

Background

Section 9 of the Act (16 U.S.C. 1531 *et seq.*) and our implementing Federal regulations in the Code of Federal Regulations (CFR) at 50 CFR part 17 prohibit the “take” of fish or wildlife species listed as endangered or threatened. Take of listed fish or wildlife is defined under the Act as “to harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct” (16 U.S.C. 1532). However, under limited circumstances, we issue permits to authorize incidental take—*i.e.*, take that is incidental to, and not the purpose of, the carrying out of an otherwise lawful activity.

Regulations governing incidental take permits for threatened and endangered species are at 50 CFR 17.32 and 17.22, respectively. The Act’s take prohibitions do not apply to federally listed plants on private lands unless such take would violate State law. In addition to meeting other criteria, an incidental take permit’s proposed actions must not jeopardize the existence of federally listed fish, wildlife, or plants.

Applicant’s Proposal

New Beginnings of Central Florida, Inc. is requesting take of approximately 3.3 acres of occupied sand skink foraging and sheltering habitat incidental to the construction of a residential apartment complex and seeks a 5-year permit. The sand skink (*Neoseps reynoldsi*) is listed in 50 CFR 17.11(h) as a threatened species. The 9.67-ac New Beginnings of Central Florida, Inc. project is located on parcel 09–22–26–080500900000, within Section 20, Township 22 South, Range 26 East, Lake County, Florida. The project includes the construction of a residential apartment complex, associated infrastructure, and landscaping. New Beginnings of Central Florida, Inc. proposes to mitigate for the take of sand skinks by purchasing 6.6 mitigation credits within the Scrub Conservation Bank.

Our Preliminary Determination

We have determined that the applicant’s proposal, including the proposed mitigation measures, would have minor or negligible effects on the species covered in the HCP. Therefore, we determined that the ITP would be for a “low-effect” project and qualifies for categorical exclusion under the National Environmental Policy Act (NEPA; 42 U.S.C. 4321 *et seq.*), as provided by the Department of the Interior NEPA regulations (43 CFR part 46). A low-effect HCP is one involving (1) Minor or

negligible effects on federally listed or candidate species and their habitats, and (2) minor or negligible effects on other environmental values or resources.

Next Steps

We will evaluate the HCP and comments we receive to determine whether the ITP application meets the requirements of section 10(a) of the Act. If we determine that the application meets these requirements, we will issue ITP number TE19759C–0. We will also evaluate whether issuance of the section 10(a)(1)(B) ITP complies with section 7 of the Act by conducting an intra-Service section 7 consultation. We will use the results of this consultation, in combination with the above findings, in our final analysis to determine whether or not to issue the ITP. If the requirements are met, we will issue the permit to the applicant.

Public Comments

If you wish to comment on the permit application, HCP, and associated documents, you may submit comments by any one of the methods in **ADDRESSES**.

Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comments, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Authority

We provide this notice under section 10 of the Act and NEPA regulations (40 CFR 1506.6).

Dated: February 24, 2017.

Consultation and Coordination With Tribal Governments (Executive Order 13175)

The Department of the Interior strives to strengthen its government-to-government relationship with Indian Tribes through a commitment to consultation with Indian Tribes and recognition of their right to self-governance and Tribal sovereignty. We have evaluated this notice under the Department’s consultation policy and under the criteria of Executive Order 13175 and have determined there to be substantial direct effects on federally recognized Tribes because the irrigation projects are located on or associated with Indian reservations. To fulfill its consultation responsibility to Tribes and Tribal organizations, BIA communicates, coordinates, and consults on a continuing basis with these entities on issues of water delivery, water availability, and costs of administration, operation, maintenance, and rehabilitation of projects that concern them. This is accomplished at the individual irrigation project by project, agency, and regional representatives, as appropriate, in accordance with local protocol and procedures. This notice is one

component of our overall coordination and consultation process to provide notice to, and request comments from, these entities when we adjust irrigation assessment rates.
