

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[Doc. No. AMS-ST-17-0021]

Notice of Request for Extension and Revision of a Currently Approved Information Collection

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), this notice announces the Agricultural Marketing Service's (AMS) intention to request approval, from the Office of Management and Budget (OMB), for an extension of and revision to the currently approved information collection "Laboratory Approval Programs."

DATES: Comments on this notice must be received by June 5, 2017 to be assured of consideration.

Additional Information or Comments: Interested persons are invited to submit comments on this proposal to Grace Vaillant, Laboratory Approval and Testing Division, Science and Technology, Agricultural Marketing Service, U.S. Department of Agriculture, 1400 Independence Avenue SW., Stop 0272, Washington, DC 20250-0272; Phone 202-690-0621, Fax 202-720-4631. Comments should be submitted in triplicate. Comments may also be submitted electronically through <http://www.regulations.gov>. All comments should reference the docket number and page number of this issue of the **Federal Register**. All comments received will be made available for public inspection at the above address during regular business hours and may be viewed at <http://www.regulations.gov>.

SUPPLEMENTARY INFORMATION:

Title: Laboratory Approval Programs.

OMB Number: 0581-0251.

Expiration Date of Approval: September 30, 2017.

Type of Request: Extension and revision of a currently approved information collection.

Abstract: Under the Agricultural Marketing Act of 1946, as amended (7 U.S.C. 1621-1627), AMS' Laboratory Approval Service (LAS) approves, or accredits, laboratories to perform testing services in support of domestic and international trades. At the request of industry, other Federal agencies, or foreign governments, AMS develops and administers laboratory approval programs (LAPs) to verify that the analysis of food and agricultural products meet country or customer-specified requirements. LAS ensures the testing of products marketed is conducted by qualified and approved laboratories. LAPs requirements include good laboratory, quality assurance and control practices; applicable domestic and international standards (such as ISO/IEC 17025:2005); established methods and accepted equipment; and on-site audits. Laboratories voluntarily participate in the program and pay program fees. Currently, LAS administers four overarching LAPs with over 70 laboratories.

The information collection includes submission of a letter of intent and analyses related documentation. These requirements are essential to examine laboratories for entrance into and continued participation in the following programs:

(1) Aflatoxin Program—laboratories perform aflatoxin testing in support of domestic and/or export trade of almonds, peanuts, and pistachio nuts. (a) Almond. At the request of the Almond Board of California (ABC), AMS administers the program for aflatoxin testing of almonds destined for export to the European Union (EU) through the Pre-Export Certification program of ABC. (b) Peanuts. AMS administers Minimum Quality and Handling Standards for Domestic and Imported Peanuts Marketed in the United States (7 CFR 996 Parts 996.1—996.75). The regulation requires domestically marketed peanuts for human consumption to be analyzed for aflatoxin by a USDA or USDA-approved laboratory. AMS consults with the Peanut Standards Board on program requirements. (c) Pistachio Nuts. AMS

administers mandatory domestic and import aflatoxin requirements for pistachio nuts under Pistachios Grown in California, Arizona, and New Mexico (7 CFR part 983) and Specialty Crops, Import Regulations (7 CFR part 999, Section 999.600), respectively. All domestic and import shipments of pistachio nuts intended for human consumption must be tested for aflatoxin contamination. At the request of the Administrative Committee for Pistachios, laboratories may also participate in the program for pistachio nuts destined for EU.

(2) Export Program—this program ensures the testing of meat and poultry products offered for export certification by the Food Safety and Inspection Service (FSIS) is conducted by qualified and approved laboratories. LAS collaborates with FSIS, the Foreign Agricultural Service, and the meat and poultry industries to administer a flexible and comprehensive program to provide reliable analyses of pesticide residues, environmental contaminants, veterinary drug residues, antibiotic residues, microorganisms, and parasites.

(3) Microbiological Testing for the Federal Purchase Program (FPP)—testing is limited to the analysis of aerobic plate counts, coliform counts, coagulase positive *Staphylococcus aureus*, generic *Escherichia coli*, *Salmonella* species, and *Listeria monocytogenes* in frozen, cooked, and diced chicken procured for the FPP. This is a new program added to the LAPs since the last OMB information collection approval.

