ entry."

TTB response: TTB first notes that a "Type 06 FTZ entry" refers to a withdrawal of products from an FTZ for consumption in the United States; this type of entry is an importation for purposes of TTB regulations. TTB also notes that "importer of record" is a term specific to CBP regulations and CBP forms; TTB regulations and requirements refer to the "importer" (which is specifically defined in parts 27 and 41), but not to the "importer of record". Accordingly, information submitted in ACE regarding the importer of record is required for purposes of fulfilling CBP requirements, and does not necessarily apply to TTB requirements.

Under the amended regulations, TTB requires electronic filers to supply information via the TTB PGA Message Set regarding the importer of products which are subject to TTB regulation. For purposes of the TTB PGA Message Set, the "importer" refers to the individual or entity identified as the importer in the corresponding TTB regulations and possessing the applicable TTB permit (which TTB will refer to here as the "TTB importer"). Generally, the

amended regulations require that electronic filers supply information such as the TTB importer's TTB permit number, address, and employer identification number. The amended regulations also require that electronic filers identify the name and address of the ultimate consignee of the imported products in the TTB PGA Message Set. The ultimate consignee is the person to whom the products being imported are shipped. Depending on the individual circumstances of a transaction, the TTB importer may be the same entity as the importer of record reported to CBP.

IV. Other Clarifying Changes

In addition to the clarifying changes described in the Discussion of Comments section above, the regulatory amendments finalized in this document incorporate additional changes to 27 CFR 26.276, 27.137, and 26.292. As proposed in Notice No. 159, amended §§ 26.276 and 27.137 set forth record retention requirements for all records required by parts 26 and 27, respectively, and documents or copies of documents that support such records (including data filed with CBP pursuant to CBP requirements). Under the proposed regulations, and those finalized in this document, all such records and supporting documents are required to be retained in accordance with TTB recordkeeping requirements and made available to TTB or CBP upon request. TTB is adding in this final rule cross references in §§ 26.276 and 27.137 to recordkeeping and retention regulations issued by CBP, as such CBP regulations may affect the same records.

Section 26.292 relates to shipments of industrial spirits or specially denatured spirits brought into the United States from the U.S. Virgin Islands. As proposed in Notice No. 159, amended § 26.292 would require, when filing electronically, the consignor or consignee to file with CBP the number associated with the consignee's permit issued under 27 CFR part 20 (for shipments of specially denatured spirits) or 27 CFR part 22 (for shipments of industrial spirits), along with the customs entry. TTB is clarifying in this final rule that it is the importer filing the entry that must file the number associated with the consignee's permit.

V. Regulatory Analyses and Notices

A. Executive Order 12866

It has been determined that this rule is not a significant regulatory action as defined by Executive Order 12866. Therefore, a regulatory impact assessment is not required.

B. Regulatory Flexibility Act

Pursuant to the requirements of the Regulatory Flexibility Act (5 U.S.C. chapter 6), TTB certifies that this final rule will not have a significant economic impact on a substantial number of small entities. While TTB believes the majority of businesses subject to this rule are small businesses, the regulatory amendments in this document will not have a significant impact on those small entities. Electronic filing will not be required under the changes. For entities filing on paper, the changes generally only require that certain additional information must be kept as a record. Furthermore, the majority of changes that TTB is making in this document will provide importers with more predictability regarding the data required at importation, and the electronic filing option will allow importers to more easily provide information required to import alcohol and tobacco products. This will facilitate the movement of the commodities from the port of entry into U.S. commerce, and reduce the possibility of cargo being delayed at the port. As small entities typically have fewer resources than large entities to devote to regulatory compliance and logistics, these benefits may have a disproportionately positive effect for small entities.

In addition, these changes will allow importers the option to provide data required by the U.S. government in order to clear their imported goods through a single window, rather than the current practice of filling out separate forms for commodities subject to regulation by multiple Federal agencies.

The changes in this document can be divided into three classes with respect to their impact on entities: (1) Providing an electronic filing alternative to requirements to submit paper documents to U.S. Customs and Border Protection (CBP) as part of the customs entry or entry summary filing; (2) replacing reporting requirements with recordkeeping requirements, under which the importer must make documents available upon request; and (3) adding some filing requirements. An example of the electronic filing alternative is the change to address the certificate of label approval (COLA) for alcohol beverages. Current regulations require that the COLA be “deposited with” CBP before the alcohol beverages covered by the COLA are released from customs custody. TTB is instead requiring that importers that file TTB data electronically input the number of

the COLA with the filing of the customs entry. Electronic filing provides a non-paper alternative to submitting information. It is likely that such an alternative will be welcomed by importers that prefer to file electronically, as including paper documents in shipments is likely more burdensome than submitting data electronically. Paper COLAs will continue to be required from importers that do not file TTB data electronically.

