

Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection.

Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

*Total Annual Burden:* 1,526 hours.

*Total Annual Cost:* None.

*Privacy Impact Assessment:* No impact(s).

*Nature and Extent of Confidentiality:* There is no need for confidentiality with this collection of information.

*Needs and Uses:* On August, 23, 2016, the Federal Communications Commission released a Report and Order, FCC 16–113, PS Docket No. 15–199, that modified Part 90 of the Rules Private Land Mobile Radio Services. The amended rule revises the Part 90 eligibility rules to permit railroad police officers to access the interoperability. Specifically, the Commission modified Section 90.20(xiv) to provide that:

(xiv)(A) Railroad police officers are a class of users eligible to operate on the nationwide interoperability and mutual aid channels listed in 90.20(i) provided their employer holds a Private Land Mobile Radio (PLMR)

license of any radio category, including Industrial/Business (I/B). Eligible users include full and part time railroad police officers, Amtrak employees who qualify as railroad police officers under this subsection, Alaska Railroad employees who qualify as railroad police officers under this subsection, freight railroad employees who qualify as railroad police officers under this subsection, and passenger transit lines police officers who qualify as railroad police officers under this subsection. Railroads and railroad police departments may obtain licenses for the nationwide interoperability and mutual aid channels on behalf of railroad police officers in their employ. Employers of railroad police officers must obtain concurrence from the relevant state interoperability coordinator or regional planning committee before applying for a license to the Federal Communications Commission or operating on the interoperability and mutual aid channels.

(1) Railroad police officer means a peace officer who is commissioned in his or her state of legal residence or state of primary employment and employed, full or part time, by a railroad to enforce state laws for the protection of railroad property, personnel, passengers, and/or cargo.

(2) Commissioned means that a state official has certified or otherwise designated a railroad employee as qualified under the licensing requirements of that state to act as a railroad police officer in that state.

(3) Property means rights-of-way, easements, appurtenant property, equipment, cargo, facilities, and buildings and other structures owned, leased, operated, maintained, or transported by a railroad.

(4) Railroad means each class of freight railroad (*i.e.* Class I, II, III); Amtrak, Alaska Railroad, commuter railroads and passenger transit lines.

(5) The word state, as used herein, encompasses states, territories and the District of Columbia.

(B) Eligibility for licensing on the 700 MHz narrowband interoperability channels is restricted to entities that have as their sole or principal purpose the provision of public safety services.

To effectively implement the provisions of the new Rule, no other modifications to existing FCC rules are required. The changes are intended to simplify the licensing process for railroad police officers and ensure interoperable communications. The modified rules provide a benefit to public safety licensees by ensuring that only railroad police officers with appropriate governmental authorization can operate on the interoperability and mutual aid channels during emergencies. This will provide the additional benefit of promoting interoperability with railroad police officers by eliminating eligibility as a gating factor when licensing spectrum. *The Report and Order* reduces the burden on railroad police by allowing them to meet eligibility standard by requiring employers of railroad police

officers to obtain concurrence from the relevant state interoperability coordinator or regional planning committee before applying for a license to the Federal Communications Commission or operating on the interoperability and mutual aid channels. Compliance with this requirement is already a requisite for public safety eligibility to use the interoperability and mutual aid channels, consequently any new burden imposed by this requirement would be minimal.

*Total Annual Burden:* 2,759 hours.

*Total Annual Cost:* \$366,975.

*Privacy Impact Assessment:* Yes.

*Nature and Extent of Confidentiality:*

In general there is no need for confidentiality with this collection of information.

*Needs and Uses:* FCC Form 603 is a multi-purpose form used to apply for approval of assignment or transfer of control of licenses in the wireless services. The data collected on this form is used by the FCC to determine whether the public interest would be served by approval of the requested assignment or transfer. This form is also used to notify the Commission of consummated assignments and transfers of wireless and/or public safety licenses that have previously been consented to by the Commission or for which notification but not prior consent is required. This form is used by applicants/licensees in the Advanced Wireless Services, Public Mobile Services, Personal Communications Services, General Wireless Communications Services, Private Land Mobile Radio Services, Broadcast Auxiliary Services, Broadband Radio Services, Educational Radio Services, Fixed Microwave Services, Maritime Services (excluding ships), and Aviation Services (excluding aircraft).

