Youth Outreach Generic Clearance for the National Center for Health Statistics

(NCHS)—NEW—National Center for Health Statistics (NCHS), Centers for Disease Control and Prevention (CDC).

*Background and Brief Description*

NCHS is authorized to collect data under Section 306 of the Public Health Service Act (42 U.S.C. 242k). NCHS has a history of reaching out to young people to encourage their interest in Science, Technology, Engineering and Math (STEM). Examples of past involvement include adopting local schools, speaking at local colleges, conducting a Statistics Day for high school students, and, most recently, conducting the first NCHS Data Detectives Camp for middle school students.

The success of these programs has inspired NCHS leadership and staff to want to look for new and continuing opportunities to positively impact the lives of young people and expand their interest, understanding of, and involvement in the sciences. NCHS requests approval for a New Generic Clearance mechanism to collect information that will be analyzed to inform future NCHS planning activities. These activities might include, hosting

the Data Detectives Camp annually or bi-annually; hosting Statistics Day annually; creating youth poster sessions for professional conferences (such as the NCHS National Conference on Health Statistics or the American Statistical Association Conference); hosting a statistical or health sciences fair or other STEM related competitions; organizing a STEM Career Day or similar activity; developing web-based sites or materials with youth focus as well as other programs developed to meet future youth outreach needs, particularly activities that encourage STEM.

Information will be collected using a combination of methodologies appropriate to each program. These may include: Registration forms, letters of recommendation, evaluation forms; mail surveys; focus groups; automated and electronic technology (e.g., email, Web-based surveys); and telephone surveys.

OMB approval is requested for three years to conduct the Youth Outreach Generic Clearance for the National Center for Health Statistics (NCHS). Participation is voluntary and there are no costs to respondents other than their time. The total estimated annualized burden hours are 1,750.

**ESTIMATED ANNUALIZED BURDEN HOURS**

Type of respondents	Type of research	Number of respondents	Number of responses/respondent	Average burden/response (in hours)
Students .....	Questionnaires/Applications .....	800	1	30/60
Parents .....	Applicants Questionnaires/Applications .....	800	1	30/60
School Officials/Community Representatives	Applications, Recommendations and Other applicant-supporting documentation.	1200	1	30/60
Student/Youth; Parent/Guardian; School Officials; Other.	Focus Groups .....	50	1	60/60
Student/Youth; Parent/Guardian; School Officials; Other.	Other Program Surveys .....	600	1	30/60

**Agency Forms Undergoing Paperwork Reduction Act Review**

The Centers for Disease Control and Prevention (CDC) has submitted the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995. The notice for the proposed information collection is published to obtain comments from the public and affected agencies.

Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address any of the following: (a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) Enhance the quality, utility, and clarity of the information to be collected; (d) Minimize the burden of the collection of information on those who are to respond, including through

the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses; and (e) Assess information collection costs.

To request additional information on the proposed project or to obtain a copy of the information collection plan and instruments, call (404) 639-7570 or send an email to [omb@cdc.gov](mailto:omb@cdc.gov). Written comments and/or suggestions regarding the items contained in this notice should be directed to the Attention: CDC Desk Officer, Office of Management and Budget, Washington, DC 20503 or by fax to (202) 395-5806. Written comments should be received within 30 days of this notice.

**Proposed Project**

Statement in Support of Application for Waiver of Inadmissibility under Immigration and Nationality Act (0920-0006)—Extension—National Center for Emerging and Zoonotic Infectious Diseases (NCEZID), Centers for Disease Control and Prevention (CDC).

*Background and Brief Description*

Section 212(a)(1) of the Immigration and Nationality Act states that aliens with specific health related conditions are ineligible for admission into the United States. The Attorney General may waive application of this inadmissibility on health-related grounds if an application for waiver is filed and approved by the consular office considering the application for visa. CDC uses this application

primarily to collect information to establish and maintain records of waiver applicants in order to notify the U.S. Citizenship and Immigration Services when terms, conditions and controls imposed by waiver are not met.

CDC is requesting approval from OMB to collect this data for another three years. Based on a review of the number of waivers processed by CDC over the last three years, CDC does not request a change in the amount of burden. The annualized burden for this data collection is 100 hours.

Respondents must mail these documents to CDC, and this entails an additional cost. CDC estimates that respondents will spend a maximum of \$15 per year on postal fees, for a total of \$3,000 annually.

**ESTIMATE OF ANNUALIZED BURDEN HOURS**

Type of respondent	Form	Number of respondents	Number of responses per respondent	Average burden per response (in hours)
Physician .....	CDC 4.422-1 .....	200	1	10/60
Physician .....	CDC 4.422-1a .....	200	1	20/60

Measuring Well-Being for Total Worker Health—New—National Institute for Occupational Safety and Health (NIOSH), Centers for Disease Control and Prevention (CDC).

*Background and Brief Description*

As mandated in the Occupational Safety and Health Act of 1970 (Pub. L. 91-596), the mission of the National Institute for Occupational Safety and Health (NIOSH) is to conduct research and investigations on work-related disease and injury and to disseminate information for preventing identified workplace hazards (Sections 20(a)(1) and (d), Attachment 1).

Organizations work to cultivate well-being to improve employee safety and health. Well-being can contribute to physical health and conversely, its absence may foster disease and mental disorders. Yet, in order to invest in employee well-being it is necessary to define and measure it. The Total Worker Health® (TWH) Program within the National Institute for Occupational Safety and Health (NIOSH) has made worker well-being a key aspect of its mission. TWH is defined as policies, programs, and practices that integrate protection from work-related safety and health hazards with promotion of injury and illness prevention efforts to advance worker well-being. Through an
