SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-79686; File No. SR-ISE-2016-31]

Self-Regulatory Organizations; International Securities Exchange, LLC; Notice of Filing of Proposed Rule Change to Amend the Supplementary Material to ISE Rule 1901

December 23, 2016.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on December 22, 2016, the International Securities Exchange, LLC ("ISE" or "Exchange") filed with the Securities and Exchange Commission ("SEC" or "Commission") the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend the Supplementary Material to ISE Rule 1901, titled "Order Protection" in

connection with a system migration to Nasdaq INET technology.

The text of the proposed rule change is available on the Exchange's Web site at www.ise.com, at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of this rule change is to amend the Supplementary Material to ISE Rule 1901, titled "Order Protection" to reflect the ISE, ISE Gemini, LLC and ISE Mercury, LLC technology migration to a Nasdaq, Inc. ("Nasdaq") supported architecture. INET is the proprietary core technology utilized across Nasdaq's global markets and utilized on The NASDAQ Options Market LLC ("NOM"), NASDAQ PHLX LLC ("Phlx") and NASDAQ BX, Inc. ("BX") (collectively, "Nasdaq Exchanges"). The migration of ISE to the Nasdaq INET architecture would result in higher performance, scalability, and more robust architecture. With this system migration, the Exchange intends to adopt certain trading functionality currently utilized at Nasdaq Exchanges. The functionality being adopted is described in this filing.

Generally

With the re-platform, the Exchange will now be built on the Nasdaq INET architecture, which allows certain trading system functionality to be performed in parallel. The Exchange believes that this architecture change will improve the member experience by reducing overall latency compared to the current ISE, ISE Gemini, LLC and ISE Mercury, LLC system because of the manner in which the system is segregated into component parts to handle processing.

Trading Halts

Pursuant to Supplementary Material .02 to Rule 1901, when the automatic execution of an incoming order would result in an impermissible trade-through, such order is exposed at the current national best bid or offer to all members for a time period established by the Exchange not to exceed one (1) second.³ The Exchange proposes to amend Supplementary Material .02 to Rule 1901 to provide that if a trading halt is initiated during this exposure period, the exposure period will be terminated without execution. Today, when a trading halt is triggered during the auction process described above, ISE terminates the exposure period and executes eligible interest. The proposed treatment of trading halts is based on Phlx Rule 1047(c), which provides that in the event the exchange halts trading, all trading in the affected option shall be halted. This is interpreted to restrict executions after a halt unless there is a specific rule specifying that such trades should take place. Halting the exposure period without execution is a change from current ISE behavior. However, the Exchange believes participants prefer certainty in regard to how their interest will be handled in the event of a trading halt and prefer consistency of behavior across market centers.

Implementation

The Exchange intends to begin implementation of the proposed rule change in tandem with a technology migration to Nasdaq INET architecture. The migration will be on a symbol by symbol basis, and the Exchange will issue a notice to provide Members with notification of the symbols that will migrate and the relevant dates. With respect to the amendment to Supplementary Material .02 to Rule 1901, the rule change impact not only ISE, but also ISE Gemini, LLC and ISE Mercury, LLC because Chapter 19 is incorporated by reference into those rulebooks. The Exchange proposes that the implementation of this rule change into each rulebook occur as specified herein. ISE rule changes will be implemented in Q2 2017 on a symbol by symbol basis, as noted above. ISE Gemini, LLC rule changes will be implemented in Q1 2017 on a symbol by symbol basis. ISE Mercury, LLC rule changes will be implemented in Q3 2017 on a symbol by symbol basis. The Exchange will add the following rule text to make clear the implementation

date in each rulebook: “The amended rule text will be implemented on a symbol by symbol basis for ISE Gemini, LLC in Q1 2017, for ISE in Q2 2017 and for ISE Mercury, LLC in Q3 2017, the specific dates will be announced in a separate notice.”

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,⁴ in general, and furthers the objectives of Section 6(b)(5) of the Act,⁵ in particular, in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general to protect investors and the public interest for the reasons stated below.

Trading Halts

The Exchange’s proposal to amend Supplementary Material .02 to Rule 1901 to add a new provision to memorialize the impact of a trading halt on the exposure period is consistent with the Act because halting the exposure period without execution provides certainty to market participants with respect to how their interest will be handled in the event of a trading halt. This method will also provide consistency of behavior across market centers. Memorializing this behavior will increase transparency of the operation of the Exchange for the benefit of Members and investors.

