SUPPLEMENTARY INFORMATION:

Title: Rules Relating to the Operations and Activities of Commodity Pool Operators and Commodity Trading Advisors and to Monthly Reporting by Futures Commission Merchants (OMB Control No. 3038-0005). This is a request for comment on amendment of a currently approved information collection.

Abstract: The CFTC has amended Regulation 4.22(d) to permit a CPO that meets certain requirements to present and compute required Annual Reports in accordance with specified accounting principles, standards or practices other than United States generally accepted accounting principles (U.S. GAAP). At the same time, the CFTC amended Regulation 4.27(c)(2) to permit a CPO that claims relief under Regulation 4.22(d) as amended to use the same alternative accounting principles, standards or practices in presenting and computing the financial information that the CPO is required to report on a quarterly basis to the CFTC in Form CPO-PQR. The instructions to Form CPO-PQR, however, specify that all financial information in the form must be presented and computed in accordance with U.S. GAAP. Accordingly, the CFTC proposed to amend the instructions to Form CPO-PQR to permit use of alternative accounting principles, standards or practices by CPOs that claim relief under Regulation 4.22(d), as amended.

With respect to the collection of information, the CFTC sought comments on whether the proposed amendment to Collection 3038-0005 is necessary for the proper performance of the functions of the CFTC, including whether the information will have a practical use, and whether the proposed amendment will increase the burden on CPOs who are required to file Form CPO-PQR. The Commission did not receive any comments on the 60-day **Federal Register** notice, 81 FR 85209, dated November 25, 2016.

Burden Statement: The Commission is not revising its estimate of the burden for this collection as a result of the amendment to the instructions to Form CPO-PQR because the requirements to provide financial information remains substantively unchanged. There are no capital costs or operating and maintenance costs associated with the collection.

Authority: 44 U.S.C. 3501 *et seq.*

Dated: January 19, 2017.

Robert N. Sidman,

Deputy Secretary of the Commission.

ACTION: Notice of intent.

SUMMARY: The Jacksonville District, U.S. Army Corps of Engineers (Corps) is beginning preparation of a supplemental National Environmental Policy Act (NEPA) analysis for the Port Everglades Navigation Improvements Project. The Port Everglades Navigation Improvement Project is designed to address future growth of cargo being transported to southeast Florida on post-Panamax ships due to the completion of the Panama Canal expansion, and to ensure safe navigational conditions for those vessels, as well as vessels currently calling at Port Everglades. The Port Everglades Feasibility Study was

authorized through House Document 126, 103rd Congress, 1st Session, and House Document 144, 93rd Congress, 1st Session and by a resolution of the House Committee on Transportation dated May 9, 1996. In response to the study authority, the feasibility study was initiated in 2001 and completed with the signature of a Chief's Report and Record of Decision in 2016. The final recommended project was authorized as part of the Water Infrastructure Improvements for the Nation Act signed December 2016. The non-federal sponsor for the project is Broward County. The primary federal objective is to provide for increased navigational safety, efficiency, and improved economic conditions while limiting impacts to the environment to the maximum extent practicable, in accordance with environmental statutes, applicable executive orders, and other federal planning requirements.
