

Title of Collection: Impact Study of Feedback for Teachers Based on Classroom Videos.

OMB Control Number: 1850—NEW.

Type of Review: A new information collection.

Respondents/Affected Public: Individuals or Households.

Total Estimated Number of Annual Responses: 3,792.

Total Estimated Number of Annual Burden Hours: 1,633.

Abstract: The goal of this evaluation is to examine the impact of video-based observations and feedback on the classroom practices and student achievement of novice teachers (in their first year of teaching) and early career teachers (in their second through fourth years of teaching). This study, using a random assignment design, provides an important test of whether intensive, individualized support for teachers improves their instructional practices and ultimately student achievement. By focusing on novice teachers, the study has the potential to inform both teacher induction policies and teacher preparation programs. Examining the impact of this intervention on novice and early career teachers can also inform the effectiveness of providing individualized feedback as a model for teacher professional development programs. The study includes 12 districts and approximately 500 teachers who will be participating in the study.

Dated: February 28, 2017.

Kate Mullan,

Acting Director, Information Collection Clearance Division, Office of the Chief Privacy Officer, Office of Management.
