

Notice of Availability (NOA) for the Draft EIS for the Gregory Canyon Landfill Project on December 14, 2012 (77 FR 74470) and held a public hearing on January 31, 2013. The Draft EIS was circulated for public comments for 125 days, ending on April 15, 2013. However, the Corps withdrew the DA permit application on April 28, 2014 pursuant to 33 CFR 325.2(d)(5), due to a lack of essential information needed from the applicant to continue with the permit application evaluation process. The applicant subsequently provided the essential information and a new DA permit application, and the Corps issued a Public Notice for the updated application on September 24, 2015 with a 30-day comment period. Since that time, the project proponent has withdrawn its Department of the Army permit application and is no longer actively pursuing the proposed project. Therefore, the Corps is withdrawing the Draft EIS for the Gregory Canyon Landfill Project.

David J. Castanon,

Chief, Regulatory Division, Los Angeles District.

Proposed Waiver and Extension of the Project Period for the Native American Career and Technical Education Program

AGENCY: Office of Career, Technical, and Adult Education, Department of Education.

ACTION: Proposed waiver and extension of the project period.

Background

The NACTEP, as authorized by section 116 of the Carl D. Perkins Career and Technical Education Act of 2006 (the Act), provides grants to improve career and technical education programs that are consistent with the purposes of the Act and that benefit Native Americans and Alaska Natives. The Act also provides that NACTEP programs should build on the efforts of States and localities to develop challenging academic and technical standards and to assist students in meeting such

standards, including preparation for high-skill, high-wage, or high-demand occupations in emerging or established professions. (20 U.S.C. 2301(1)).

In addition, programs are required to provide technical assistance that promotes leadership, initial preparation, and professional development and improves the quality of career and technical education teachers, faculty, administrators, and counselors. (20 U.S.C. 2301(5)).

Additionally, NACTEP programs generally support partnerships among secondary schools, postsecondary institutions, baccalaureate degree-granting institutions, area career and technical education schools, local workforce investment boards, business and industry, and intermediaries, as well as provide, in conjunction with other education and training programs, individuals with opportunities throughout their lives to develop the knowledge and skills needed to keep the United States competitive. (20 U.S.C. 2301(6) and (7)).

On February 26, 2013, we published in the **Federal Register** (78 FR 13030) a notice inviting applications under NACTEP (2013 NIA), to operate career and technical education programs, as authorized by section 116(a) through (g) of the Act. (20 U.S.C. 2326(a)-(g)).

In FY 2013, the Department funded two-year awards to NACTEP projects that were scheduled to end in FY 2015. On February 10, 2015, we published in the **Federal Register** (80 FR 7439), a proposed waiver and extension of the project period for the NACTEP grants. In that notice, we stated that we did not believe it would be in the public interest to hold a new NACTEP competition in FY 2015, due to the potential for changes in the authorizing legislation for NACTEP beyond 2015, resulting in projects that might then operate for just one year. Following that notice and consideration of the comments received in response to it, on July 6, 2015, we published in the **Federal Register** (80 FR 38440), a notice of final waiver and extension of the project period for the NACTEP, waiving the requirements of 34 CFR 75.261(a) and (c)(2) that generally prohibit project period extensions involving the obligation of additional Federal funds. Therefore, the NACTEP grantees were permitted to request an extension of the project period for up to an additional 24 months.

In this notice, we are proposing to waive the requirements in 34 CFR 75.261(a) and (c)(2) in order to allow the Department to consider current grantee requests to extend the project period for an additional 12 months. Given that

these funds expire by September 30, 2017, there would be limited time to conduct a NACTEP competition and provide the new administration sufficient time to determine its career and technical education priorities. Therefore, the Department believes it is in the best interest of the public to extend the existing grants for an additional 12 months.

If this proposed waiver becomes final through a notice of final waiver and extension of the project period published in the **Federal Register**: (1) The requirements applicable to continuation awards for current NACTEP grantees set forth in the 2013 NIA and the requirements in 34 CFR 75.253 would apply to any continuation awards sought by current NACTEP grantees; (2) we will make decisions regarding the continuation awards based on grantee program narratives, budgets and budget narratives, and program performance reports and the requirements in 34 CFR 75.253; and (3) we will not announce a new competition or make new awards in FY 2017.

The proposed waiver and project period extension would not exempt the current NACTEP grantees from the appropriation account closing provisions of 31 U.S.C. 1552(a), nor would they extend the availability of funds previously awarded to current NACTEP grantees. As a result of 31 U.S.C. 1552(a), appropriations available for a limited period may be used for payment of valid obligations for only five years after the expiration of their period of availability for Federal obligation. After that time, the unexpended balance of those funds is canceled and returned to the U.S. Department of the Treasury and is unavailable for restoration for any purpose (31 U.S.C. 1552(b)).

Regulatory Flexibility Act Certification

The Secretary certifies that the proposed waiver and extension and the activities required to support additional months of funding would not have a significant economic impact on a substantial number of small entities.

The small entities that would be affected by this proposed waiver and extension are the 30 currently funded NACTEP grantees and any other potential applicants. The Secretary certifies that the proposed waiver and extension would not have a significant economic impact on these entities because the extension of an existing project imposes minimal compliance costs, and the activities required to support the additional years of funding would not impose additional regulatory

burdens or require unnecessary Federal supervision.

Paperwork Reduction Act of 1995

This notice of proposed waiver and extension contains information collection requirements approved by OMB under control number 1830-0542; this proposed waiver and extension does not cause any changes to the approved OMB information collection.

Intergovernmental Review

The NACTEP is not subject to Executive Order 12372 and regulations in 34 CFR part 79.