Examples of replacing reporting with recordkeeping are the changes to address foreign certificates, which include certificates of age and origin for certain distilled spirits; certification of origin and identity for certain wine; and certification of proper cellar treatment of natural wine. In general, current regulations require that the foreign certificate “accompany” the importation. TTB will instead require that the importer obtain the certificate prior to importation and make it available only upon request by CBP or TTB. If filing TTB data electronically, at the filing of the entry, the importer must certify that it has complied and will comply with these conditions. The burden of including paper documents in shipments is being removed for both electronic and paper filers in these instances.

Examples of requiring new information are the requirements that importers that import alcohol or tobacco products subject to tax, and file TTB data electronically, must provide at entry or entry summary: The importer’s TTB permit number; the importer’s EIN; the name and address of the ultimate consignee; the quantity of each product; and information identifying each product for IRC and/or FAA Act purposes. Importers that do not file electronically will be required to maintain records of the information to be made available upon request. TTB believes that the impact of this change will be minimal because much of this information is already submitted to CBP for CBP purposes.

In conclusion, while the entities affected by the amendments include a substantial number of small entities, the effects of the changes in this final rule in general, and in particular the provision of electronic filing alternatives and the replacement of reporting requirements with recordkeeping requirements, are expected to be positive for the affected entities. The amendments generally provide additional options for complying with import requirements and allow importers that prefer filing electronically to meet TTB requirements through electronic means.

In accordance with the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), TTB certifies that this final rule will not have a significant economic impact on a substantial number of small entities. The final rule will not impose, or otherwise cause, a significant increase in reporting, recordkeeping, or other compliance burdens on a substantial number of small entities. The final rule is not expected to have significant secondary or incidental effects on a substantial number of small entities. Accordingly, a regulatory flexibility analysis is not required.

Pursuant to section 7805(f) of the Internal Revenue Code, TTB submitted the notice of proposed rulemaking (Notice No. 159, 81 FR 40404, June 21, 2016) to the Chief Counsel for Advocacy of the Small Business Administration (SBA) for comment on the impact of these regulations. The SBA had no comment on the proposed rule.

C. Paperwork Reduction Act

Regulations addressed in this document contain current collections of information that have been previously reviewed and approved by the Office of Management and Budget (OMB) in accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3504(h)) and assigned control numbers 1513–0020, 1513–0025, 1513–0056, 1513–0059, 1513–0062, 1513–0064, 1513–0088, 1513–0106, and 1513–0119. The specific regulatory sections in this rule that contain collections of information, either current or amended, are §§ 1.58, 4.27, 4.40, 4.45, 4.53, 4.70, 5.45, 5.51, 5.52, 5.56, 7.31, 26.200, 26.205, 26.273a, 26.276, 26.292, 26.294, 26.296, 26.301, 26.302, 26.314, 26.318, 26.319, 26.331, 27.48, 27.76, 27.77, 27.137, 27.138, 27.140, 27.172, 27.204, 27.208, 27.209, 27.221, 41.81, 41.86, 41.204, and 41.265. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid control number assigned by OMB.

In conjunction with Notice No. 159, TTB submitted revisions to OMB control numbers 1513–0064, 1513–0056, 1513–0059, 1513–0062, 1513–0088, and 1513–0119 to OMB for review. Those revisions generally account for the regulatory amendments proposed in Notice No. 159 and finalized in this document. The revisions and their connections to the proposed regulatory amendments are described in detail in Notice No. 159, which also solicited comments regarding the information collection revisions. TTB received no comments in response to the revisions, and the revisions have now been approved by OMB.

Following the revisions described in Notice No. 159, TTB submitted one clarifying revision to OMB control number 1513–0064 to OMB for approval. The amended regulations at §§ 4.40, 5.51, and 7.31 clarify that, if an importer is importing distilled spirits, wine, or malt beverages using another person’s COLA, with the COLA holder’s authorization, the importer must make proof of that authorization available to TTB or CBP upon request. While the estimated burden hours for OMB control number 1513–0064 put forth in Notice No. 159 did capture the submission of proof of a COLA holder’s authorization, TTB did not specifically explain that this collection of information was being accounted for by OMB control number 1513–0064. TTB submitted a revision to OMB control number 1513–0064 to include that explanation, and TTB has received approval for that revision.

D. Administrative Procedures Act

TTB finds good cause under 5 U.S.C. 553(d)(3) to dispense with the effective date limitation in 5 U.S.C. 553(d). A 30-day delayed effective date is unnecessary because the regulatory changes in this final rule that provide an electronic filing alternative to paper filing are optional. Further, a delay in the applicability of the new recordkeeping provisions contained in this final rule is unnecessary because TTB provided notice of these requirements on June 21, 2016 through Notice No. 159 (81 FR 40404). Notice No. 159 explained that Executive Order 13659, “Streamlining the Export/Import Process for America’s Businesses” mandated that agencies be able to utilize ITDS by December 31, 2016. The effective date of this final rule is December 31, 2016, in accordance with the Executive Order.

The revision and addition read as follows:

§ 4.40 Label approval and release.

