

assessment including a section devoted to stakeholder input in most chapters.

In February 2016, the Gila NF and the Southwestern Regional Office participated in the 6th Natural History of the Gila Symposium hosted by Western New Mexico University. Ecological assessment data and analysis approaches were presented, including: an overview of forest plan revision, the analysis framework, state and transition modeling, vegetation, soil, water, at-risk species and a history of insects and disease.

The Forest released the draft assessment report in September 2016 and draft need-for-change document in October 2016 to the public and other stakeholders for feedback. Community meetings were held in communities surrounding the Forest (including Las Cruces) in late October to early November 2016 to discuss assessment key findings, collaborate to determine needs-for-change to the current plan, and continue the dialogue between the Forest and nearby residents, users, and interested individuals. All meeting materials have been posted online at <http://go.usa.gov/h88k> to provide an opportunity for people that couldn't attend the meetings to be able to view the materials, and to provide feedback. The Forest received 78 emails, letters, and forms providing feedback on the draft assessment report and need-for-change document, which were all considered as the Gila NF revised and finalized the documents. Stakeholder engagement will continue throughout the upcoming plan and EIS development.

Scoping Process

Written comments received in response to this notice will be analyzed to complete the identification of the needs for change to the existing plan, further develop the proposed action, and identify potential significant issues. Significant issues will, in turn, form the basis for developing alternatives to the proposed action. Comments on the preliminary needs for change and proposed action will be most valuable if received by [45 days from date of publication in the **Federal Register**], and should clearly articulate the reviewer's opinions and concerns. Comments received in response to this notice, including the names and addresses of those who comment, will be part of the public record. Comments submitted anonymously will be accepted and considered in the NEPA process; however, anonymous comments will not provide the Agency with the ability to provide the respondent with subsequent

environmental documents, nor will anonymous comments provide standing to the commenter for the eventual Objection process. See the below Objection process material, particularly the requirements for filing an objection, for how anonymous comments are handled during the objection process. Refer to the Forest's Web site (<http://go.usa.gov/h88k>) for information on when public meetings will be scheduled for refining the proposed action and identifying possible alternatives to the proposed action.

Applicable Planning Rule

Preparation of the revised forest plan for the Gila National Forest began with the publication of a Notice of Assessment Initiation in the **Federal Register** on May 18, 2015 (80 FR 28222) and was initiated under the planning procedures contained in the 2012 Forest Service planning rule (36 CFR 219 (2012)).

Permits or Licenses Required To Implement the Proposed Action

No permits or licenses are needed for the development or revision of a forest plan.

Decisions Will Be Subject to Objection

The decision to approve the revised forest plan for the Gila National Forest will be subject to the objection process identified in 36 CFR part 219 Subpart B (219.50 to 219.62). According to 36 CFR 219.53(a), those who may file an objection are individuals and entities who have submitted substantive formal comments related to plan revision during the opportunities provided for public comment during the planning process.

Documents Available for Review

The Needs for Change documentation, the Assessment Report, summaries of the public meetings and public meeting materials, and public comments are posted on the Forest's Web site at: <http://go.usa.gov/h88k>. As necessary or appropriate, the material available on this site will be further adjusted as part of the planning process using the provisions of the 2012 planning rule.
