

(based on surveys conducted every three years via standard protocol); and (4) a captive breeding propagation, augmentation and reintroduction plan has been established, and a contingency plan is in place to ensure the survival of the species should a catastrophic event affect portions of a wild population.

Delisting: The yellowcheek darter will be considered for removal from the List of Endangered and Threatened Wildlife when (1) the reclassification criteria have been realized and demonstrated as being effective via monitoring efforts; (2) yellowcheek darter populations in the Middle, South, and either Archey or Devils Forks continue to be self-sustaining, stable or increasing, as defined by the best available science (to be refined by recovery actions), for an additional 15 years beyond reclassification to threatened status; and (3) commitments are in place to maintain conservation measures and recovered status.

Request for Public Comments

We request written comments on the draft recovery plan. We will consider all comments we receive by the date specified in **DATES** prior to final approval of the plan.
