SUPPLEMENTARY INFORMATION: The Commission instituted Inv. No. 337–TA–973 on December 7, 2015, based on a complaint filed by Fitbit, Inc. of San Francisco, California (“Fitbit”). 80 FR 76040 (Dec. 7, 2015). The complaint alleges violations of section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), in the importation into the United States, the sale for importation, and the sale within the United States after importation of certain wearable activity tracking devices, systems, and components thereof by reason of infringement of certain claims of U.S. Patent No. 8,920,332 (“the ’332 patent”); U.S. Patent No. 8,868,377 (“the ’377 patent”); and U.S. Patent No. 9,089,760 (“the ’760 patent”). The notice of investigation named the following respondents: AliphCom d/b/a Jawbone of San Francisco, California and BodyMedia, Inc. of Pittsburgh, Pennsylvania (collectively, “Jawbone”). The Office of Unfair Import Investigations (OUII) is a party to the investigation.

On July 19, 2016, the ALJ issued Order No. 24 granting a motion for summary determination that the ’332 patent, the ’377 patent, and the ’760 patent are invalid under 35 U.S.C. 101 for being directed to ineligible subject matter, and terminated the investigation in its entirety. On August 1, 2016, Fitbit petitioned for review of the ID. On August 8, 2016, Jawbone and OUII filed oppositions to Fitbit’s petition. On

September 7, 2016, the Commission determined to review the ID, and on review, vacated and remanded for the ALJ to continue the investigation as to the ’332 patent and the ’377 patent.

On December 23, 2016, Fitbit moved unopposed to terminate the investigation in its entirety based upon withdrawal of the complaint. Fitbit indicated that Jawbone and OUII do not oppose the motion.

On January 3, 2017, the ALJ issued the subject ID (Order No. 27), granting the unopposed motion. The ALJ found that the motion complied with the requirements of Commission Rule 210.21(a)(1) (19 CFR 210.21(a)(1)) and further found that no extraordinary circumstances prohibited granting the motion. None of the parties petitioned for review of the ID.

The Commission has determined not to review the ID. This terminates the investigation.

The authority for the Commission’s determination is contained in section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and in Part 210 of the Commission’s Rules of Practice and Procedure (19 CFR part 210).

By order of the Commission.

Issued: February 1, 2017.

Lisa R. Barton,

Secretary to the Commission.

Overview of This Information Collection

1. *Type of Information Collection:* Extension of a currently approved collection.

2. *The Title of the Form/Collection:* Exhibit B to Registration Statement (Foreign Agents).

3. *The agency form number, if any, and the applicable component of the Department sponsoring the collection:* The form number is NSD–4. The applicable component within the Department of Justice is the Foreign Agents Registration Act (FARA) Unit, Counterintelligence and Export Control Section, in the National Security Division. Pursuant to the Foreign Agents Registration Act of 1938, as amended, 22 U.S.C. 611 *et seq.* (FARA or the Act), the FARA registration forms previously submitted to OMB for 3 year renewal approvals, have since March 2011 contained fillable-fileable, and E-signature capabilities. The FARA eFile system, in operation since March 1, 2011, permits registrants to file their registration forms electronically to the FARA Registration Unit, 24 hours a day, seven days a week. FARA eFile is

accessed via the Department's FARA public Web site located at <https://www.fara.gov/efile.html>, and provides instructions to assist registrants in completing, signing and submitting the required FARA registration forms, as well as instructions on how to electronically pay the required registration fees via online credit or debit card payments.

4. *Affected public who will be asked or required to respond, as well as a brief abstract:* Primary: Private Sector, Business or other for-profit, Not-for-profit institutions, and individuals. The form contains registration statement information used for registering foreign agents under the Foreign Agents Registration Act of 1938, as amended, 22 U.S.C. 611 *et seq.*

5. *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* The total estimated number of responses to the form is 178 at approximately .33 hours (20 minutes) per response, based on an average of FARA Exhibit B to Registration Statement filings received from January 1, 2014 through December 31, 2016. Internal sample testing shows an average of .33 hours (20 minutes) per respondent is needed to complete form NSD–4 (OMB 1124–0004). The following factors were considered when creating the burden estimate: the estimated total number of registrant respondents, the ability of registrants to access or gather the necessary data from sometimes multiple offices within their corporate structures, and the intuitive registration features NSD makes available for registrant respondents via the online FARA eFile registration and payment system located at <https://www.fara.gov/efile.html>. NSD estimates that nearly all of the approximately 178 respondents will fully complete the form.

6. *An estimate of the total public burden (in hours) associated with the collection:* The estimated public burden associated with this collection is 58.74 annual burden hours. It is estimated that respondents will take .33 hours (20 minutes) to complete the form. The burden hours for collecting respondent data equals 58.74 annual burden hours (178 respondents × .33 hours (20 minutes) = 58.74 hours).

7. Registrants/foreign agents and the general public are alerted that in the future, the National Security Division will complete its ongoing multi-year design review, testing, and requirements enhancement efforts to offer a web form version of form NSD–4. NSD continues to make progress in enhancing the functionality of FARA eFile. Personnel

are in the process of developing and testing new web form versions of its current fillable FARA registration forms with the intent of providing greater standardization, improved intuitive features, and less burdensome requirements that will benefit registrants and foreign agents who are required to register under FARA. New capabilities are expected to improve online search capabilities. NSD is confident that the new features will offer an enhanced system, promoting greater transparency.
