

Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 7 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive

copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 5 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

[Docket No. CP17-79-000]

Florida Gas Transmission Company, LLC; Notice of Application

Take notice that on March 16, 2017, Florida Gas Transmission Company, LLC (FGT) 1300 Main Street, Houston, Texas 77002, filed in Docket No. CP17-79-000, an application pursuant to sections 7(b) and 7(c) of the Natural Gas Act and Part 157 of the Commission's regulations, for a certificate of public convenience and necessity to construct and operate its Wekiva Parkway Relocation Project located in Lake and Seminole Counties, Florida. The purpose of the Wekiva Parkway Relocation Project is to resolve conflicts with the Florida Department of Transportation construction of State Road 429, part of a new toll road known as the Wekiva Parkway which conflicts with portions of FGT's existing 12-inch and 26-inch Sanford Laterals and appurtenant facilities. Specifically, FGT requests to relocate/replace approximately 4.60 miles of 12-inch Sanford Lateral pipe and approximately 3.16 miles of 26-inch Sanford Lateral

Loop pipeline with approximately 4.56 miles of 12-inch Sanford Lateral pipe and 3.12 miles of 26-inch Sanford Lateral Loop pipeline facilities used to render transportation services. FGT is proposing to abandon, relocate, and replace portions of the affected Sanford Laterals by installing the replacement lines adjacent to each other in new right of way, all as more fully set forth in the application, which is on file with the Commission and open to public inspection. Notice of Requests for Approval of an Alternative Means of Emission Limitation at Chevron Phillips Chemical Company LP

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; request for comments.

SUMMARY: This action provides public notice and solicits comment on the alternative means of emission limitation (AMEL) request from Chevron Phillips Chemical Company LP (CP Chem), requested under the Clean Air Act (CAA), to operate a multi-point ground flare (MPGF) at their new ethylene plant in Baytown, Texas, and an MPGF at their new polyethylene plant in Old Ocean, Texas.¹ In this action, the Environmental Protection Agency (EPA) is soliciting comment on all aspects of this request for an AMEL and the alternative operating conditions that would be sufficient to achieve a reduction in emissions of volatile organic compounds (VOC) and

¹ The MPGF at both the ethylene plant and polyethylene plant will utilize pressure-assisted burners on all the high pressure stages; however, the first two stages on the MPGF at the polyethylene plant will also be steam-assisted.
