Full Text of Announcement

I. Funding Opportunity Description

Purpose of Program: The purpose of CAMP is to provide academic and financial support to help migrant and seasonal farmworkers and members of their immediate family complete their first year of college and continue in postsecondary education.

Priorities: This competition includes one competitive preference priority and two invitational priorities. In accordance with 34 CFR 75.105(b)(2)(iv), the competitive preference priority is from section 418A(e) of the Higher Education Act of 1965, as amended (HEA) (20 U.S.C. 1070d-2(e)).

Competitive Preference Priority: For FY 2017 and any subsequent year in which we make awards from the list of unfunded applications from this competition, this priority is a competitive preference priority. Under 34 CFR 75.105(c)(2)(i), we award up to 15 additional points to an application, depending on how well the applicant meets the competitive preference priority.

This priority is:
Prior Experience of Service Delivery (Up to 15 points).

For applicants with an expiring CAMP project, the Secretary will consider the applicant's prior experience in implementing its expiring CAMP project, based on information contained in documents previously provided to the Department, such as annual performance reports, project evaluation reports, site visit reports, and the previously approved CAMP application.

Under this competition, we also are particularly interested in applications that address the following invitational priorities.

Invitational Priorities: For FY 2017 and any subsequent year in which we make awards from the list of unfunded applications from this competition,

these priorities are invitational priorities. Under 34 CFR 75.105(c)(1) we do not give an application that meets these invitational priorities a competitive or absolute preference over other applications.

These priorities are:

Invitational Priority 1—Science, Technology, Engineering, and Mathematics Education (STEM).

Projects that are designed to address one or more of the following priority areas:

(a) Providing students with increased access to rigorous and engaging coursework in STEM.

(b) Increasing the number and proportion of students prepared for postsecondary or graduate study and careers in STEM, with a specific focus on an increase in the number and proportion of students so prepared who are from groups traditionally underrepresented in STEM careers, including minorities, individuals with disabilities, and women.

Note: Applicants could, for example, propose providing students with increased access to coursework in STEM through such activities as mentoring, counseling, and tutoring in ways that motivate participants to pursue postsecondary education in the areas of STEM. Similarly, applicants could propose increasing the number and proportion of students prepared for postsecondary or graduate study and careers in STEM through activities such as referrals to STEM-oriented work-based learning experiences, exposure to academic programs and careers in STEM-related fields, and providing support services. These could include services to improve participants' academic skills and knowledge so that they may pursue studies and careers in STEM-related fields.

Invitational Priority 2—Faith-Based and Community Organizations.

Applications that propose to engage faith-based and community organizations in the delivery of services under this program.