The purpose of this form is to obtain information sufficient to identify the parties to the proposed assignment or

transfer, establish the parties basic eligibility and qualifications, classify the filing, and determine the nature of the proposed service. Various technical schedules are required along with the main form applicable to Auctioned Services, Partitioning and Disaggregation, Undefined Geographical Area Partitioning, Notification of Consummation or Request for Extension of Time for Consummation.

The data collected on FCC Form 603 includes the FCC Registration Number (FRN), which serves as a "common link" for all filings an entity has with the FCC. The Debt Collection Improvement Act of 1996 requires entities filing with the Commission use an FRN. On July 20, 2015, the Commission released the Part 1 R&O in which it updated many of its Part 1 competitive bidding rules (See Updating Part 1 Competitive Bidding Rules; Expanding the Economic and Innovation Opportunities of Spectrum Through Incentive Auctions; Petition of DIRECTV Group, Inc. and EchoStar LLC for Expedited Rulemaking to Amend Section 1.2105(a)(2)(xi) and 1.2106(a) of the Commission's Rules and/or for Interim Conditional Waiver; Implementation of the Commercial Spectrum Enhancement Act and Modernization of the Commission's Competitive Bidding Rules and Procedures, Report and Order, Order on Reconsideration of the First Report and Order, Third Order on Reconsideration of the Second Report and Order, and Third Report and Order, FCC 15-80, 30 FCC Rcd 7493 (2015), modified by Erratum, 30 FCC Rcd 8518 (2015) (Part 1 R&O)). Of relevance to the information collection at issue here, the Commission: (1) Modified the eligibility requirements for small business benefits, and updated the standardized schedule of small business sizes, including the gross revenues thresholds used to determine eligibility; (2) established a new bidding credit for eligible rural service providers; and (3) adopted targeted attribution rules to prevent the unjust enrichment of ineligible entities. The updated Part 1 rules apply to applicants seeking licenses and permits. Additionally, on June 2, 2014 the Commission released the Mobile Spectrum Holdings R&O, in which the Commission updated its spectrum screen and established rules for its upcoming auctions of low-band spectrum. Of relevance to the information collection at issue here, the Commission stated that it could reserve spectrum in order to ensure against excessive concentration in holdings of below-1-GHz spectrum (In the Matter of

Policies Regarding Mobile Spectrum Holdings, Expanding the Economic and Innovation Opportunities of Spectrum Through Incentive Auctions, FCC 14–63, Report and Order, 29 FCC Rcd 6133, 90) 135 (2014) (Mobile Spectrum Holdings R&O). See also Application Procedures for Broadcast Incentive Auction Scheduled to Begin on March 29, 2016; Technical Formulas for Competitive Bidding, Public Notice, 30 FCC Rcd 11034, Appendix 3 (WTB 2015); Wireless Telecommunications Bureau Releases Updated List of Reserve-Eligible Nationwide Service Providers in each PEA for the Broadcast Incentive Auction, Public Notice, AU No. 14–252 (WTB 2016).

The Commission seeks approval for revisions to its previously approved collection of information under OMB Control Number 3060–0800 to permit the collection of the additional information for Commission licenses and permits, pursuant to the rules and information collection requirements adopted by the Commission in the Part 1 R&O and the Mobile Spectrum Holdings R&O. As part of the collection, the Commission is seeking approval for the information collection and recordkeeping requirements associated with FCC Form 603.

