Dated: April 5, 2017.

Denise L. Carter,

Acting Assistant Secretary for Management.

For the reasons discussed in the preamble, the Acting Assistant Secretary for Management rescinds the following two systems of records notices:

SYSTEM NAMES AND NUMBERS:

1. Official Time Records of Union Officials and Bargaining Unit Employees at the Department of Education (18–05–08); and
2. General Performance Appraisal System (GPAS) (18–05–10).

HISTORY:

The system of records notice entitled “Official Time Records of Union Officials and Bargaining Unit Employees at the Department of Education” (18–05–08) was last published in the **Federal Register** at 64 FR 30106, 30130–30131 (June 4, 1999), and the system of records notice entitled “General Performance Appraisal System (GPAS)” (18–05–10) was last published in the **Federal Register** at 64 FR 30106, 30133–30135 (June 4, 1999).

BILLING CODE 4000–01–P

DEPARTMENT OF ENERGY

Extension Without Change to a Previously Approved Agency Information Collection

AGENCY: U.S. Department of Energy.

ACTION: Notice and request for comments.

SUMMARY: The Department of Energy, pursuant to the Paperwork Reduction Act of 1995, intends to renew, for three years, an information collection request pertaining to the Department’s administration of access provisions under the Privacy Act of 1974, with the Office of Management and Budget (OMB). Comments are invited on: (a) Whether the extended collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) the agency’s proposal to change the name of the information collection from the current “Records and Administration” to “Privacy Act Administration,” which reflects a change of the owner of this information collection from the agency’s Records Management Officer to the agency’s Chief Privacy Officer. The collection instrument has been modified to comply with updates to Privacy Act implementation requirements outlined in OMB Circular A–108, issued January 2017, located at: https://obama.whitehouse.archives.gov/sites/default/files/omb/assets/OMB/circulars/a108/omb_circular_a-108.pdf.

DATES: Comments regarding this proposed information collection must be received on or before June 9, 2017. If you anticipate difficulty in submitting comments within that period, contact the person listed below as soon as possible.

ADDRESSES: Written comments may be sent to Ken Hunt, Chief Privacy Officer, U.S. Department of Energy, 1000 Independence Avenue SW., Rm 8H–085, Washington, DC 20585 or by fax at 202–586–8151 or by email at privacy@hq.doe.gov.

FOR FURTHER INFORMATION CONTACT: Ken Hunt, Chief Privacy Officer, U.S. Department of Energy, 1000 Independence Avenue SW., Rm 8H–085, Washington, DC 20585 or by fax at 202–586–8151 or by email at privacy@hq.doe.gov.

SUPPLEMENTARY INFORMATION: This information collection request contains:

(1) OMB No. 1910–1700; (2) Information Collection Request Title: Privacy Act Administration (formerly Records and Administration); (3) Type of Review: Regular; (4) Purpose: The Privacy Act Information Request form aids the Department of Energy’s processing of Privacy Act requests submitted by an individual or an authorized representative, wherein he or she is requesting records the government may maintain on the individual. The Department’s use of this form continues to contribute to the Department’s Privacy Act processes, including, but not limited to, providing for faster processing of Privacy Act information requests by asking individuals or their authorized representative for pertinent information needed for records retrieval; (5) Annual Estimated Number of Respondents: 135; (6) Annual Estimated Number of Total Responses: 135; (7) Annual Estimated Number of Burden Hours: 45; and (8) Annual Estimated Reporting and Recordkeeping Cost Burden: \$0.

Authority: Statutory Authority: The Privacy Act of 1974, 5 U.S.C. 552(a); 10 CFR 1008.7; and DOE Order 206.1.

Issued in Washington, DC, on April 3, 2017.

Allan Manuel,

Deputy Chief Information Officer for Enterprise Policy, Portfolio Management, and Governance, Office of the Chief Information Officer.

BILLING CODE 6450–01–P

DEPARTMENT OF ENERGY

Office of Energy Efficiency and Renewable Energy

[Case No. DW–012]

Energy Conservation Program for Consumer Products: Decision and Order Granting a Waiver to Miele Incorporated From the Department of Energy Residential Dishwasher Test Procedure

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Decision and order.