(4) Any additional programs which may be requested in the future to facilitate the marketing of U.S. agricultural products.

All LAPs will follow the similar general procedures. Applicants would submit a letter of intent, provide related documentation on analyses they intend to perform, participate in proficiency testing (PT) sample analyses, and be audited by AMS auditors. The time required for information collection will depend on the complexity of the methodology and the time necessary to perform the analysis. The burden hours incurred for these laboratories to submit the initial letter requesting entrance and completion of analyses documentation is a one-time occurrence. Once a laboratory is accepted into the program, the information collection burden will

decrease and will be based on the number of PT samples analyzed by the laboratory throughout the year in order to maintain its program status.

Form ST-212 (Alternate Payment Form) is an option applicant/approved laboratories may use to pay for participation in AMS LAPs. Interested parties can obtain a copy of the form (ST-212) by calling or writing to the point of contact listed above.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 10.94 hours per response.

Respondents: Laboratories.

Estimated Number of Respondents: 56.

Estimated Total Annual Responses: 380.

Estimated Number of Responses per Respondent: 7.

Estimated Total Annual Burden on Respondents: 4,157.30.

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information including completion of analyses related documentation; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology. Comments may be sent to Grace Vaillant, Laboratory Approval and Testing Division, Science and Technology, Agricultural Marketing Service, U.S. Department of Agriculture, 1400 Independence Avenue SW., Stop 0272, Washington, DC 20250-0272; Phone 202-690-0621, Fax 202-720-4631. All comments received will be available for public inspection during regular business hours at the same address.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will become a matter of public record.

Dated: March 30, 2017.

Bruce Summers,

Acting Administrator, Agricultural Marketing Service.

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

March 30, 2017.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments are requested regarding (1) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by May 4, 2017 will be considered. Written comments should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), New Executive Office Building, 725-17th Street NW., Washington, DC 20502. Commenters are encouraged to submit their comments to OMB via email to: OIRA_Submission@OMB.EOP.GOV or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Copies of the submission(s) may be obtained by calling (202) 720-8958.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Food Safety and Inspection Service

Title: Sanitation SOP's Pathogen Reduction/Hazard Analysis and Critical Control Point (HACCP).

OMB Control Number: 0583-0103.

Summary of Collection: The Food Safety and Inspection Service (FSIS) has been delegated the authority to exercise the functions of the Secretary as provided in the Federal Meat Inspection

Act (FMIA) (21 U.S.C. 601) and the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451). These statutes mandate that FSIS protect the public by verifying that meat and poultry products are safe, wholesome, unadulterated, and properly labeled and packaged. FSIS has established requirements applicable to meat and poultry establishments designed to reduce the occurrence and numbers of pathogenic microorganisms on meat and poultry products, reduce the incidence of foodborne illness associated with the consumption of those products, and provide a new framework for modernization of the current system of meat and poultry inspection.

Need and Use of the Information: FSIS will collect information to ensure that (1) establishments have developed and maintained an standard operating plan for sanitation that is used by inspection personnel in performing monitoring regulations; (2) establishments have developed written procedures outlining specimen collection and handling for *E.coli* process control verification testing; (3) establishments developed written HACCP plans; (4) establishments will keep records for measurements during slaughter and processing, corrective action, verification check results, and related activities that contain the identify of the product, the product code or slaughter production lot, and the date the record was made; (5) establishments may have prerequisite programs that are designed to provide the basic environmental and operating conditions necessary for the production of safe, wholesome food; and (6) establishment maintain and are able to supply upon request the following information concerning the suppliers of source materials; the name, point of contact, and phone number for the establishment supplying the source materials for the lot of ground beef sampled; and the supplier lot numbers, production dates, and other information that would be useful to know about suppliers.

Description of Respondents: Business or other for-profit.

Number of Respondents: 6,087.

Frequency of Responses: Recordkeeping; Reporting: On occasion; Other (daily).

Total Burden Hours: 7,045,283.

Food Safety and Inspection Service

Title: Procedures for the Notification of New Technology.

OMB Control Number: 0583-0127.

Summary of Collection: The Food Safety and Inspection Service (FSIS) has been delegated the authority to exercise
