

o. A copy of the application is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC

Online Support. A copy is also available for inspection and reproduction at Riverdale Power's office at 130 Riverdale Street, Northbridge, MA 01534.

You may also register online at <http://www.ferc.gov/docs-filing/esubscription.asp> to be notified via email of new filings and issuances

related to this or other pending projects. For assistance, contact FERC Online Support.

p. Procedural schedule and final amendments: The application will be processed according to the following preliminary Hydro Licensing Schedule. Revisions to the schedule will be made as appropriate.

Issue Deficiency Letter (if necessary)	July 2017.
Request Additional Information	July 2017.
Issue Acceptance Letter	October 2017.
Issue Scoping Document 1 for comments	October 2017.
Request Additional Information (if necessary)	December 2017.
Issue Scoping Document 2	December 2017.
Issue notice of ready for environmental analysis	March 2018.
Commission issues EA or draft EA	September 2018.
Comments on EA or draft EA	October 2018.
Commission issues final EA	January 2019.

Final amendments to the application must be filed with the Commission no later than 30 days from the issuance date of the notice of ready for environmental analysis.

Dated: May 2, 2017.

Kimberly D. Bose,
Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP17-15-000]

Dominion Cove Point LNG, LP; Notice of Schedule for Environmental Review of the Eastern Market Access Project

On November 15, 2016, Dominion Cove Point LNG, LP (Dominion) filed an application in Docket No. CP17-15-000 requesting a Certificate of Public Convenience and Necessity pursuant to section 7(c) of the Natural Gas Act to construct and operate certain natural gas pipeline facilities. DCP's proposed Eastern Market Access Project (Project) in Maryland and Virginia would transport about 294 million cubic feet per day of firm natural gas service to Washington Gas Light Company and provide fuel to Mattawoman Energy, LLC's Mattawoman Energy Center (power generation facility).

On November 30, 2016, the Federal Energy Regulatory Commission (FERC or Commission) issued its Notice of Application for the Project. Among other things, that notice alerted other agencies issuing federal authorizations of the requirement to complete all necessary reviews and to reach a final decision on the request for a federal authorization within 90 days of the date

of issuance of the Commission staff's Environmental Assessment (EA) for the Project. This instant notice identifies the FERC staff's planned schedule for completion of the EA for the Project.

Schedule for Environmental Review

Issuance of the EA June 27, 2017
90-day Federal Authorization Decision
Deadline September 25, 2017

If a schedule change becomes necessary, additional notice will be provided so that the relevant agencies are kept informed of the Project's progress.

Project Description

The Eastern Market Access Project consists of a new 24,370 horsepower (hp) compressor station and installation of two new taps at an existing Washington Gas Light Company Interconnect in Charles County, Maryland; one new 7,000 hp electric-driven compressor and replacement of three existing gas coolers and compression cylinders at the existing Loudoun County Compressor Station, and a new meter building to enclose existing equipment at the Loudoun Meter & Regulating Station in Loudoun County, Virginia; and re-wheeling of the compressor on a 17,400 hp electric unit and upgrading two gas coolers at the Pleasant Valley Compressor Station in Fairfax County, Virginia.

Background

On February 15, 2017, the Commission issued a *Notice of Intent to Prepare an Environmental Assessment for the Proposed Eastern Market Access Project, Request for Comments on Environmental Issues, and Notice of Public Scoping Session* (NOI). The NOI was sent to affected landowners; federal, state, and local government agencies; elected officials; environmental and

public interest groups; Native American tribes; local libraries and newspapers; and other interested parties. In response to the Notice of Application and the NOI, the Commission received 336 comments, including comments from 2 federal agencies, 4 local agencies, 4 state agencies, 3 non-governmental agencies, 14 companies (including 6 chambers of commerce), and 328 individuals. The primary issues raised during scoping include impacts on: Drinking water supplies, surface waterbodies, and wetlands; forested areas and wildlife; surrounding land use; visual resources; historic properties and Native American tribes; air quality and noise; and public safety.