SUMMARY: The U.S. Department of Energy (DOE) gives notice of a decision and order (Case No. DW–012) that grants to Miele Incorporated (Miele) a waiver from the DOE dishwasher test procedure for determining the energy consumption of dishwashers. Under this decision and order, Miele is required to test and rate its dishwasher using an alternate test procedure that allows for

testing of one specified basic model at 208 volts when measuring energy consumption.

DATES: This Decision and Order is effective April 10, 2017.

FOR FURTHER INFORMATION CONTACT: Mr. Bryan Berringer, U.S. Department of Energy, Building Technologies Program, Mail Stop EE-5B, Forrestal Building, 1000 Independence Avenue SW., Washington, DC 20585-0121. Telephone: (202) 586-0371. Email: AS_Waiver_Requests@ee.doe.gov.

Ms. Elizabeth Kohl, U.S. Department of Energy, Office of the General Counsel, Mail Stop GC-33, Forrestal Building, 1000 Independence Avenue SW., Washington, DC 20585-0103. Telephone: (202) 586-7796. Email: Elizabeth.Kohl@hq.doe.gov.

SUPPLEMENTARY INFORMATION: In accordance with Title 10 of the Code of Federal Regulations (10 CFR 430.27(f)(2)), DOE gives notice of the issuance of its decision and order as set forth below. The decision and order grants Miele a waiver from the applicable dishwasher test procedure in 10 CFR part 430, subpart B, appendix C1 for a certain basic model of dishwashers that operates at 208 volts, provided that Miele tests and rates such products using the alternate test procedure described in this notice. Miele's representations concerning the energy efficiency of these products must be based on testing consistent with the provisions and restrictions in the alternate test procedure set forth in the decision and order below, and the representations must fairly disclose the test results. Distributors, retailers, and private labelers are held to the same standard when making representations regarding the energy efficiency of these products. 42 U.S.C. 6293(c).

Not later than June 9, 2017, any manufacturer currently distributing in commerce in the United States a product employing a technology or characteristic that results in the same need for a waiver from the dishwasher test procedure must submit a petition for waiver pursuant to the requirements of this section. Manufacturers not currently distributing such products in commerce in the United States must petition for and be granted a waiver prior to distribution in commerce in the United States. Manufacturers may also submit a request for interim waiver pursuant to the requirements of 10 CFR 430.27.

Issued in Washington, DC, on April 4, 2017.

Kathleen Hogan,

Deputy Assistant Secretary for Energy Efficiency, Energy Efficiency and Renewable Energy.

Decision and Order

In the Matter of: Miele Incorporated. (Case No. DW-012)

I. Background and Authority

Title III, Part B of the Energy Policy and Conservation Act of 1975 (EPCA) (42 U.S.C. 6291-6309) established the Energy Conservation Program for Consumer Products Other Than Automobiles, a program that includes dishwashers.¹ Part B includes definitions, test procedures, labeling provisions, energy conservation standards, and the authority to require information and reports from manufacturers. Further, Part B authorizes the Secretary of Energy to prescribe test procedures that are reasonably designed to produce results measuring energy efficiency, energy use, or estimated operating costs, and that are not unduly burdensome to conduct. (42 U.S.C. 6293(b)(3)) The test procedure for residential dishwashers is contained in 10 CFR part 430, subpart B, appendix C1, *Uniform Test Method for Measuring the Energy Consumption of Dishwashers*.

The regulations set forth in 10 CFR 430.27 contain provisions that allow a person to seek a waiver from the test procedure requirements for a particular basic model of a type of covered product when that basic model contains one or more design characteristics that: (1) Prevent testing according to the prescribed test procedure, or (2) cause the prescribed test procedures to evaluate the basic model in a manner so unrepresentative of its true energy consumption characteristics as to provide materially inaccurate comparative data. 10 CFR 430.27(a)(1). DOE may grant the waiver subject to conditions, including adherence to alternate test procedures. 10 CFR 430.27(f)(2).

