

channel of the station they are sharing with); or to move from high-VHF to low-VHF channels or from UHF to high-VHF or low-VHF. Each of these stations are required to notify multichannel video programming providers (“MVPD”) that carry the station of the fact that the station will be changing channels or terminating operations.

The information collection requirements contained in 47 CFR 73.3700 requires that full power and Class A television stations assigned a new channel in the incentive auction repacking, relinquishing their channel or moving to a new channel as a result of a winning bid in the auction, notify MVPDs of their termination of operations or change in channel.

On March 23, 2017, the Commission adopted the Report and Order, Channel Sharing by Full Power and Class A Stations Outside the Broadcast Television Spectrum Incentive Auction Context, GN Docket No. 12–268, MB Docket No. 03–185, MB Docket No. 15–137, FCC 17–29 (“Report and Order”). This document approved channel sharing outside of the incentive auction context between full power, Class A, Low Power Television (LPTV) and TV translator stations. Channel sharing stations also must notify MVPDs of the fact that stations will be terminating operations on one channel to share another station’s channel.

The information collection requirements contained in 47 CFR 73.3800, Full Power Television Channel Sharing Outside the Incentive Auction, Section 73.6028 Class A Television Channel Sharing Outside the Incentive Auction and Section 74.799 Low Power Television and TV Translator Channel Sharing require that stations seeking to channel share outside of the incentive auction provide notification to MVPDs of the fact that the station will be terminating operations on one channel to share another station’s channel.

Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission’s burden estimate; ways to enhance the quality, utility, and clarity of the

information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. Title: Part 32, Uniform System of Accounts for Telecommunications Companies.

Form Number: N/A.

Respondents: Business or other for-profit, not-for-profit institutions, and state, local or tribal government.

Number of Respondents and Responses: 852 respondents; 852 responses.

Estimated Time per Response: 1 hour.

Frequency of Response: On occasion recordkeeping requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 11, 151, 154, 161, 201-205, 215, and 218-220.

Total Annual Burden: 852 hours.

Total Annual Cost: No cost(s).

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: The Commission is not requesting that the respondents submit confidential information to the Commission. If the Commission requests applicants to submit information that the respondents believe is confidential, respondents may request confidential treatment of such information under 47 CFR 0.459 of the Commission's rules.

Needs and Uses: The Commission, in 2004, adopted the Joint Conference's recommendations to reinstate the following part 32 accounts: Account 5230, Directory revenue; Account 6621, Call completion services; Account 6622, Number services; Account 6623, customer services; Account 6561, Depreciation expense-telecommunications plant in service; Account 6562, Depreciation expense-property held for future telecommunications use; Account 6563, Amortization expense-tangible; Account 6564, Amortization expense-intangible; and Account 6565, Amortization expense-other. The Commission established a recordkeeping requirement that Class A ILECs maintain subsidiary record categories for unbundled network element revenues, resale revenues, reciprocal compensation revenues, and other interconnection revenues in the accounts in which these revenues are currently recorded. The use of subsidiary record categories allows carriers to use whatever mechanisms they choose, including those currently in place, to identify the relevant amounts as long as the information can be made available to state and federal regulators upon request. The use of subsidiary record categories for interconnection revenue does not require massive changes to the ILECs' accounting systems and is a far less burdensome alternative than the creation of new accounts and/or subaccounts. The information submitted

to the Commission by carriers provides the necessary detail to enable the Commission to fulfill its regulatory responsibilities.
