⁴ Our estimates are based on the NERC Compliance Registry of 12/12/2016, which indicates there are 323 entities registered as TOPs, 99 entities registered as BAs, and 11 entities registered as RCs within the United States. One entity may be registered as having several rules.

⁵ The hourly cost figures, for salary plus benefits, for the new standards are based on Bureau of Labor Statistics (BLS) information (at http://www.bls.gov/oes/current/naics2_22.htm), as of May 2015. For reporting requirements, an electrical engineer (code 17-2071) is \$64.29/hour; for the recordkeeping requirements, an information and record clerk (code 43-4199) is \$37.75/hour.

⁶ The reporting and recordkeeping requirements and the associated burden will continue in TOP-001-4 (formerly included in TOP-001-3, which is now being retired). The corresponding estimated burden for the 196 TOPs and BAs continues to be 96 hours per response (or a total estimated burden of 18,816 hours).

⁷ Requirement R21 (applicable to TOPs in ongoing yrs.) covers quarterly testing and associated reporting and recordkeeping requirements. Requirement R24 (applicable to BAs in ongoing yrs.) covers quarterly testing and associated engineering and recordkeeping requirements.

⁸ The reporting and recordkeeping requirements and the associated burden will continue in IRO-002-5 (burden formerly included in IRO-002-4, which is being retired). The corresponding estimated burden for the 11 RCs continues to be 24 hours per response (or a total estimated burden of 264 hours).

⁹ Requirement R3 (applicable to RCs in ongoing yrs.) covers quarterly testing and associated reporting and recordkeeping requirements.

SUPPLEMENTARY INFORMATION:

Title: FERC-523, Application for Authorization for the Issuance of Securities or the Assumption of Liabilities.

OMB Control No.: 1902-0043.

Type of Request: Three-year approval of the FERC-523 information collection requirements with no changes to the current reporting requirements.

Abstract: The information collected by FERC-523 is required to implement the statutory provisions of section 204 of the Federal Power Act (FPA) (16 U.S.C. 824c). Under section 204 of the FPA no public utility or licensee shall issue any security, or assume any obligation or liability as guarantor, endorser, surety, or otherwise in respect of any security of another person, until the public utility applies for and receives Commission approval by order authorizing the issue or assumption of the liability. The Commission issues an order if it finds that such issue or assumption (a) is for lawful object, within the corporate purposes of the applicant and compatible with the public interest, which is necessary or appropriate for or consistent with the proper performance by the applicant as a public utility, and which will not impair its ability to perform that service, and (b) is reasonably necessary or appropriate for such purposes.

The Commission uses the information contained in filings to determine its acceptance and/or rejection of applications for authorization to either issue securities or to assume an obligation or liability by the public utilities and their licensees who submit these applications.

The specific application requirements and filing format are found at 18 CFR Part 34; and 18 CFR 131.43 and 131.50. This information is filed electronically.

Type of Respondents: Public utilities subject to the Federal Power Act.

*Estimate of Annual Burden:*¹ The Commission estimates the reduction in the annual public reporting burden for the FERC-523, as follows:

¹ Burden is defined as the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. For further explanation of what is included in the information collection burden, refer to 5 Code of Federal Regulations 1320.3.
