

Written comments and recommendations concerning the proposed information collection should be sent by April 7, 2017 to the SAMHSA Desk Officer at the Office of Information and Regulatory Affairs, Office of Management and Budget (OMB). To ensure timely receipt of comments, and to avoid potential delays in OMB's receipt and processing of mail sent through the U.S. Postal Service, commenters are encouraged to submit their comments to OMB via email to: *OIRA\_Submission@omb.eop.gov*. Although commenters are encouraged to send their comments via email, commenters may also fax their comments to: 202-395-7285. Commenters may also mail them to: Office of Management and Budget, Office of Information and Regulatory Affairs, New Executive Office Building, Room 10102, Washington, DC 20503.

**Agency Information Collection Activities: Submission for OMB Review; Comment Request**

Periodically, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish a summary of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (240) 276-1243.

**Project: 2017-2020 National Survey on Drug Use and Health: Methodological Field Tests (OMB No. 0930-0290)—Extension**

The National Survey on Drug Use and Health (NSDUH) is a survey of the U.S. civilian, non-institutionalized population aged 12 years old or older. The data are used to determine the prevalence of use of tobacco products, alcohol, illicit substances, and illicit use of prescription drugs. The results are used by SAMHSA, the Office of National Drug Control Policy (ONDCP), federal government agencies, and other organizations and researchers to establish policy, direct program activities, and better allocate resources.

Methodological tests will continue to be designed to examine the feasibility,

quality, and efficiency of new procedures or revisions to existing survey protocol. Specifically, the tests will measure the reliability and validity of certain questionnaire sections and items through multiple measurements on a set of respondents; assess new methods for gaining cooperation and participation of respondents with the goal of increasing response and decreasing potential bias in the survey estimates; and assess the impact of new sampling techniques and technologies on respondent behavior and reporting. Research will involve focus groups, cognitive laboratory testing, customer satisfaction surveys, and field tests.

These methodological tests will continue to examine ways to increase data quality, lower operating costs, and gain a better understanding of sources and effects of non-sampling error on NSDUH estimates. Particular attention will be given to minimizing the impact of design changes so survey data continue to remain comparable over time. If these tests provide successful results, current procedures or data collection instruments may be revised.

The number of respondents to be included in each field test will vary, depending on the nature of the subject being tested and the target population. However, the total estimated response burden is 8,225 hours. The exact number of subjects and burden hours for each test are unknown at this time, but will be clearly outlined in each individual submission. These estimated burden hours are distributed over three years as follows:

**TABLE 1—ESTIMATED BURDEN FOR NSDUH METHODOLOGICAL FIELD TESTS**

Time period	Respondent burden hours
May 2017 to May 2018 .....	2,742
May 2018 to May 2019 .....	2,742
May 2019 to May 2020 .....	2,741
<b>Total .....</b>	<b>8,225</b>

**Project: National Resource Center for Mental Health Promotion and Youth Violence Prevention—NEW**

The Substance Abuse and Mental Health Services Administration's (SAMHSA) Center for Mental Health Services (CMHS) will conduct an annual assessment of the performance of the National Resource Center for Mental Health Promotion and Youth Violence Prevention (NRC). The NRC will collect the information needed to conduct the annual assessment of NRC training and technical assistance activities for the SS/HS and Project LAUNCH programs, as well as the field-at-large. There are four instruments included in this package for approval: (1) Needs Assessment, (2) Site Visit Assessment, (3) Annual Performance Assessment, and Case Study Interview. The NRC is required contractually to report its performance to SAMHSA on an annual basis.

Through a cooperative agreement, SAMHSA is funding the NRC to support the training and technical assistance (T/TA) needs of two SAMHSA grant programs: The Safe Schools/Healthy Students Program (SS/HS) and Project LAUNCH (Linking Actions for Unmet Needs in Children's Health). In addition, the NRC is funded to disseminate resources and provide
