

A redesign for NSDUH will require considerable effort and will break trends with earlier NSDUH data where new estimates could not be compared to those from previous years. It is essential to take sufficient time to develop and validate any redesigned measures to avoid the need for further near-term changes with the potential for additional, unanticipated breaks in data trends. The last partial redesign was implemented in 2015. SAMHSA is now exploring the possibility of another redesign sometime in the future.

Request for Comments

This notice is a general solicitation of comments from the public. Proposed changes should meet the following criteria:

- Because NSDUH is a general population survey and includes individuals 12 years and older, questions must be understandable to a person with a 6th grade reading level.
- Each question must have analytic utility. That is, questions must be useful either to estimate prevalence or as a key component in statistical analyses, such as studies of the potential impact of policies.
- Questions must apply to enough respondents that precise estimation is possible (*i.e.*, behaviors, experiences and attitudes must be prevalent enough to ensure reliable estimates).
- Questions should generate data for aggregated analyses, not to assess the efficacy of a particular treatment program.
- Questions should be useful in tracking trends or changes in treatment behavior even when policies change.
- When adding new questions, current questions must be identified for deletion, so there is no increase in respondent burden; survey administration time should average no more than 1 hour.
- Any new questions should be administrable according to NSDUH survey procedures and as part of the redesigned NSDUH questionnaire. Under current practices, this means new questions would be administered using audio computer-assisted self-interviewing [ACASI]), allow no parent proxy reports for youth respondents, and entail no special sampling requirements or changes to household screening questions.

- Any changes would be made at the beginning of any future redesign, and will not be changed again until the next redesign in order to be able to maintain trend data.

Issues of interest for public comment include but are not limited to the following:

- Timing of redesign since it will lead to a break in trends across the board
- Whether and which questionnaire topic areas will add to the utility of the NSDUH
- Potential barriers in developing questions for identified questionnaire topic areas
- Additional topic areas of interest
- Topics and questions to drop from the NSDUH
- Input on feasibility, cost, data accuracy and data completeness for questionnaire and methodological revisions under consideration

All comments should be received by June 26, 2017.

Summer King,
Statistician.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Proposed Collection; Comment Request

In compliance with Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 concerning opportunity for public comment on proposed collections of information, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the information collection plans, call the SAMHSA Reports Clearance Officer on (240) 276-1243.

Comments are invited on: (a) Whether the proposed collections of information are necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility;

(b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: Access to Recovery (ATR) Program (OMB No. 0930-0266)—Reinstatement

The Substance Abuse and Mental Health Services Administration's (SAMHSA), Center for Substance Abuse Treatment (CSAT) is charged with the Access to Recovery (ATR) program which will allow grantees (States, Territories, the District of Columbia and Tribal Organizations) a means to implement voucher programs for substance abuse clinical treatment and recovery support services. The ATR data collection (OMB No. 0930-0266) will be a reinstatement from the previous approval that expires on May 31, 2017. There will be no changes to the two client-level tools.

The goals of the ATR program are to: (1) Provide client choice among substance abuse clinical treatment and recovery support service providers, (2) expand access to a comprehensive array of clinical treatment and recovery support options (including faith-based programmatic options), and (3) increase substance abuse treatment capacity. Monitoring outcomes, tracking costs, and preventing waste, fraud and abuse to ensure accountability and effectiveness in the use of Federal funds are also important elements of the ATR program. Grantees, as a contingency of their award, are responsible for collecting Voucher Information (VI) and Voucher Transaction (VT) data from their clients.

The primary purpose of this data collection activity is to meet the reporting requirements of the Government Performance and Results Act (GPRA) by allowing SAMHSA to quantify the effects and accomplishments of SAMHSA programs. The following table is an estimated annual response burden for this effort.

ESTIMATES OF ANNUALIZED HOUR BURDEN¹

Center/form/respondent type	Number of respondent	Responses per respondent	Total responses	Hours per response	Total hour burden	Total wage cost	Total hour cost/respondent ¹
Voucher information and transaction	53,333	1.5	80,000	.03	2,400	\$18.40	\$44,160

¹ This table represents the maximum additional burden if adult respondents for ATR provide responses/data at an estimated hourly wage (from 2010 Bureau of Labor Statistics).

Send comments to Summer King, SAMHSA Reports Clearance Officer, 5600 Fishers Lane, Room 15E57-B, Rockville, Maryland 20857, OR email a copy to summer.king@samhsa.hhs.gov. Written comments should be received by June 26, 2017.

BILLING CODE 4162-20-P

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

[Docket ID: FEMA-2017-0007; OMB No. 1660-0029]

Agency Information Collection Activities: Submission for OMB Review; Comment Request; Approval and Coordination of Requirements To Use the NETC for Extracurricular and Training Activities

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice.

SUMMARY: The Federal Emergency Management Agency (FEMA) will submit the information collection abstracted below to the Office of Management and Budget for review and clearance in accordance with the requirements of the Paperwork Reduction Act of 1995. The submission will describe the nature of the information collection, the categories of respondents, the estimated burden (*i.e.*, the time, effort and resources used by respondents to respond) and cost, and the actual data collection instruments FEMA will use.

DATES: Comments must be submitted on or before May 26, 2017.

ADDRESSES: Submit written comments on the proposed information collection to the Office of Information and Regulatory Affairs, Office of Management and Budget. Comments should be addressed to the Desk Officer for the Department of Homeland

Security, Federal Emergency Management Agency, and sent via electronic mail to oir.submission@omb.eop.gov.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the information collection should be made to Director, Records Management Division, 500 C Street SW., Washington, DC 20472-3100, or email address FEMA-Information-Collections-Management@fema.dhs.gov.

SUPPLEMENTARY INFORMATION: This proposed information collection previously published in the **Federal Register** on February 6, 2017 at 82 FR 9388 with a 60 day public comment period. FEMA received one request for a copy of the proposed information collection by the public. The Agency responded to this comment and provided the most up-to-date copy of the proposed information collection to the requester. The purpose of this notice is to notify the public that FEMA will submit the information collection abstracted below to the Office of Management and Budget for review and clearance.

Collection of Information

Title: Approval and Coordination of Requirements To Use the NETC for Extracurricular and Training Activities.

Type of Information Collection: Revision of a currently approved information collection.

OMB Number: 1660-0029.

Form Titles and Numbers: FEMA Form 119-17-1, Request for Housing Accommodations; FEMA Form 119-17-2, Request for Use of NETC Facilities.

Abstract: FEMA established the National Emergency Training Center (NETC), located in Emmitsburg, Maryland to offer training for the purpose of emergency preparedness. The NETC site has facilities and housing available for those participating in emergency preparedness. When training space and/or housing is required for those attending the training, a request for use of these areas must be made in advance and this collection provides the mechanism for such requests to be made.

Affected Public: Not-for-profit institutions; Federal Government; State, Local or Tribal Government; individuals or households; and business or other for-profit.

Estimated Number of Respondents: 60.

Estimated Total Annual Burden Hours: 120 hours.

Estimated Cost: The estimated annual cost to respondents for the hour burden is \$407.04. The annual costs to respondents' operations and maintenance costs for technical services is \$956.40. There are no annual start-up or capital costs. The cost to the Federal Government is \$1,014.60.

Dated: April 12, 2017.

Tammi Hines,

Records Management Program Chief (Acting), Mission Support, Federal Emergency Management Agency, Department of Homeland Security.