II. Miele's Petition for Waiver: Assertions and Determinations

On July 13, 2016, Miele filed a petition for waiver and application for interim waiver from the test procedure applicable to dishwashers set forth in 10 CFR part 430, subpart B, appendix C1. Miele has designed a dishwasher that runs on an electrical supply voltage of 208 volts. The existing test procedure

¹ For editorial reasons, upon codification in the U.S. Code, Part B was re-designated Part A.

under section 2.2 of 10 CFR part 430, subpart B, appendix C1 has provisions for testing at 115 and 240 volts only. In its petition for waiver, Miele submitted to DOE an alternate test procedure that allows for testing of one specified basic model at 208 volts.

Miele also requested an interim waiver from the existing DOE test procedure, which DOE granted. See 81 FR at 87027 (Dec. 2, 2016). After reviewing the alternate procedure suggested by Miele, DOE granted the interim waiver because DOE determined that Miele's petition for waiver would likely be granted and decided that it was desirable for public policy reasons to grant Miele immediate relief pending a determination on the petition for waiver. Miele's petition was published in the **Federal Register** on December 2, 2016. 81 FR 87027. DOE received no comments regarding Miele's petition.

DOE previously granted a petition for waiver submitted for an earlier design generation of Miele dishwasher rated for 208 volts (Case No. DW-006) on December 27, 2011, from the applicable residential dishwasher test procedure in 10 CFR part 430, subpart B, appendix C for certain basic models of dishwashers with a 208 volt supply voltage. 76 FR 80920.

III. Consultations With Other Agencies

DOE consulted with the Federal Trade Commission (FTC) staff concerning the Miele petition for waiver. The FTC staff did not have any objections to granting a waiver to Miele.

IV. Order

After careful consideration of all the material that was submitted by Miele and consultation with the FTC staff, in accordance with 10 CFR 430.27, it is ORDERED that:

(1) The petition for waiver submitted by the Miele Incorporated. (Case No. DW-012) is hereby granted as set forth in the paragraphs below.

(2) Miele must test and rate the Miele basic model specified in paragraph (3) on the basis of the current test procedure contained in 10 CFR part 430, subpart B, appendix C1 with the modification of section 2.2 of appendix C1 set forth below to provide for a dishwasher that operates with an electrical supply of 208 volts:

Dishwashers that operate with an electrical supply of 208 volts. Maintain the electrical supply to the dishwasher at 208 volts ± 2 percent and within 1 percent of its nameplate frequency as specified by the manufacturer. Maintain a continuous electrical supply to the unit throughout testing, including the preconditioning cycles, specified in

section 2.9 of this appendix, and in between all test cycles.

(3) This order applies only to the following basic model: PG8056–208V.

(4) Representations. Miele may make representations about the energy use of its dishwasher products for compliance, marketing, or other purposes only to the extent that such products have been tested in accordance with the provisions outlined above and such representations fairly disclose the results of such testing.

(5) This waiver shall remain in effect consistent with the provisions of 10 CFR 430.27.

Issued in Washington, DC, on 4/4/2017.

Kathleen B. Hogan,

Deputy Assistant Secretary for Energy Efficiency, Energy Efficiency and Renewable Energy.

DEPARTMENT OF ENERGY

Office of Energy Efficiency and Renewable Energy

[Case No. CW–027]

Energy Conservation Program for Consumer Products: Decision and Order Granting a Waiver to Samsung Electronics America, Inc. From the Department of Energy Residential Clothes Washer Test Procedure

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Decision and order.

SUMMARY: The U.S. Department of Energy (DOE) gives notice of a decision and order (Case No. CW–027) that grants to Samsung Electronics America, Inc. (Samsung) a waiver from the DOE test procedure for determining the energy consumption of clothes washers. Under this decision and order, Samsung is required to test and rate its clothes washers with clothes containers greater than 6.0 cubic feet using an alternate test procedure that takes this larger capacity into account when measuring energy consumption.

DATES: This Decision and Order is effective April 10, 2017.

FOR FURTHER INFORMATION CONTACT: Mr. Bryan Berringer, U.S. Department of Energy, Building Technologies Program, Mail Stop EE–5B, Forrestal Building, 1000 Independence Avenue SW., Washington, DC 20585–0121. Telephone: (202) 586–0371. Email: Bryan.Berringer@ee.doe.gov.