In addition, the Commission seeks approval for various other, non-substantive editorial/consistency edits and updates to FCC Form 603 that correct inconsistent capitalization of words and other typographical errors, and better align the text on the form with the text in the Commission rules both generally and in connection with recent non-substantive, organizational amendments to the Commission's rules. Also, in certain circumstances, the Commission requires the applicant to provide copies of their agreements. We do not anticipate that these revisions will impact the collection filing burden.

The Commission therefore seeks approval for a revision to its currently approved information collection on FCC Form 603 to revise FCC Form 603 accordingly.

*OMB Control Number:* 3060–1058.

*Title:* FCC Application or Notification for Spectrum Leasing Arrangement: Wireless Telecommunications Bureau and/or Public Safety and Homeland Security Bureau.

*Form Number:* FCC Form 608.

*Type of Review:* Revision of a currently approved collection.

*Respondents:* Business or other for-profit entities; Not-for-profit institutions; and State, local or tribal government.

*Number of Respondents and Responses:* 991 respondents and 991 responses.

*Estimated Time per Response:* 0.5–1 hour.

*Frequency of Response:* Recordkeeping requirement, on occasion reporting requirement and periodic reporting requirement.

*Obligation to Respond:* Required to obtain or retain benefits. Statutory authority for this collection of information is contained in 47 U.S.C. 154, 155, 158, 161, 301, 303(r), 308, 309, 310 and 332.

*Total Annual Burden:* 996 hours.

*Total Annual Cost:* \$1,282,075.

*Privacy Impact Assessment:* No impact(s).

*Nature and Extent of Confidentiality:* In general there is no need for confidentiality with this collection of information.

*Needs and Uses:* FCC Form 608 is a multipurpose form. It is used to provide notification or request approval for any spectrum leasing arrangement (“Leases”) entered into between an existing licensee (“Licensee”) in certain wireless services and a spectrum lessee (“Lessee”). This form also is required to notify or request approval for any spectrum subleasing arrangement (“Sublease”). The data collected on the form is used by the FCC to determine whether the public interest would be served by the Lease or Sublease. The form is also used to provide notification for any Private Commons Arrangement entered into between a Licensee, Lessee, or Sublessee and a class of third-party users (as defined in Section 1.9080 of the Commission's Rules).

On July 20, 2015, the Commission released the Part 1 R&O in which it updated many of its Part 1 competitive bidding rules (See Updating Part 1 Competitive Bidding Rules; Expanding the Economic and Innovation Opportunities of Spectrum Through Incentive Auctions; Petition of DIRECTV Group, Inc. and EchoStar LLC for Expedited Rulemaking to Amend Section 1.2105(a)(2)(xi) and 1.2106(a) of the Commission's Rules and/or for Interim Conditional Waiver; Implementation of the Commercial Spectrum Enhancement Act and Modernization of the Commission's Competitive Bidding Rules and Procedures, Report and Order, Order on Reconsideration of the First Report and Order, Third Order on Reconsideration of the Second Report and Order, and Third Report and Order, FCC 15–80, 30 FCC Rcd 7493 (2015), modified by Erratum, 30 FCC Rcd 8518 (2015) (Part 1 R&O)). Of relevance to the information collection at issue here, the

Commission: (1) Modified the eligibility requirements for small business benefits, and updated the standardized schedule of small business sizes, including the gross revenues thresholds used to determine eligibility; (2) established a new bidding credit for eligible rural service providers; and (3) adopted targeted attribution rules to prevent the unjust enrichment of ineligible entities. Additionally, on June 2, 2014 the Commission released the Mobile Spectrum Holdings R&O, in which the Commission updated its spectrum screen and established rules for its upcoming auctions of low-band spectrum. Of relevance to the information collection at issue here, the Commission stated that it could reserve spectrum in order to ensure against excessive concentration in holdings of below-1-GHz spectrum (In the Matter of Policies Regarding Mobile Spectrum Holdings, Expanding the Economic and Innovation Opportunities of Spectrum Through Incentive Auctions, FCC 14–63, Report and Order, 29 FCC Rcd 6133, 90) 135 (2014) (Mobile Spectrum Holdings R&O). The Commission seeks approval for revisions to its previously approved collection of information under OMB Control Number 3060–1058 to permit the collection of the additional information for Commission licenses, leases and permits, pursuant to the rules and information collection requirements adopted by the Commission in the Part 1 R&O and the Mobile Spectrum Holdings R&O. As part of the collection, the Commission is seeking approval for the information collection and recordkeeping requirements associated with FCC Form 608.