B. Self-Regulatory Organization’s Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. As explained above, the Exchange is re-platforming its trading system onto the Nasdaq INET architecture, and is making certain other changes to its trading functionality in connection with this migration. Amending the Supplementary Material .02 to Rule 1901 will not impact the intense competition that exists in the options market. In fact, the Exchange believes that this proposal will provide clarity as to the manner in which a trading halt impacts exposure periods, thereby providing certainty to all market participants.

C. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 45 days of the date of publication of this notice in the **Federal Register** or within such longer period up to 90 days (i) as the Commission may designate if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

- (A) By order approve or disapprove such proposed rule change, or
- (B) institute proceedings to determine whether the proposed rule change should be disapproved.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-79688; File No. SR-NYSEArca-2016-170]

Self-Regulatory Organizations; NYSE Arca, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change Amending NYSE Arca Equities Rules 7.11, 7.31, and 7.34

December 23, 2016.

Pursuant to Section 19(b)(1)¹ of the Securities Exchange Act of 1934 (the "Act"),² and Rule 19b-4 thereunder,³ notice is hereby given that on December 20, 2016, NYSE Arca, Inc. (the "Exchange" or "NYSE Arca") filed with the Securities and Exchange Commission (the "Commission") the proposed rule change as described in Items I and II below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of the Substance of the Proposed Rule Change

The Exchange proposes to amend NYSE Arca Equities Rules 7.11, 7.31, and 7.34 to specify order behavior for orders entered via the Pillar phase II protocols. The proposed rule change is

available on the Exchange's Web site at www.nyse.com, at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend NYSE Arca Equities Rules 7.11 (Limit Up-Limit Down Plan and Trading Pauses in Individual Securities Due to Extraordinary Market Volatility) ("Rule 7.11"), 7.31 (Orders and Modifiers) ("Rule 7.31"), and 7.34 (Trading Sessions) ("Rule 7.34") to specify order behavior for orders entered via the Pillar phase II protocols.

Background

On January 29, 2015, the Exchange announced the implementation of Pillar, which is an integrated trading technology platform designed to use a single specification for connecting to the equities and options markets operated by the Exchange and its affiliates, NYSE MKT, Inc. ("NYSE MKT") and New York Stock Exchange LLC ("NYSE").⁴ NYSE Arca Equities, which operates the equities trading platform for the Exchange, was the first trading system to migrate to Pillar. In connection with this implementation, the Exchange filed four rule proposals relating to Pillar.⁵

ETP Holders enter orders and order instructions by using communication protocols that map to the order types and modifiers described in Exchange rules. Currently, all ETP Holders communicate with the NYSE Arca Marketplace using Pillar phase I protocols. The Exchange is introducing new technology to support how ETP Holders communicate with the NYSE Arca Marketplace ("Pillar phase II protocols"). Because Pillar phase II protocols will support new order functionality, the Exchange proposes to revise its rules to reflect these changes.

During this implementation, there will be a period when both the Pillar phase I and Pillar phase II protocols will be available to ETP Holders. Accordingly, the Exchange proposes to amend its rules to describe how an ETP Holder's orders would behave depending on the protocol an ETP Holder chooses to use.

Proposed Amendments to Rule 7.11

Currently, under Rule 7.11 any Limit Order that is priced or would trade outside of a Price Band under the Plan⁶ is cancelled, unless an ETP Holder enters instructions for adjustment of the Limit Order's working price. Specifically, Rule 7.11(a)(5) specifies that a buy (sell) order that is priced or could be traded above (below) the Upper (Lower) Price Band will be cancelled, except as specified in Rule 7.11(a)(6). Rule 7.11(a)(6) further provides that ETP Holders may enter an instruction for the working price of a Limit Order to buy (sell) with a limit price above (below) the Upper (Lower) price Band to be adjusted to a price that is equal to the Upper (Lower) Price Band rather than cancel the order. Paragraphs (A)–(D) to Rule 7.11(a)(6) provide more specifics regarding how such repricing instructions operate.

⁶ Under Rule 7.11(a)(1), the "Plan" is defined as the Plan to Address Extraordinary Market Volatility Submitted to the Securities and Exchange Commission Pursuant to Rule 608 of Regulation NMS under the Securities Exchange Act of 1934, Exhibit A to Securities Exchange Act Release No. 67091 (May 31, 2012), 77 FR 33498 (June 6, 2012), as it may be amended from time to time. Under Rule 7.11(a)(2), capitalized terms not otherwise defined in Rule 7.11 have the meaning set forth in the Plan.
