

amended its definition of “designated entities” to include “eligible rural service providers,” and established a new designated entity benefit/bidding credit for eligible rural service providers. The Commission is reporting program changes/increases of 10 potential new designated entity respondents/responses 20 total annual hours, and \$1,500 in annual cost due to the inclusion of eligible rural service providers among the potential respondents from which the Commission may collect information under this collection. While there may be as many as 10 new designated entity respondents/responses under this collection, the estimated time per response is unchanged because the type of information that must be provided by the new designated entity respondents is comparable to that required by designated entities under the currently-approved collection and is expected to take the same estimated amount of time to prepare.

Beginning first on May 5, 1997, OMB approved under OMB Control No. 3060–0767, the Commission’s collections of information pursuant to sections 1.2110, 1.2111, and 1.2112 of the Commission’s rules, 47 CFR 1.2110, 1.2111, and 1.2112, and their predecessors, regarding ownership and designated entity status of parties involved with Commission licenses. The Commission collects this information in several contexts, including when determining the eligibility of applicants to participate in Commission auctions (including eligibility to claim designated entity benefits), the eligibility of parties to hold a Commission license/authorization (including eligibility for designated entity benefits), the eligibility of parties to whom licenses/authorizations are being assigned or transferred, and the repayment by license/authorization holders of the amount of bidding credits received in Commission auctions to avoid unjust enrichment. Applicants and licensees/authorization holders claiming eligibility for designated entity status are subject to audits and a record-keeping requirement regarding FCC-licensed service concerning such claims of eligibility, to confirm that their representations are, and remain, accurate. The collection of this information will enable the Commission to determine whether applicants are qualified to bid on and hold Commission licenses/authorizations and, if applicable, to receive designated entity benefits, and is designed to ensure the fairness of the auction, licensing, and license/authorization

assignment and transfer processes. The information collected will be reviewed and, if warranted, referred to the Commission’s Enforcement Bureau for possible investigation and administrative action. The Commission may also refer allegations of anticompetitive auction conduct to the Department of Justice for investigation.

OMB has approved separately the routine collections of information pursuant to these Commission rules in applications to participate in Commission auctions, FCC Form 175, OMB Control No. 3060–0600, and in Commission licensing applications, FCC Form 601, OMB Control No. 3060–0798, and assignment/transfer of control applications, FCC Form 603, OMB Control No. 3060–0800. On occasion, the Commission may collect information from auction applicants and license/authorization holders pursuant to these rules under this information collection to clarify information provided in these forms or in circumstances to which the standard forms may not directly apply.

Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission’s burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written comments should be submitted on or before June 2, 2017. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contacts below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email PRA@fcc.gov and to Cathy.Williams@fcc.gov.

Total Annual Burden: 222,055 hours.

Total Annual Cost: \$71,306,250.

Privacy Impact Assessment: Yes.

Nature and Extent of Confidentiality:

In general there is no need for confidentiality with this collection of information.

Needs and Uses: FCC Form 601 is a consolidated, multi-part application form that is used for market-based and site-based licensing for wireless telecommunications services, including public safety licenses, which are filed through the Commission's Universal Licensing System (ULS). FCC Form 601 is composed of a main form that contains administrative information and a series of schedules used for filing technical and other information. This form is used to apply for a new license, to amend or withdraw a pending application, to modify or renew an existing license, cancel a license, request a duplicate license, submit required notifications, request an extension of time to satisfy construction requirements, or request an administrative update to an existing license (such as mailing address change), request a Special Temporary Authority or Developmental License. Respondents are encouraged to submit FCC Form 601 electronically and are required to do so when submitting FCC Form 601 to apply for an authorization for which the applicant was the winning bidder in a spectrum auction.

The data collected on FCC Form 601 includes the FCC Registration Number (FRN), which serves as a "common link" for all filings an entity has with the FCC. The Debt Collection Improvement Act of 1996 requires entities filing with the Commission use an FRN.

On July 14, 2016, the Commission released a Report and Order in which it established the Upper Microwave Flexible Use Service authorizing mobile use in the 27.5–28.35 GHz, 37–38.6 GHz, and 38.6–40 GHz (39 GHz) bands. See *Use of Spectrum Bands Above 24 GHz For Mobile Radio Services*, et al., Report and Order and Further Notice of Proposed Rulemaking, FCC 16–89, 31 FCC Rcd 8014 (2016). Of relevance to the information collection at issue here, the Commission established a process by which 39 GHz licensees can conduct a voluntary, pre-auction license swap or exchange which would give licensees the opportunity to consolidate their licensed blocks into larger tranches of contiguous spectrum thereby leaving more valuable empty contiguous channel blocks for the Commission to auction.

The Commission seeks approval for revisions to its currently approved collection of information under OMB Control Number 3060–0798 to permit the collection of the additional information for Commission licenses and permits, pursuant to the information collection requirements adopted by the Commission in the

Spectrum Frontiers R&O, including the provisions authorizing voluntary channel swaps. We are proposing to revise schedule E of form 601 to allow licensees to file a modification to indicate active licenses and leases they are requesting authorization to swap. We do not anticipate that this revision will have any impact on the burden to complete the form.

The Commission therefore seeks approval for a revision to its currently approved information collection on FCC Form 601 to revise FCC Form 601 accordingly.
