

Summary of Collection: The Rural Housing Service (RHS) is a credit agency within the Rural Development mission area of the U.S. Department of Agriculture. The Community Programs Division of the RHS administers the Community Facilities program under 7 CFR part 1942, subpart A. Rural Development provides loan and grant funds through the Community Facilities program to finance many types of projects varying in size and complexity, from large general hospitals to small fire trucks. The facilities financed are designed to promote the development of rural communities by providing the infrastructure necessary to attract residents and rural jobs. RHS will collect information using multiple forms and in written format. The Rural Utilities Service (RUS) no longer uses the 1942-A regulation. The burden for RUS is now covered under 0572-0121.

Need and Use of the Information: Information will be collected by Rural Development field offices from applicants/borrowers and consultants. The information is used to determine eligibility, project feasibility, and to ensure borrowers operate on a sound basis and use loan and grant funds for authorized purposes. Failure to collect proper information could result in improper determinations of eligibility, improper use of funds, and/or unsound loans.

Description of Respondents: Not-for-profit institutions; State, Local or Tribal Government.

Number of Respondents: 2,769.

Frequency of Responses: Recordkeeping; Reporting: On occasion; Annually.

Total Burden Hours: 48,319.

Charlene Parker,

Departmental Information Collection Clearance Officer.

SUPPLEMENTARY INFORMATION:

Background

The Codex was established in 1963 by two United Nations organizations, the Food and Agriculture Organization and the World Health Organization. Through adoption of food standards, codes of practice, and other guidelines developed by its committees, and by promoting their adoption and implementation by governments, Codex seeks to protect the health of consumers and ensure that fair practices are used in trade.

The CCMAS is responsible for defining the criteria appropriate to Codex Methods of Analysis and Sampling; serving as a coordinating body for Codex with other international groups working in methods of analysis and sampling and quality assurance systems for laboratories; specifying, on the basis of final recommendations submitted to it by other bodies, reference methods of analysis and sampling; considering, amending, and endorsing, appropriate to Codex standards which are generally applicable to a number of foods; methods of analysis and sampling proposed by Codex (Commodity) Committees, (except that methods of analysis and sampling for residues of pesticides or veterinary drugs in food, the assessment of micro-biological quality and safety in food, and the assessment of specifications for food additives, do not fall within the terms of reference of this Committee); elaborating sampling plans and procedures; considering specific sampling and analysis problems submitted to it by the Commission or any of its Committees; and defining procedures, protocols, guidelines, or

related texts for the assessment of food laboratory proficiency, as well as quality assurance systems for laboratories.

The CCMAS is hosted by Hungary and the meeting is attended by the United States as a member country of the Codex Alimentarius.

Issues To Be Discussed at the Public Meeting

The following items on the Agenda for the 38th Session of the CCMAS will be discussed during the public meeting:

- Matters Referred to the Committee by the Codex Alimentarius Commission and Other Subsidiary Bodies;
- Endorsement of Methods of Analysis Provisions and Sampling Plans in Codex Standards;
- Guidance on the criteria approach for methods which use a “sum of components;”

• Criteria for endorsement of biological methods used to detect chemicals of concern;

- Review and Update of Methods in Codex Standard 234–1999;
- Information document on Practical Examples of the Selection of Appropriate Sampling Plans
- Proposal to amend the guidelines on Measurement Uncertainty
- Proposal to amend the General Guidelines on Sampling; Report of an Inter-Agency Meeting on Methods of Analysis; and Other Business and Future Work.

Each issue listed will be fully described in documents distributed, or to be distributed, by the Secretariat before to the Committee Meeting. Members of the public may access or request copies of these documents (see **ADDRESSES**).

Public Meeting

At the April 7, 2017 public meeting, draft U.S. positions on the agenda items will be described and discussed, and attendees will have the opportunity to pose questions and offer comments. Written comments may be offered at the meeting or sent to the U.S. Delegate for the 38th Session of the CCMAS, Gregory Noonan (see **ADDRESSES**). Written comments should state that they relate to activities of the 38th Session of the CCMAS.

Additional Public Notification

Public awareness of all segments of rulemaking and policy development is important. Consequently, FSIS will announce this **Federal Register** publication on-line through the FSIS Web page located at: <http://www.fsis.usda.gov/federal-register>.

FSIS also will make copies of this publication available through the FSIS

Constituent Update, which is used to provide information regarding FSIS policies, procedures, regulations, **Federal Register** notices, FSIS public meetings, and other types of information that could affect or would be of interest to our constituents and stakeholders. The Update is available on the FSIS Web page. Through the Web page, FSIS is able to provide information to a much broader, more diverse audience. In addition, FSIS offers an email subscription service which provides automatic and customized access to selected food safety news and information. This service is available at: <http://www.fsis.usda.gov/subscribe>. Options range from recalls to export information, regulations, directives, and notices. Customers can add or delete subscriptions themselves, and have the option to password protect their accounts.

Forest Service

San Bernardino National Forest, California, Withdrawal of Notice of Intent To Prepare a Joint Environmental Impact Report/ Environmental Impact Statement for the Proposed North-South Project EIR/ EIS

AGENCY: Forest Service, USDA.

ACTION: Withdrawal of notice of intent to prepare an EIR/EIS.

SUMMARY: On October 2, 2015 (**Federal Register** Vol. 80, No. 191, page 59728), the San Bernardino National Forest (Forest Service) gave notice that, together with the California Public Utilities Commission (CPUC), the Forest Service intended to prepare a joint Environmental Impact Report and Environmental Impact Statement (EIR/ EIS) for the Southern California Gas Company (SoCalGas) and San Diego Gas and Electric (SDG&E) proposed North-South Project. The joint EIR/EIS would have met the requirements of the National Environmental Policy Act (NEPA) and the California Environmental Quality Act (CEQA). The CPUC denied the application on July 14, 2016 based on a lack of need for the proposed pipeline. SoCalGas withdrew their federal application on August 8, 2016 as a result of the CPUC action. Therefore, further preparation of an EIR/ EIS is not necessary. The notice of intent is withdrawn and the NEPA process is hereby terminated.

FOR FURTHER INFORMATION CONTACT: Jerry Sirski, Natural Resource Specialist, San Bernardino National Forest, 602 South Tippecanoe Avenue, San Bernardino, CA 92408. Telephone: (909) 382–2690. Email: jsirski@fs.fed.us.

Individuals who use telecommunication devices for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339 between 8 a.m. and 8 p.m., Eastern Time, Monday through Friday.

SUPPLEMENTARY INFORMATION: The primary components of the Proposed Project included the construction of a 36-inch-diameter natural gas transmission pipeline and the rebuilding of the Adelanto Compressor Station. The pipeline would have been primarily constructed within existing public and private rights-of-way. The Adelanto to Moreno pipeline would have been approximately 65 miles in length and would have started at the Adelanto Compressor Station in the high desert city of Adelanto and proceeded in a southerly direction
