

collect responses to the survey. The frequency and content of the questions, as well as the entities contacted, vary depending on developments in the economy. Second, economists at the Board survey business contacts by telephone, inquiring about current business conditions. Board economists conduct these surveys as economic conditions require, with approximately ten respondents for each survey.

Legal authorization and confidentiality: The Board's Legal Division has determined that the Board is authorized to collect this information under sections 2A and 12A of the Federal Reserve Act (12 U.S.C. 225a and 263) and that respondent participation in the survey is voluntary. Although the names of the participating entities might be disclosed in the summary memo and the memo might contain information provided to the Board for internal use only, exemption 4 of the Freedom of Information Act (5 U.S.C. 552(b)(4)) may exempt this information from disclosure to the public. However, if the information collected on the FR 1374 does not meet these standards for confidentiality (for example if the information collected is already public), it would not be granted confidential treatment.

Current Actions: On October 3, 2016, the Federal Reserve published a notice in the **Federal Register** (81 FR 68018) requesting public comment for 60 days on the extension, without revision, of the FR 1374. The comment period for this notice expired on December 2, 2016. The Federal Reserve did not receive any comments.

2. Report title: Domestic Finance Company Report of Consolidated Assets and Liabilities.

Agency form number: FR 2248.

OMB control number: 7100-0005.

Frequency: Monthly, quarterly, and semi-annually.

Respondents: Domestic finance companies and mortgage companies.

Estimated number of respondents: 450.

Estimated average hours per response: Monthly, 20 minutes; quarterly, 30 minutes; Addendum, 10 minutes.

Estimated annual burden hours: 750 hours.

General Description of Report: The FR 2248 is collected monthly as of the last calendar day of the month from a stratified sample of finance companies. Each monthly report collects balance sheet data on major categories of consumer and business credit receivables and on major short-term liabilities. For quarter-end months (March, June, September, and December), additional asset and liability

items are collected to provide a full balance sheet. A supplemental section collects data on securitized assets. The data are used to construct universe estimates of finance company holdings, which are published in the monthly statistical releases Finance Companies (G.20) and Consumer Credit (G.19), in the quarterly statistical release Flow of Funds Accounts of the United States (Z.1), and in the *Federal Reserve Bulletin* (Tables 1.51, 1.52, and 1.55).

Legal authorization and confidentiality: The Board's Legal Division has determined that the FR 2248 is authorized by law pursuant to Section 2A of the Federal Reserve Act, 12 U.S.C. 225a). The obligation to respond is voluntary. Individual respondent data are confidential under section (b)(4) of the Freedom of Information Act (5 U.S.C. 552(b)(4)).

Current Actions: On October 3, 2016, the Federal Reserve published a notice in the **Federal Register** (81 FR 68018) requesting public comment for 60 days on the extension, without revision, of the FR 2248. The comment period for this notice expired on December 2, 2016. The Federal Reserve did not receive any comments.

Board of Governors of the Federal Reserve System, January 11, 2017.

Robert deV. Frierson,

Secretary of the Board.

Agency Forms Undergoing Paperwork Reduction Act Review

The Centers for Disease Control and Prevention (CDC) has submitted the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995. The notice for the proposed information collection is published to obtain comments from the public and affected agencies.

Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address any of the following: (a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including

whether the information will have practical utility; (b) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) Enhance the quality, utility, and clarity of the information to be collected; (d) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses; and (e) Assess information collection costs.

To request additional information on the proposed project or to obtain a copy of the information collection plan and instruments, call (404) 639-7570 or send an email to omb@cdc.gov. Direct written comments and/or suggestions regarding the items contained in this notice to the Attention: CDC Desk Officer, Office of Management and Budget, Washington, DC 20503 or by fax to (202) 395-5806. Written comments should be received within 30 days of this notice.

