

embodied in the patent and has plans for commercialization of the inventions.

Within 15 days of publication of this notice, any person may submit in writing to DOE's General Counsel for Intellectual Property and Technology Transfer Office (see contact information), either of the following, together with supporting documents:

(i) A statement setting forth reasons why it would not be in the best interest of the United States to grant the proposed license; or (ii) An application for a nonexclusive license to the invention, in which applicant states that it already has brought the invention to practical application or is likely to bring the invention to practical application expeditiously.

The proposed license would be exclusive, subject to a license and other rights retained by the United States, and subject to a negotiated royalty. DOE will review all timely written responses to this notice, and will grant the licenses if, after expiration of the 15-day notice period, and after consideration of any written responses to this notice, a determination is made in accordance with 35 U.S.C. 209(c) that the licenses are in the public interest.

Brian Lally,

Assistant General Counsel for Technology Transfer and Intellectual Property.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

[OE Docket No. EA-384-A]

Application To Export Electric Energy; NRG Power Marketing LLC

AGENCY: Office of Electricity Delivery and Energy Reliability, DOE.

ACTION: Notice of application.

SUMMARY: NRG Power Marketing LLC (NRGPML or Applicant) has applied to renew its authority to transmit electric energy from the United States to Mexico pursuant to section 202(e) of the Federal Power Act.

DATES: Comments, protests, or motions to intervene must be submitted on or before May 12, 2017.

ADDRESSES: Comments, protests, motions to intervene, or requests for more information should be addressed to: Office of Electricity Delivery and Energy Reliability, Mail Code: OE-20, U.S. Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585-0350. Because of delays in handling conventional mail, it is recommended that documents be transmitted by overnight mail, by

electronic mail to

Electricity.Exports@hq.doe.gov, or by facsimile to 202-586-8008.

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated by the Department of Energy (DOE) pursuant to sections 301(b) and 402(f) of the Department of Energy Organization Act (42 U.S.C. 7151(b), 7172(f)) and require authorization under section 202(e) of the Federal Power Act (16 U.S.C. 824a(e)).

On June 12, 2012, DOE issued Order No. EA-384 to NRGPMML, which authorized the Applicant to transmit electric energy from the United States to Mexico as a power marketer for a five-year term using existing international transmission facilities. That authority expires on June 12, 2017. On March 21, 2017, NRGPMML filed an application with DOE for renewal of the export authority contained in Order No. EA-384 for an additional five-year term.

In its application, NRGPMML states that it does not own or operate any electric generation or transmission facilities, and it does not have a franchised service area. The electric energy that NRGPMML proposes to export to Mexico would be purchased from third parties such as electric utilities and Federal power marketing agencies pursuant to voluntary agreements. The existing international transmission facilities to be utilized by NRGPMML have previously been authorized by Presidential Permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties.

Procedural Matters: Any person desiring to be heard in this proceeding should file a comment or protest to the application at the address provided above. Protests should be filed in accordance with Rule 211 of the Federal Energy Regulatory Commission's (FERC) Rules of Practice and Procedures (18 CFR 385.211). Any person desiring to become a party to these proceedings should file a motion to intervene at the above address in accordance with FERC Rule 214 (18 CFR 385.214). Five copies of such comments, protests, or motions to intervene should be sent to the address provided above on or before the date listed above.

Comments and other filings concerning NRGPMML's application to export electric energy to Mexico should be clearly marked with OE Docket No. EA-384-A. An additional copy is to be provided directly to both Alan Johnson, NRG Energy, Inc., 804 Carnegie Center, Princeton, NJ 08540, and Adnan Sarwar, NRG Energy, Inc., 804 Carnegie Center, Princeton, NJ 08540.

A final decision will be made on this application after the environmental impacts have been evaluated pursuant to DOE's National Environmental Policy Act Implementing Procedures (10 CFR part 1021) and after a determination is made by DOE that the proposed action will not have an adverse impact on the sufficiency of supply or reliability of the U.S. electric power supply system.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above, by accessing the program Web site at <http://energy.gov/node/11845>, or by emailing Angela Troy at Angela.Troy@hq.doe.gov.

Issued in Washington, DC, on April 5, 2017.

Christopher Lawrence,

Electricity Policy Analyst, Office of Electricity Delivery and Energy Reliability.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Proposed Subsequent Arrangement

AGENCY: Office of Nonproliferation and Arms Control, Department of Energy.

ACTION: Proposed subsequent arrangement.

SUMMARY: This document is being issued under the authority of section 131a. of the Atomic Energy Act of 1954, as amended. The Department is providing notice of a proposed subsequent arrangement under the Agreement for Cooperation Concerning Civil Uses of Atomic Energy between the Government of the United States and the Government of Canada.

DATES: This subsequent arrangement will take effect no sooner than April 27, 2017.

FOR FURTHER INFORMATION CONTACT: Mr. Richard Goorevich, Office of Nonproliferation and Arms Control, National Nuclear Security Administration, Department of Energy. Telephone: 202-586-0589 or email: Richard.Goorevich@nnsa.doe.gov.

SUPPLEMENTARY INFORMATION: This subsequent arrangement concerns the alteration in form or content of 5 kg of U.S.-origin low enriched uranium (LEU) metal, 987.5 g of which is in the isotope of U-235 (19.75 percent enrichment) and which was exported to Canadian Nuclear Laboratories (CNL) among 100.095 kg of LEU containing 19.776 kg U-235. The LEU was exported for the LEU National Research Universal (NRU) Driver Fuel supply and will now be used for a Plate-Type Proof of Principle