Ms. Elizabeth Kohl, U.S. Department of Energy, Office of the General Counsel, Mail Stop GC–33, Forrestal Building, 1000 Independence Avenue SW., Washington, DC 20585–0103. Telephone: (202) 586–7796. Email: Elizabeth.Kohl@hq.doe.gov.

SUPPLEMENTARY INFORMATION: In accordance with Title 10 of the Code of Federal Regulations (10 CFR 430.27(f)(2)), DOE gives notice of the issuance of its decision and order as set forth below. The decision and order grants Samsung a waiver from the applicable clothes washer test procedure in 10 CFR part 430, subpart B, appendix J2 for certain basic models of clothes washers with capacities greater than 6.0 cubic feet, provided that Samsung tests and rates such products using the alternate test procedure described in this notice. Samsung's representations concerning the energy efficiency of these products must be based on testing consistent with the provisions and restrictions in the alternate test procedure set forth in the decision and order below, and the representations must fairly disclose the test results. Distributors, retailers, and private labelers are held to the same standard when making representations regarding the energy efficiency of these products. 42 U.S.C. 6293(c).

Not later than June 9, 2017, any manufacturer currently distributing in commerce in the United States a product employing a technology or characteristic that results in the same need for a waiver from the clothes washer test procedure must submit a petition for waiver. 10 CFR 430.27(j). Manufacturers not currently distributing such products in commerce in the United States must petition for and be granted a waiver prior to distribution in commerce in the United States. Manufacturers may also submit a request for interim waiver pursuant to the requirements of 10 CFR 430.27.

Issued in Washington, DC, on April 4, 2017.

Kathleen Hogan,

Deputy Assistant Secretary for Energy Efficiency, Energy Efficiency and Renewable Energy.

Decision and Order

In the Matter of: Samsung Electronics America, Inc. (Case No. CW–027)

I. Background and Authority

Title III, Part B of the Energy Policy and Conservation Act of 1975 (EPCA) (42 U.S.C. 6291–6309) established the Energy Conservation Program for Consumer Products Other Than Automobiles, a program that includes

residential clothes washers.¹ Part B includes definitions, test procedures, labeling provisions, energy conservation standards, and the authority to require information and reports from manufacturers. Further, Part B authorizes the Secretary of Energy to prescribe test procedures that are reasonably designed to produce results measuring energy efficiency, energy use, or estimated operating costs, and that are not unduly burdensome to conduct. (42 U.S.C. 6293(b)(3)) The test procedure for residential clothes washers is contained in 10 CFR part 430, subpart B, appendix J2.

The regulations set forth in 10 CFR 430.27 contain provisions that allow a person to seek a waiver from the test procedure requirements for a particular basic model of a type of covered product when that basic model contains one or more design characteristics that: (1) Prevent testing according to the prescribed test procedure, or (2) cause the prescribed test procedures to evaluate the basic model in a manner so unrepresentative of its true energy consumption characteristics as to provide materially inaccurate comparative data. 10 CFR 430.27(a)(1). DOE may grant the waiver subject to conditions, including adherence to alternate test procedures. 10 CFR 430.27(f)(2).

II. Samsung's Petition for Waiver: Assertions and Determinations

On August 24, 2016, Samsung submitted a petition for waiver from the DOE test procedure applicable to automatic and semi-automatic clothes washers set forth in 10 CFR part 430, subpart B, appendix J2. Samsung requested the waiver because the mass of the test load used in the procedure, which is based on the basket volume of the test unit, is currently not defined for basket sizes greater than 6.0 cubic feet. In its petition, Samsung seeks a waiver for a specified basic model with a capacity greater than 6.0 cubic feet. Table 5.1 of Appendix J2 defines the test load sizes used in the test procedure as linear functions of the basket volume. Samsung requests that DOE grant a waiver for testing and rating based on a revised Table 5.1. (See 77 FR 13888, Mar. 7, 2012; the "March 2012 Final Rule")

Samsung also requested an interim waiver from the existing DOE test procedure, which DOE granted. See 81 FR at 87030 (Dec. 2, 2016). After reviewing the alternate procedure suggested by Samsung, DOE granted the

¹ For editorial reasons, upon codification in the U.S. Code, Part B was re-designated Part A.