Any person removing wine in containers from customs custody for consumption must first apply for and obtain a COLA covering the wine from the appropriate TTB officer, or obtain authorization to use the COLA from the person to whom the COLA is issued. Products imported under another person's COLA are eligible for release only if each bottle or individual container to be imported bears the name (or trade name) and address of the person to whom the COLA was issued by TTB, and only if the importer using the COLA to obtain release of a shipment can substantiate that the person to whom the COLA was issued has authorized its use by the importer. If the importer is not filing electronically, the importer must provide a copy of the COLA to CBP at time of entry. In addition, the importer must provide a copy of the applicable COLA, and proof of the COLA holder's authorization if applicable, upon request by the appropriate TTB officer or a customs officer. The COLA requirement imposed by this section applies only to wine that is removed for sale or any other

Any information required under paragraph (a)(2) of this section that is

submitted to CBP as part of the entry or entry summary for purposes of meeting CBP requirements will also satisfy the requirements of this section. Regardless of the method of filing, the importer must retain as a record the information required by this section, any information provided to CBP for CBP purposes, and any supporting documentation and such records must be available for inspection upon request by the appropriate TTB officer or a customs officer.

(2) *Information required*. The manufacturer of tobacco products or cigarette papers or tubes or export warehouse proprietor who wishes to obtain the release of tobacco products or cigarette papers or tubes as described in paragraph (a)(1) of this section must provide the following information, as applicable:

(i) The number of the permit issued under 27 CFR part 40 to the manufacturer of tobacco products or export warehouse proprietor, or the TTB-assigned number of the manufacturer of cigarette papers or tubes, to whom the products are shipped or consigned;

(ii) The employer identification number (EIN), assigned by the Internal Revenue Service, of the manufacturer of tobacco products, the manufacturer of cigarette papers or tubes, or the export warehouse proprietor to whom the products are shipped or consigned;

(iii) The name and address of the ultimate consignee, consistent with the name and address on the permit issued under part 40 of this chapter;

(iv) For tobacco products, the number of the permit, issued under subpart K of this part, of the importer;

(v) For tobacco products, the employer identification number (EIN) assigned to the importer by the Internal Revenue Service and provided to TTB by the importer on its permit application to TTB on TTB Form 5230.4;

(vi) A description of the product consistent with the tax classification of the product under the Internal Revenue Code as described in § 41.81 (for example, “large cigars”); and

(vii) The quantity of the product for Federal excise tax purposes, by sticks or by pounds and ounces (or kilograms and grams), as applicable.

(b) *Releases without payment of tax—*
(1) *Tobacco products or cigarette papers or tubes put up in packages*. Tobacco products or cigarette papers or tubes put up in packages, as defined at § 41.11, may be released without payment of tax only for delivery to the proprietor of an export warehouse (as provided in 26 U.S.C. 5704(c)) or, if classified under

chapter 98, subchapter I of the Harmonized Tariff Schedule of the United States (relating to duty on certain articles exported and returned), for delivery to the original manufacturer of such tobacco products or cigarette papers or tubes or to the proprietor of an export warehouse authorized by such manufacturer to receive them (as provided in 26 U.S.C. 5704(d)). If the information required in paragraph (a)(2)(i) through (iii) of this section is not filed with the entry or entry summary, as appropriate, or, if the information required in paragraph (c) of this section is not made available to CBP upon request, the tobacco products, cigarette papers, or cigarette tubes are not eligible for release from customs custody without payment of tax, and no person may remove such products from customs custody without payment of tax.

(2) *Tobacco products or cigarette papers or tubes not put up in packages.* Tobacco products or cigarette papers or tubes not put up in packages, as defined at § 41.11, may not be released from customs custody subject to tax, and no person may obtain release of such products from customs custody. Tobacco products or cigarette papers or tubes not put up on packages may be released from customs custody without payment of tax for delivery to the proprietor of an export warehouse, or to a manufacturer of tobacco products or cigarette papers or tubes, as provided in 26 U.S.C. 5704(c). As a result, if the information required in paragraphs (a)(2)(i) through (iii) of this section is not filed with the entry or entry summary, as appropriate, or, if the information required in paragraph (c) of this section is not made available to CBP upon request, tobacco products or cigarette papers or tubes not put up in packages are not eligible for release from customs custody for consumption, and no person may remove such product from customs custody.

(c) *Filing on paper.* A manufacturer or export warehouse proprietor who wants to obtain the release of tobacco products or cigarette papers and tubes from

customs custody without payment of tax under its internal revenue bond, and who does not file electronically, must prepare a notice of release on TTB F 5200.11 and submit the form to the appropriate TTB officer in accordance with the instructions on the form. The appropriate TTB officer will certify on the TTB F 5200.11 that the manufacturer or export warehouse proprietor has TTB authorization to receive the products. No one filing on paper may obtain release of the products under this section until they have received the TTB F 5200.11 certified by the appropriate TTB officer. The manufacturer or export warehouse proprietor must have possession of the TTB F 5200.11, bearing TTB certification, at the time the products are released from customs custody and must make the form available to a customs officer upon request at such time. After release of the products, the TTB F 5200.11 must be retained by the manufacturer or export warehouse proprietor and made available to the appropriate TTB officer or a customs officer upon request.
