SUPPLEMENTARY INFORMATION:

I. Background

The Commission hereby gives notice that, pursuant to Section 189a of the Atomic Energy Act of 1954, as amended (the Act), it will convene an evidentiary session to receive testimony and exhibits in the uncontested portion of this proceeding regarding Dominion's November 26, 2007, application for a COL under part 52 of title 10 of the *Code of Federal Regulations* (10 CFR), to construct and operate an additional unit (Unit 3) at the North Anna site in Louisa County, Virginia (<http://www.nrc.gov/reactors/new-reactors/col/north-anna.html>). This mandatory hearing will concern safety and environmental matters relating to the requested COL, as more fully described below. Participants in the hearing are not to address any contested issues in their written filings or oral presentations.

II. Evidentiary Uncontested Hearing

The Commission will conduct this hearing beginning at 9:00 a.m. Eastern Daylight Time on March 23, 2017, at the U.S. Nuclear Regulatory Commission, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852. The hearing on these issues will continue on subsequent days, if necessary.

III. Presiding Officer

The Commission is the presiding officer for this proceeding.

IV. Matters To Be Considered

The matter at issue in this proceeding is whether the review of the application by the Commission's staff has been adequate to support the findings found in 10 CFR 52.97 and 10 CFR 51.107. Those findings that must be made for a COL are as follows:

Issues Pursuant to the Atomic Energy Act of 1954, as Amended

The Commission will determine whether (1) the applicable standards

and requirements of the Act and the Commission's regulations have been met; (2) any required notifications to other agencies or bodies have been duly made; (3) there is reasonable assurance that the facility will be constructed and will operate in conformity with the license, the provisions of the Act, and the Commission's regulations; (4) the applicant is technically and financially qualified to engage in the activities authorized; and (5) issuance of the license will not be inimical to the common defense and security or the health and safety of the public.

Issues Pursuant to the National Environmental Policy Act (NEPA) of 1969, as Amended

The Commission will (1) determine whether the requirements of Sections 102(2)(A), (C), and (E) of NEPA and the applicable regulations in 10 CFR part 51 have been met; (2) independently consider the final balance among conflicting factors contained in the record of the proceeding with a view to determining the appropriate action to be taken; (3) determine, after weighing the environmental, economic, technical, and other benefits against environmental and other costs, and considering reasonable alternatives, whether the combined license should be issued, denied, or appropriately conditioned to protect environmental values; and (4) determine whether the NEPA review conducted by the NRC staff has been adequate.

V. Schedule for Submittal of Pre-Filed Documents

No later than March 2, 2017, unless the Commission directs otherwise, the NRC staff and the applicant shall submit a list of its anticipated witnesses for the hearing.

No later than March 2, 2017, unless the Commission directs otherwise, the applicant shall submit its pre-filed written testimony. The NRC staff previously submitted its testimony on January 18, 2017.

The Commission may issue written questions to the applicant or the NRC staff before the hearing. If such questions are issued, an order containing such questions will be issued no later than February 17, 2017. Responses to such questions are due March 2, 2017, unless the Commission directs otherwise.

VI. Interested Government Participants

No later than February 15, 2017, any interested State, local government body, or affected, Federally-recognized Indian Tribe may file with the Commission a statement of any issues or questions to

which the State, local government body, or Indian Tribe wishes the Commission to give particular attention as part of the uncontested hearing process. Such statement may be accompanied by any supporting documentation that the State, local government body, or Indian Tribe sees fit to provide. Any statements and supporting documentation (if any) received by the Commission using the agency's E-filing system¹ by the deadline indicated above will be made part of the record of the proceeding. The Commission will use such statements and documents as appropriate to inform its pre-hearing questions to the NRC staff and applicant, its inquiries at the oral hearing and its decision following the hearing. The Commission may also request, prior to March 9, 2017, that one or more particular States, local government bodies, or Indian Tribes send one representative each to the evidentiary hearing to answer Commission questions and/or make a statement for the purpose of assisting the Commission's exploration of one or more of the issues raised by the State, local government body, or Indian Tribe in the pre-hearing filings described above. The decision of whether to request the presence of a representative of a State, local government body, or Indian Tribe at the evidentiary hearing to make a statement and/or answer Commission questions is solely at the Commission's discretion. The Commission's request will specify the issue or issues that the representative should be prepared to address.

States, local governments, or Indian Tribes should be aware that this evidentiary hearing is separate and distinct from the NRC's contested hearing process. Issues within the scope of contentions that have been admitted or contested issues pending before the Atomic Safety and Licensing Board or the Commission in a contested proceeding for a COL application are outside the scope of the uncontested proceeding for that COL application. In addition, although States, local governments, or Indian Tribes participating as described above may take any position they wish, or no position at all, with respect to issues

¹ The process for accessing and using the agency's E-filing system is described in the March 10, 2008, notice of hearing that was issued by the Commission for this proceeding. See *Dominion Virginia Power; Notice of Hearing and Opportunity To Petition for Leave To Intervene on a Combined License for North Anna Unit 3* (73 FR 12760). Participants who are unable to use the electronic information exchange (EIE), or who will have difficulty complying with EIE requirements in the time frame provided for submission of written statements, may provide their statements by electronic mail to hearingdocket@nrc.gov.

regarding the COL application or the NRC staff's associated environmental review that do fall within the scope of the uncontested proceeding (*i.e.*, issues that are not within the scope of admitted contentions or pending contested issues), they should be aware that many of the procedures and rights applicable to the NRC's contested hearing process due to the inherently adversarial nature of such proceedings are not available with respect to this uncontested hearing. Participation in the NRC's contested hearing process is governed by 10 CFR 2.309 (for persons or entities, including States, local governments, or Indian Tribes, seeking to file contentions of their own) and 10 CFR 2.315(c) (for interested States, local governments, and Indian Tribes seeking to participate with respect to contentions filed by others). Participation in this uncontested hearing does not affect the right of a State, local government, or Indian Tribe to participate in the separate contested hearing process.

Dated at Rockville, Maryland, this 25th day of January, 2017.

For the Nuclear Regulatory Commission.

Annette L. Vietti-Cook,

Secretary of the Commission.