In addition, the Commission seeks approval for various other, non-substantive editorial/consistency edits and updates to FCC Form 608 that correct inconsistent capitalization of words and other typographical errors, and better align the text on the form with the text in the Commission rules both generally and in connection with recent non-substantive, organizational amendments to the Commission's rules.

Also, in certain circumstances, the Commission requires the applicant to provide copies of their agreements. We do not anticipate that these revisions will impact the collection filing burden.

The Commission therefore seeks approval for a revision to its currently approved information collection on FCC Form 608 to revise FCC Form 608 accordingly.

*Total Annual Burden:* 52,334 hours.

*Annual Cost Burden:* \$2,206,200.

*Nature and Extent of Confidentiality:* An assurance of confidentiality is not offered because this information collection does not require the collection of personally identifiable information from individuals.

*Privacy Act Impact Assessment:* No impact(s).

*Needs and Uses:* The telecommunications relay service (TRS) program enables access to the nation's telephone network by persons with hearing and speech disabilities. Between 2008 and 2011, the Commission adopted rules in three separate orders related to the telephone numbering system and enhanced 911 (E911) services for users of two forms of Internet-based TRS: Video Relay Service (VRS) and Internet Protocol Relay service (IP Relay). See document FCC 08–151, Report and Order and Further Notice of Proposed Rulemaking (First

Numbering Order), published at 73 FR 41286, July 18, 2008; document FCC 08–275, Second Report and Order and Order on Reconsideration (Second Numbering Order), published at 73 FR 79683, December 30, 2008; and document FCC 11–123, Report and Order (iTRS Toll Free Order), published at 76 FR 59551, September 27, 2011.

The rules adopted in these three orders have the following information collection requirements:

(A) Routing Information. VRS and IP Relay providers must obtain and retain current routing information from their registered users.

(B) Provision of Routing Information. VRS and IP Relay providers must provision and maintain their registered users' routing information to the TRS Numbering Directory.

(C) Registered Location. VRS and IP Relay providers must obtain from each newly registered user the physical location at which the service will be utilized (the user's Registered Location) and offer their registered users one or more methods of updating their physical location.

(D) Provision of Registered Location. Each VRS and IP Relay provider must place its registered users' Registered Location and certain callback information into, or make that information available through, Automatic Location Information (ALI) databases across the country.

(E) User Notification. Every VRS or IP Relay provider must include an advisory on its Web site and in any promotional materials addressing numbering and E911 services for VRS or IP Relay.

(F) Affirmative Acknowledgements. VRS and IP Relay providers must obtain and keep a record of affirmative acknowledgement from each of their registered users of having received and understood the user notification.

(G) Ascertaining Registration Status of VRS or IP Relay User. Every VRS and IP Relay provider must verify whether a dial-around user is registered with another provider. Because there is only one IP Relay provider, dial-around service is not used with IP Relay at this time.

(H) Verifying Registration and Eligibility Information. Every VRS and IP Relay provider must institute procedures to verify the accuracy of registration information, and include a self-certification component requiring consumers to verify that they have a disability necessitating their use of TRS.

(I) Commission Approval for the Pass Through of Numbering Costs. Each VRS or IP Relay provider wishing to pass through certain numbering-related costs

to its users must obtain Commission approval to do so.

(J) Information Sharing After a Change in Default Providers. Each VRS provider that provides equipment to a consumer must make available to other VRS providers enough information about that equipment to enable another VRS provider selected as the consumer's default provider to perform all of the functions of a default provider.
