

potentially limiting the competitiveness of the divested clinics. Third, to ensure continuity of patient care and records as the buyer implements its quality care, billing, and supply systems, the Consent Agreement requires DaVita to provide transition services for a period up to twenty-four months. Firewalls and confidentiality agreements will prevent the exchange of competitively sensitive information. Fourth, the Consent Agreement requires DaVita to provide the buyer with a license to Renal Ventures' policies, procedures, and medical protocols, as well as the option to obtain and use DaVita's medical protocols, policies, and procedures, to help with continuity of care for the divested clinics' patients.

The Consent Agreement requires DaVita to provide notice to the Commission prior to any acquisitions of dialysis clinics in the markets addressed by the Consent Agreement to ensure that subsequent acquisitions do not adversely impact competition in those markets or undermine the remedial goals of the proposed order. Finally, the Consent Agreement allows the Commission to appoint a monitor to oversee DaVita's compliance with the Consent Agreement.

The purpose of this analysis is to facilitate public comment on the Consent Agreement, and it is not intended to constitute an official interpretation of the proposed Decision and Order, or to modify its terms in any way.

By direction of the Commission.

Donald S. Clark,

Secretary.

Agency Forms Undergoing Paperwork Reduction Act Review

The Centers for Disease Control and Prevention (CDC) has submitted the following information collection request to the Office of Management and Budget

(OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995. The notice for the proposed information collection is published to obtain comments from the public and affected agencies.

Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address any of the following: (a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) Enhance the quality, utility, and clarity of the information to be collected; (d) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses; and (e) Assess information collection costs.

To request additional information on the proposed project or to obtain a copy of the information collection plan and instruments, call (404) 639-7570 or send an email to omb@cdc.gov. Written comments and/or suggestions regarding the items contained in this notice should be directed to the Attention: CDC Desk Officer, Office of Management and Budget, Washington, DC 20503 or by fax to (202) 395-5806. Written comments should be received within 30 days of this notice.

Proposed Project

Mobile Messaging Intervention to Present New HIV Prevention Options for Men Who have Sex with Men (MSM) Study—New—National Center for HIV/AIDS, Viral Hepatitis, STD, and TB Prevention (NCHHSTP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Public health approaches to HIV prevention and control are increasingly complex for men who have sex with men (MSM), a population with a disproportionately high burden of HIV infection. In addition to the established biomedical treatments for HIV-positive MSM, and behavioral strategies to reduce the risk of transmitting or contracting HIV, current recommendations incorporate the breakthrough biomedical risk reduction
