

determined by the method described in ASTM F963–11, Standard Consumer Safety Specification for Toy Safety.

On December 2, 2014, Zen Magnets, LLC (Zen) filed a petition in the U.S. Court of Appeals for the Tenth Circuit challenging the magnet set rule. The Tenth Circuit concluded that the Commission’s rule provided incomplete and inadequately explained findings. The court vacated and remanded the rule to the Commission. *Zen Magnets, LLC v. Consumer Product Safety Comm’n*, No.14–9610 (10th Cir. Nov. 22, 2016). Consistent with that decision, this rule removes the magnet set rule at 16 CFR part 1240 and reserves that part.

This rule is not subject to the requirement to provide notice and an opportunity for public comment because it falls under the good cause exception at 5 U.S.C. 553(b)(B). The good cause exception is satisfied when notice and comment is “impracticable, unnecessary, or contrary to the public interest.” *Id.* This rule is an administrative step that implements the court’s order vacating the magnet set rule. Additionally, because this rule implements a court order already in effect, the Commission has good cause to waive the 30-day effective date under 5 U.S.C. 553(d)(3).

**SUPPLEMENTARY INFORMATION:**

**Annual Update to Fee Schedule**

Section 11.2 of the Commission’s regulations provides a method for computing reasonable annual charges for compensating the United States for the use, occupancy, and enjoyment of its lands by hydropower licensees.<sup>1</sup> Annual charges for the use of government lands are payable in advance, and are based on an annual schedule of per-acre rental fees published in appendix A to part 11 of the Commission’s regulations.<sup>2</sup> This document updates the fee schedule in appendix A to part 11 for fiscal year 2017 (October 1, 2016, through September 30, 2017).

*Effective Date*

This Final Rule is effective March 7, 2017. The provisions of 5 U.S.C. 804, regarding Congressional review of final rules, do not apply to this Final Rule because the rule concerns agency procedure and practice and will not substantially affect the rights or obligations of non-agency parties. **SUPPLEMENTARY INFORMATION:**

**Background**

The IPHC has recommended regulations that would govern the Pacific halibut fishery in 2017, pursuant to the Convention between Canada and the United States for the Preservation of the Halibut Fishery of the North Pacific Ocean and Bering Sea (Convention), signed at Ottawa, Ontario, on March 2, 1953, as amended by a Protocol Amending the Convention (signed at Washington, DC, on March 29, 1979).

As provided by the Northern Pacific Halibut Act of 1982 (Halibut Act) at 16 U.S.C. 773b, the Secretary of State, with the concurrence of the Secretary of Commerce, may accept or reject, on behalf of the United States, regulations recommended by the IPHC in accordance with the Convention (Halibut Act, Sections 773-773k). The Secretary of State, with the concurrence of the Secretary of Commerce, accepted the 2017 IPHC regulations as provided by the Halibut Act at 16 U.S.C. 773-773k.

The Halibut Act provides the Secretary of Commerce with the authority and general responsibility to carry out the requirements of the Convention and the Halibut Act. The Regional Fishery Management Councils may develop, and the Secretary of Commerce may implement, regulations governing harvesting privileges among U.S. fishermen in U.S. waters that are in addition to, and not in conflict with, approved IPHC regulations. The NPFMC has exercised this authority most notably in developing halibut management programs for three fisheries that harvest halibut in Alaska: The subsistence, sport, and commercial fisheries. The PFMC has exercised this authority by developing a catch sharing plan governing the allocation of halibut and management of sport fisheries on the U.S. West Coast.

Subsistence and sport halibut fishery regulations for Alaska are codified at 50 CFR part 300. Commercial halibut fisheries in Alaska are subject to the Individual Fishing Quota (IFQ) Program and Community Development Quota (CDQ) Program (50 CFR part 679) regulations, and the area-specific catch sharing plans.

The IPHC apportions catch limits for the Pacific halibut fishery among regulatory areas (Figure 1): Area 2A (Oregon, Washington, and California), Area 2B (British Columbia), Area 2C (Southeast Alaska), Area 3A (Central Gulf of Alaska), Area 3B (Western Gulf of Alaska), and Area 4 (subdivided into 5 areas, 4A through 4E, in the Bering Sea and Aleutian Islands of Western Alaska).
