Public Participation and Request for Comments

This Notice relies on the authority of the Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended. An ICR is an application to OIRA seeking the approval, extension, or renewal of a Coast Guard collection of information

(Collection). The ICR contains information describing the Collection’s purpose, the Collection’s likely burden on the affected public, an explanation of the necessity of the Collection, and other important information describing the Collection. There is one ICR for each Collection.

The Coast Guard invites comments on whether this ICR should be granted based on the Collection being necessary for the proper performance of Departmental functions. In particular, the Coast Guard would appreciate comments addressing: (1) The practical utility of the Collection; (2) the accuracy of the estimated burden of the Collection; (3) ways to enhance the quality, utility, and clarity of information subject to the Collection; and (4) ways to minimize the burden of the Collection on respondents, including the use of automated collection techniques or other forms of information technology. In response to your comments, we may revise this ICR or decide not to seek an extension of approval for the Collection. We will consider all comments and material received during the comment period.

We encourage you to respond to this request by submitting comments and related materials. Comments must contain the OMB Control Number of the ICR and the docket number of this request, [USCG–2016–1000], and must be received by February 27, 2017.

Abstract: On March 16, 1934, President Roosevelt signed the Migratory Bird Hunting Stamp Act (16 U.S.C. 718a *et seq.*), requiring all migratory waterfowl hunters 16 years of age or older to buy a Federal migratory bird hunting and conservation stamp (Federal Duck Stamp) annually. The stamps are a vital tool for wetland conservation. Ninety-eight cents out of every dollar generated by the sale of Federal Duck Stamps goes directly to purchase or lease wetland habitat for protection in the National Wildlife Refuge System. The Federal Duck Stamp is one of the most successful conservation programs ever initiated and is a highly effective way to conserve America’s natural resources. Besides serving as a hunting license and a conservation tool, a current year’s Federal Duck Stamp also serves as an entrance pass for national wildlife refuges where admission is charged. Duck Stamps and products that bear stamp images are also popular collector items.

The Electronic Duck Stamp Act of 2005 (Pub. L. 109–266) required the Secretary of the Interior to conduct a 3-year pilot program, under which States could issue electronic Federal Duck Stamps. This pilot program has now been made permanent with the passage of the Permanent Electronic Duck Stamp Act of 2013. The electronic stamp is valid for 45 days from the date of purchase and can be used immediately while customers wait to receive the actual stamp in the mail. After 45 days, customers must carry the actual Federal Duck Stamp while hunting or to gain free access to national wildlife refuges.

Eight States participated in the pilot. At the end of the pilot, we provided a report to Congress outlining the successes of the program. The program improved public participation by increasing the ability of the public to obtain required Federal Duck Stamps.

Under our authorities in 16 U.S.C. 718 *et seq.* we have continued the Electronic Duck Stamp Program in the eight States that participated in the pilot. In addition, we have expanded the program to include a total of 22 States. Several other States have indicated interest, and we plan to expand the program by inviting all State fish and wildlife agencies to participate. Anyone, regardless of State residence, may purchase an electronic Duck Stamp through any State that participates in the program. Interested States must submit an application (FWS Form 3–2341). We will use the information provided in the application to determine a State’s eligibility to participate in the program. Information includes, but is not limited to:

- Information verifying the current systems the State uses to sell hunting, fishing, and other associated licenses and products.
- Applicable State laws, regulations, or policies that authorize the use of electronic systems to issue licenses.
- Example and explanation of the codes the State proposes to use to create and endorse the unique identifier for the individual to whom each stamp is issued.
- Mockup copy of the printed version of the State’s proposed electronic stamp, including a description of the format

and identifying features of the licensee to be specified on the stamp.

- Description of any fee the State will charge for issuance of an electronic stamp.
- Description of the process the State will use to account for and transfer the amounts collected by the State that are required to be transferred under the program.
- Manner by which the State will transmit electronic stamp customer data.

Each State approved to participate in the program must provide the following information on a weekly basis:

- First name, last name, and complete mailing address of each individual that purchases an electronic stamp from the State.
- Face value amount of each electronic stamp sold by the State.
- Amount of the Federal portion of any fee required by the agreement for each stamp sold.

Comments: On September 20, 2016, we published in the **Federal Register** (81 FR 64498) a notice of our intent to request that OMB renew approval for this information collection. In that notice, we solicited comments for 60 days, ending on November 21, 2016. We did not receive any comments.

We again invite comments concerning this information collection on:

- Whether or not the collection of information is necessary, including whether or not the information will have practical utility;
- The accuracy of our estimate of the burden for this collection of information;

- Ways to enhance the quality, utility, and clarity of the information to be collected; and
- Ways to minimize the burden of the collection of information on respondents.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask OMB and us in your comment to withhold your personal identifying information from public review, we cannot guarantee that it will be done.