Additional Information

In order to receive notification of the issuance of the EA and to keep track of all formal issuances and submittals in specific dockets, the Commission offers a free service called eSubscription. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to www.ferc.gov/docs-filing/esubscription.asp.

Additional information about the Project is available from the Commission's Office of External Affairs at (866) 208-FERC or on the FERC Web site (www.ferc.gov). Using the eLibrary link, select General Search from the eLibrary menu, enter the selected date range and "Docket Number" excluding the last three digits (*i.e.*, CP17-15), and follow the instructions. For assistance with access to eLibrary, the helpline can be reached at (866) 208-3676, TTY (202) 502-8659, or at FERCOnlineSupport@ferc.gov. The eLibrary link on the FERC Web site also

provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rule makings.

Dated: May 2, 2017.

Kimberly D. Bose,
Secretary.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OPP-2015-0393; FRL-9958-71]

Registration Review Draft Risk Assessments for Linuron and Several Pyrethroids; Re-opening of Comment Period

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; re-opening of comment period.

SUMMARY: In the *Federal Register* of November 29, 2016, EPA announced the availability of and solicited public comment on the registration review draft risk assessments for a number of pesticide chemicals, including several pyrethroid insecticides listed in Table 1 of Unit II. and the herbicide linuron listed in Table 2 of Unit II. This document re-opens the comment period on the ecological risk assessment for the pyrethroid chemicals for 60 days; and re-opens the comment period on the human health and ecological risk assessments for the chemical linuron for 30 days. EPA is re-opening these comment periods in response to a number of extension requests received from various stakeholders who have cited reasons including the difficulty of commenting due to the length, quantity,

and complexity of the assessments for these particular chemicals, in addition to resource and time constraints.

DATES: Comments must be received on or before July 7, 2017 for the ecological risk assessment for the pyrethroid chemicals listed in Table 1 of Unit II.; and on or before June 7, 2017 for the human health and ecological risk assessments for the chemical linuron listed in Table 2 of Unit II.

ADDRESSES: Submit your comments, identified by the relevant chemical-specific docket identification (ID) number(s) from Table 1 and Table 2 of Unit II., using the Federal eRulemaking Portal at <http://www.regulations.gov>. Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. See also the detailed instructions provided under **ADDRESSES** in the *Federal Register* document of November 29, 2016 (81 FR 85952) (FRL-9953-53).

FOR FURTHER INFORMATION CONTACT: For pesticide specific information contact: The Chemical Review Manager for the pesticide of interest identified in Tables of Unit II. For questions about the pyrethroid chemicals contact: Garland Waleko, Re-Evaluation Division (7508P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460-0001; telephone number: (703) 308-8049; email address: waleko.garland@epa.gov. For questions about linuron contact: Katherine St. Clair, Re-Evaluation Division (7508P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington,

DC 20460-0001; telephone number: (703) 347-8778; email address: stclair.katherine@epa.gov.

SUPPLEMENTARY INFORMATION:

I. What is the EPA Authority for this action?

EPA is conducting its registration review of these chemicals pursuant to section 3(g) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Procedural Regulations for Registration Review at 40 CFR part 155, subpart C.

II. What action is the Agency taking?

This document re-opens the public comment periods established for linuron and several pyrethroids in the *Federal Register* document of November 29, 2016 (81 FR 85952) (FRL-9953-53). In that *Federal Register* document, EPA announced the availability of and sought public comment on the registration review draft risk assessments for a number of pesticide chemicals, including several pyrethroids and linuron. The comment period closed on January 30, 2017. For the pyrethroid chemicals listed in Table 1, EPA is hereby re-opening the comment period on the ecological risk assessment for 60 days, until July 7, 2017. For the chemical linuron listed in Table 2, EPA is hereby re-opening the comment period on the human health and ecological risk assessments for 30 days, until June 7, 2017. EPA is taking these actions in response to a number of extension requests received from various stakeholders who have cited reasons including the difficulty of commenting due to the length, quantity, and complexity of the assessments for these particular chemicals.
