Uncovered Innerspring Units From the People's Republic of China: Final Results of Antidumping Duty Administrative Review; 2015-2016

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: On November 7, 2016, the Department of Commerce (the Department) published the preliminary results of the administrative review of the antidumping duty order on uncovered innerspring units (innersprings) from the People's Republic of China (PRC). We gave interested parties an opportunity to comment on the preliminary results, and based upon our analysis of the comments received, our final results remain unchanged from the preliminary results. In these final results, we determine that innersprings are being, or are likely to be, sold in the United States at less than fair value. The period of review (POR) is February 1, 2015, through January 31, 2016. The final weighted-average dumping margin is listed below in the Final Results of Review section of this notice.

DATES: Effective March 16, 2017.

FOR FURTHER INFORMATION CONTACT: Kenneth Hawkins, AD/CVD Operations, Office V, Enforcement and Compliance,

International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-6491.

SUPPLEMENTARY INFORMATION:

Background

This review covers one exporter of subject merchandise: Enchant Privilege Sdn Bhd (Enchant Privilege). On November 7, 2016, the Department published the *Preliminary Results* in the **Federal Register**, and provided interested parties an opportunity to comment.¹ On December 7, 2016, the Department received a case brief from Leggett and Platt, Inc. (Petitioner).² No other interested party filed case or rebuttal briefs.

Scope of the Order

The merchandise subject to the order is uncovered innerspring units.³ The product is currently classified under subheading 9404.29.9010 and have also been classified under subheadings 9404.10.0000, 9404.29.9005, 9404.29.9011, 7326.20.0070, 7320.20.5010, 7320.90.5010, or 7326.20.0071 of the Harmonized Tariff Schedule of the United States (HTSUS). The HTSUS subheadings are provided for convenience and customs purposes only; the written description of the scope of the order is dispositive.

Analysis of Comments Received

All issues raised in Petitioner's case brief are addressed in the Issues and Decision Memorandum, which is incorporated herein by reference. A list of the issues which parties raised, and to which we respond in the Issues and Decision Memorandum, is attached to this notice as an Appendix. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). In addition, a complete version of the Issues and Decision Memorandum can be accessed directly on the internet at <http://enforcement.trade.gov/frn/index.html>. The signed Issues and Decision Memorandum and the electronic versions of the Issues Decision Memorandum are identical in content.

Use of Facts Available and Adverse Facts Available

In the *Preliminary Results*, because Enchant Privilege failed to respond to the Department's questionnaire, we determined Enchant Privilege's margin on the basis of facts available, pursuant to section 776(a)(1) & (2)(A), (B), and (C) of the Tariff Act of 1930 (the Act). We also applied an adverse inference in selecting from among the facts available, pursuant to section 776(b) of the Act, because we found that Enchant Privilege failed to cooperate to the best of its ability in providing the requested information.⁴

No parties commented on this specific determination or on the margin assigned to Enchant Privilege in the *Preliminary Results*. Accordingly, we are continuing to assign to Enchant Privilege a dumping margin of 234.51 percent, based on total adverse facts available.

Final Results of Review

Enchant Privilege's weighted-average dumping margin for the period February 1, 2015, through January 31, 2016, is as follows:

Exporter	Weighted-average dumping margin (percent)
Enchant Privilege Sdn Bhd ⁵	234.51

Assessment

Pursuant to section 751(a)(2)(A) of the Act and 19 CFR 351.212(b), the Department will determine, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries. The Department intends to issue assessment instructions to CBP 15 days after the date of publication of the final results of review in the **Federal Register**. For Enchant

⁴ See *Preliminary Results*, and accompanying Preliminary Decision Memorandum at 4-5.

⁵ Because Enchant Privilege is located in Malaysia, we are treating it as a third-country reseller. Accordingly, this rate only applies to Enchant Privilege's exports of PRC-origin innersprings.

Privilege, the Department will instruct CBP to assess antidumping duties on the company's entries of subject merchandise (*i.e.*, PRC-origin innersprings) at the rate of 234.51 percent.

Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of the final results of this administrative review for all shipments of the subject merchandise from the PRC entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided for by section 751(a)(2)(C) of the Act: (1) For Enchant Privilege, the cash deposit rate will be 234.51 percent for its entries of subject merchandise (*i.e.*, PRC-origin innersprings); (2) for previously investigated or reviewed PRC and non-PRC exporters not listed above that have a separate rate, the cash deposit rate will continue to be the exporter-specific rate published for the most recently completed segment of this proceeding in which the exporter was reviewed; (3) for all PRC exporters of subject merchandise which have not been found to be entitled to a separate rate, the cash deposit rate will be that established for the PRC-wide entity of 234.51 percent; and (4) for all non-PRC exporters of subject merchandise which have not received their own rate, the cash deposit rate will be the rate applicable to the PRC exporter that supplied that non-PRC exporter with the subject merchandise. The deposit requirements, when imposed, shall remain in effect until further notice.

Reimbursement of Duties

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in the Department's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

Administrative Protective Order

In accordance with 19 CFR 351.305(a)(3), this notice also serves as a final reminder to parties subject to administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO, which continues to govern business proprietary information in this segment of the proceeding. Timely written

notification of the return or destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

Notification to Interested Parties

We are issuing and publishing these results of review in accordance with sections 751(a)(1) and 777(i) of the Act.

Dated: March 7, 2017.

Ronald K. Lorentzen,

Acting Assistant Secretary for Enforcement and Compliance.

Magnuson-Stevens Act Provisions; General Provisions for Domestic Fisheries; Application for Exempted Fishing Permits

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; request for comments.

SUMMARY: The Assistant Regional Administrator for Sustainable Fisheries, Greater Atlantic Region, NMFS (Assistant Regional Administrator), has made a preliminary determination that an exempted fishing permit application contains all of the required information and warrants further consideration. This permit would allow a commercial fishing vessel to test the economic viability of using electric jigging machines to target pollock in the Western Gulf of Maine Closure Area, and to temporarily retain undersized catch for measurement and data collection.

Regulations under the Magnuson-Stevens Fishery Conservation and Management Act require publication of this notification to provide interested parties the opportunity to comment on applications for proposed exempted fishing permits.

DATES: Comments must be received on or before March 31, 2017.

ADDRESSES: You may submit written comments by any of the following methods:

- *Email:* NMFS.GAR.EFP@noaa.gov. Include in the subject line “Comments on Rod and Reel Fishing in WGOM Closed Area EFP.”

- *Mail:* John K. Bullard, Regional Administrator, NMFS, Greater Atlantic Regional Fisheries Office, 55 Great Republic Drive, Gloucester, MA 01930. Mark the outside of the envelope “Comments on Electric Jigging Machine Fishing in WGOM Closed Area EFP.”

FOR FURTHER INFORMATION CONTACT: Kyle Molton, Fishery Management Specialist, 978-281-9236, Kyle.Molton@noaa.gov.

SUPPLEMENTARY INFORMATION: A commercial fisherman submitted a complete application for an exempted fishing permit (EFP) on November 29, 2016, to conduct commercial fishing activities that the regulations would otherwise restrict. The EFP would authorize one vessel to use electric jigging machines in the Western Gulf of Maine (WGOM) Closure Area and to temporarily retain undersized catch for measurement and data collection. An identical EFP was issued in 2016, but no experimental fishing occurred under the previously issued EFP due to the timing of the EFP issuance and fish availability.

The project, titled “Utilization of Electric Rod and Reel to Target Pollock in WGOM Closed Area,” would be conducted by a commercial fisherman as a pilot study to test the economic viability of using electric jigging machines to target pollock while avoiding non-target catch. The study would take place in the WGOM Closure Area, from June through August 2017, with one vessel planning to fish up to 5 days per month for a total of approximately 15 trips. The exemptions are necessary because vessels on commercial groundfish trips are prohibited from fishing in the WGOM Closure Area and from retaining undersized groundfish. The vessel would use four electric jigging machines for at least 4 to 6 hours per trip, with an additional 5 to 6 hours of steaming, for a total trip of approximately 12 hours. Fishing would primarily occur within the WGOM Closure Area, in the area known as “The Fingers,” with some effort being conducted outside the area. The applicant is requesting access to the WGOM Closure Area based on reports that pollock are seasonally concentrated in this area, and the likelihood that they can be targeted with minimal catch of non-target species.

A research technician or at-sea monitor would accompany all trips that occur under this EFP to measure and document fish caught, and document fishing gear, bait, location, and fishing conditions to evaluate gear performance. The captain would also document fishing practices. Undersized fish would be discarded as quickly as possible after sampling. All Northeast multispecies of legal size would be landed, and all catch would be attributed to the vessel’s sector annual catch entitlement. Proceeds from the sales would be retained by the vessel. The applicant would document ex-vessel price for all sold catch by species and grade for comparison with other harvest methods. The participating vessel would not be exempt from any sector monitoring or reporting requirements.

If approved, the applicant may request minor modifications and extensions to the EFP throughout the year. EFP modifications and extensions may be granted without further notice if they are deemed essential to facilitate completion of the proposed research and have minimal impacts that do not change the scope or impact of the initially approved EFP request.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: March 13, 2017.

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
