Merchandise subject to the scope is currently classified in the Harmonized Tariff Schedule of the United States ("HTSUS") at subheading 2903.39.2020. Antidumping Duty Order

On April 5, 2017, in accordance with sections 735(d) of the Act, the ITC notified the Department of its final determination in this investigation, in which it found that imports of R134a from the PRC are materially injuring a U.S. industry.⁴ Therefore, in accordance with section 735(c)(2) of the Act, we are publishing this antidumping duty order.

Because the ITC determined that imports of R134a from the PRC are materially injuring a U.S. industry, unliquidated entries of such merchandise from the PRC, entered or withdrawn for consumption, are subject to the assessment of antidumping duties.

Therefore, in accordance with section 736(a)(1) of the Act, the Department will direct U.S. Customs and Border Protection ("CBP") to assess, upon further instruction by the Department, antidumping duties equal to the amount by which the normal value of the merchandise exceeds the export price (or constructed export price) of the merchandise, for all relevant entries of R134a from the PRC. Antidumping duties will be assessed on unliquidated entries of R134a entered, or withdrawn from warehouse, for consumption on or after October 7, 2016, the date on which the Department published the *Preliminary Determination*,⁵ but will not include entries occurring after the expiration of the provisional measures period and before publication of the

ITC's final injury determination, as further described below.

Continuation of Suspension of Liquidation

In accordance with section 735(c)(1)(B) of the Act, we will instruct CBP to continue to suspend liquidation on entries of subject merchandise from the PRC. These instructions suspending liquidation will remain in effect until further notice.

We will also instruct CBP to require cash deposits at rates equal to the estimated weighted-average dumping margins indicated in the chart below.⁶ Accordingly, effective on the date of publication of the ITC's final affirmative injury determination, CBP will require, at the same time as importers would normally deposit estimated duties on this subject merchandise, a cash deposit at the rates listed below.⁷ The rate for the PRC-wide entity applies to all exporters not specifically listed.

Provisional Measures

Section 733(d) of the Act states that instructions issued pursuant to an affirmative preliminary determination may not remain in effect for more than four months except where exporters representing a significant proportion of exports of the subject merchandise request the Department to extend that four-month period to no more than six months. At the request of Zhejiang Sanmei Chemical Industry Co., Ltd., a mandatory respondent in this investigation, the Department extended the four-month period to six months.⁸ In the underlying investigation, the Department published the *Preliminary Determination* on October 7, 2017.⁹ Therefore, the six-month period beginning on the date of the publication of the *Preliminary Determination* ended on April 4, 2017. Furthermore, section 737(b) of the Act states that definitive duties are to begin on the date of publication of the ITC's final injury determination.

Therefore, in accordance with section 733(d) of the Act and our practice, we will instruct CBP to terminate the suspension of liquidation and to liquidate, without regard to antidumping duties, unliquidated entries of R134a from the PRC entered, or withdrawn from warehouse, for consumption after April 4, 2017 the date the provisional measures expired, and through the day preceding the date of