Proposed Project

Understanding the Needs, Challenges, Opportunities, Vision and Emerging Roles in Environmental Health (UNCOVER EH)—New—National Center for Environmental Health (NCEH), Centers for Disease Control and Prevention (CDC)

Background and Brief Description

The environmental health (EH) workforce is an essential component of the public health workforce. According to recent health department surveys, EH professionals are employed at approximately 85% of local health departments, 81% of state health departments, and 30% of tribal health departments. Describing and characterizing the EH workforce is essential to identifying gaps in staffing, training, and ultimately ensuring EH professionals are prepared to meet future challenges. Because EH professionals play a crucial role in decreasing illness in our communities and protecting people from traditional and emerging environmental factors that may adversely affect human health, the workforce challenges facing this critical component of the public health system are a concern for public and community health. CDC's goal is to create a strong, sustained, and prepared EH workforce to meet today's challenges and improve the health and safety of all. In order to meet this goal, it is necessary to first

describe and characterize the EH workforce to assess their needs, challenges, and opportunities.

This is a one-time information collection designed to thoroughly describe the health department EH workforce on: (1) The current supply of EH professionals; (2) EH workforce demographics and professional roles; (3) gaps in current EH education and competencies and training needs; and (4) critical skills and resources needed to meet the evolving and emerging EH issues and challenges. This information will benefit the government and other entities by providing essential data to inform and support workforce

development activities and initiatives and understand areas of practice and where gaps may exist in capacity to address current EH issues and future challenges.

The survey will be offered to the estimated 20,000 EH professionals working within health departments. They will be enumerated and recruited by identifying a point of contact in each state, local, tribal, and territorial health department from whom a roster of EH professionals will be requested. A list of respondents and their business email addresses will be generated and used for recruitment and survey administration. Any contact information collected will

be related to the respondents' role in the organization. Participation will be voluntary. We expect approximately 80 percent of the estimated 20,000 EH professionals (16,000 respondents) to respond to the survey.

Data will be collected one time from a census of members of the public health department EH workforce using a web-based survey instrument. The UNCOVER EH Survey will take approximately 30 minutes to complete per respondent. There will be no cost to respondents other than their time. The requested time burden is 8,269 hours.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondents	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hrs.)
Health Department EH Administrative Staff ...	Health Department Roster	3,231	1	5/60
Health Department EH Professionals	UNCOVER EH Survey	16,000	1	30/60

Leroy A. Richardson,
Chief, Information Collection Review Office, Office of Scientific Integrity, Office of the Associate Director for Science, Office of the Director, Centers for Disease Control and Prevention.

BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[60Day-17-17KB; Docket No. CDC-2017-0002]

Proposed Data Collection Submitted for Public Comment and Recommendations

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice with comment period.

SUMMARY: The Centers for Disease Control and Prevention (CDC), as part of its continuing efforts to reduce public burden and maximize the utility of government information, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995. This notice invites comment on a proposed information collection titled "Assessment of the Market for Electronic Technology for

Underground Coal Mining Safety and Health Applications." From this information collection project, NIOSH seeks to provide insight into what the most important barriers are from the perspective of the organizations that must purchase, use, approve, and manufacture these safety technologies.

DATES: Written comments must be received on or before March 20, 2017.

ADDRESSES: You may submit comments, identified by Docket No. CDC-2017-0002 by any of the following methods:

- *Federal eRulemaking Portal:*

Regulations.gov. Follow the instructions for submitting comments.

- *Mail:* Leroy A. Richardson, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE., MS-D74, Atlanta, Georgia 30329.

Instructions: All submissions received must include the agency name and Docket Number. All relevant comments received will be posted without change to *Regulations.gov*, including any personal information provided. For access to the docket to read background documents or comments received, go to *Regulations.gov*.

Please note: All public comment should be submitted through the Federal eRulemaking portal (*Regulations.gov*) or by U.S. mail to the address listed above.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the information collection plan and instruments, contact the Information Collection Review Office, Centers for

Disease Control and Prevention, 1600 Clifton Road NE., MS-D74, Atlanta, Georgia 30329; phone: 404-639-7570; Email: *omb@cdc.gov*.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3520), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. In addition, the PRA also requires Federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each new proposed collection, each proposed extension of existing collection of information, and each reinstatement of previously approved information collection before submitting the collection to OMB for approval. To comply with this requirement, we are publishing this notice of a proposed data collection as described below.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital
