RIN 1904–AD71

Energy Conservation Program: Test Procedures for Central Air Conditioners and Heat Pumps

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Final rule; further delay of effective date.

SUMMARY: This document further temporarily postpones the effective date of a recently published final rule establishing test procedures for certain varieties of central air conditioners and heat pumps.

DATES: As of March 21, 2017, the effective date of the rule amending 10 CFR parts 429 and 430 published in the **Federal Register** at 82 FR 1426 on January 5, 2017, delayed until March 21, 2017 at 82 FR 8985 on February 2, 2017, is further delayed until July 3, 2017. The incorporation by reference of the publication listed in this rule is approved by the Director of the Federal Register as of July 3, 2017.

SUPPLEMENTARY INFORMATION: On February 2, 2017, the United States Department of Energy (“DOE”) temporarily postponed the effective date of its final rule amending the test procedures for central air conditioners and heat pumps published in the **Federal Register** on January 4, 2017. See 82 FR 8985. The February 2 rule temporarily postponed the effective date of the final rule by 60 days, starting from January 20, 2017. The temporary 60-day delay in effective date was necessary to give the newly appointed Secretary of Energy (Secretary) the opportunity for further review and consideration of new regulations. However, the Secretary was not confirmed and did not begin work in his position until March 3, 2017. As a result, the Secretary was unable to accomplish the review and consideration during the original postponement of the effective date of the regulation establishing test procedures for central air conditioners and heat pumps. Therefore, DOE hereby further temporarily postpones the effective date of that test procedure regulation to allow the Secretary the opportunity to accomplish this task. The effective date of this test procedure is postponed until July 3, 2017, the date on which the statute requires compliance.

To the extent that 5 U.S.C. 553 applies to this action, it is exempt from notice and comment because it constitutes a rule of procedure under 5 U.S.C. 553(b)(A). Alternatively, DOE’s

implementation of this action without opportunity for public comment, effective immediately upon publication in the **Federal Register**, is based on the good cause exceptions in 5 U.S.C. 553(b)(B) and 553(d)(3). Pursuant to 5 U.S.C. 553(b)(B), DOE has determined that good cause exists to forego the requirement to provide prior notice and an opportunity for public comment thereon for this rule as such procedures would be impracticable, unnecessary and contrary to the public interest. DOE is temporarily postponing the effective date of this regulation pursuant to the previously-noted need for review by the Secretary and the statutory compliance date is unaffected by this action. As a result, seeking public comment on this delay is unnecessary and contrary to the public interest. It is also impracticable given the timing of the Secretary’s confirmation and the March 21 effective date established by the prior temporary postponement. For these same reasons DOE finds good cause to waive the 30-day delay in effective date provided for in 5 U.S.C. 553(d).

Issued in Washington, DC, on March 15, 2017.

John T. Lucas,

Acting General Counsel.
