#### Public Notice for Waiver of Aeronautical Land-Use Assurance

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Notice of intent of waiver with respect to land; Flying Cloud Airport, Minneapolis, Minnesota.

**SUMMARY:** The FAA is considering a proposal to change 4.53 acres of airport land from aeronautical use to non-aeronautical use and to authorize the lease of airport property located at Flying Cloud Airport, Minneapolis, Minnesota. The aforementioned land is not needed for aeronautical use. The property is located northeast of the airport's Gate H and south of Pioneer Trail. This parcel has been vacant since the 1950's with drainage ditches on three sides. The proposed use of the property is to lease the parcel for development of commercial/retail space.

**DATES:** Comments must be received on or before May 31, 2017.

**ADDRESSES:** Documents are available for review by appointment at the FAA Dakota-Minnesota Airports District Office, Nancy Nistler, Program Manager, 6020 28th Avenue South, Suite 102, Minneapolis, MN 55450 Telephone: (612) 253-4638/Fax: (612) 253-4611.

*Written comments on the Sponsor's request must be delivered or mailed to:* Nancy Nistler, Program Manager, Federal Aviation Administration, Dakota-Minnesota Airports District Office, 6020 28th Avenue South, Suite 102, Minneapolis, MN 55450 Telephone: (612) 253-4638/Fax: (612) 253-4611.

Telephone: (612) 253-4638/Fax: (612) 253-4611.

**SUPPLEMENTARY INFORMATION:** In accordance with section 47107(h) of Title 49, United States Code, this notice is required to be published in the **Federal Register** 30 days before modifying the land-use assurance that requires the property to be used for an aeronautical purpose.

The property is currently vacant, unimproved land maintained for compatible land use surrounding the airfield. The property was acquired by the Metropolitan Airports Commission in 1957-1958. The southeastern portion was acquired through the use of federal funds and the northwestern portion was purchased without the use of federal funds. The proposed non-aeronautical land use would be for compatible commercial/retail development, allowing the airport to become more self-sustaining. The airport will receive fair market value for the lease of this property.

The disposition of proceeds from the lease of the airport property will be in accordance with FAA's Policy and Procedures Concerning the Use of Airport Revenue, published in the **Federal Register** on February 16, 1999 (64 FR 7696).

This notice announces that the FAA is considering the release of the subject airport property at the Flying Cloud Airport, Minneapolis, Minnesota from its obligations to be maintained for aeronautical purposes. Approval does not constitute a commitment by the FAA to financially assist in the change in use of the subject airport property nor a determination of eligibility for grant-in-aid funding from the FAA.

#### Airport Privatization Pilot Program: Preliminary Application for St. Louis Lambert International Airport, St. Louis, MO

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Notice of receipt and acceptance for review.

**SUMMARY:** The FAA has completed its review of the St. Louis Lambert International Airport (STL) preliminary application for participation in the Airport Privatization Pilot Program. The preliminary application is accepted for review, with a filing date of March 22, 2017. The City of St. Louis, the airport sponsor, may proceed with the necessary steps to select a private operator, negotiate an agreement and submit a final application to the FAA for exemption under the pilot program.

**FOR FURTHER INFORMATION CONTACT:** Kevin C. Willis, Director, Airport Compliance and Management Analysis,

ACO-1, Federal Aviation Administration, 800 Independence Avenue SW., Washington, DC 20591, telephone (202) 267-3085.

**SUPPLEMENTARY INFORMATION:**

**Background**

Title 49 U.S.C. 47134 establishes an airport privatization pilot program and authorizes the Department of Transportation to grant exemptions from certain Federal statutory and regulatory requirements for up to ten airport privatization projects. The application procedures require the FAA to publish a notice in the **Federal Register** after review of a preliminary application. The FAA must publish a notice of receipt of the final application in the **Federal Register** for public review and comment for a sixty-day period. The STL preliminary application is available for public review at <http://www.regulations.gov>. The docket number is FAA Docket No. 2017-0325.

Title 49 U.S.C. 47134 authorizes the Secretary of Transportation, and through delegation, the FAA Administrator, to exempt a sponsor of a public use airport that has received Federal assistance, from certain Federal requirements in connection with the privatization of the airport by sale or lease to a private party. Specifically, the Administrator may exempt the sponsor from all or part of the requirements to use airport revenues for airport-related purposes, to pay back a portion of Federal grants upon the sale or lease of an airport, and to return airport property deeded by the Federal Government upon transfer of the airport. The Administrator is also authorized to exempt the private purchaser or lessee from the requirement to use all airport revenues for airport-related purposes, to the extent necessary to permit the purchaser or lessee to earn compensation from the operations of the airport.

On September 16, 1997, the FAA issued a Notice of procedures to be used in applications for exemption under the Airport Privatization Pilot Program (62 FR 48693). A request for participation in the pilot program must be initiated by the filing of either a preliminary or final application for exemption with the FAA.

The City of St. Louis submitted a preliminary application to the FAA for St. Louis Lambert International Airport on March 22, 2017; the preliminary application is accepted for review, with the same filing date. The City may select a private operator, negotiate an agreement and submit a final application to the FAA for exemption.

If the FAA accepts the final application for review, the application will be made available for public review and comment for a 60-day period.

Issued in Washington, DC, on April 21, 2017.
