Appendix I

Scope of the Investigations

The scope of these investigations covers certain metal tool chests and tool cabinets, with drawers, (tool chests and cabinets), from the People's Republic of China (the PRC) and the Socialist Republic of Vietnam (Vietnam). The scope covers all metal tool chests and cabinets, including top chests, intermediate chests, tool cabinets and side cabinets, storage units, mobile work benches, and work stations and that have the following physical characteristics:

- (1) A body made of carbon, alloy, or stainless steel and/or other metals;
- (2) two or more drawers for storage in each individual unit;
- (3) a width (side to side) exceeding 15 inches for side cabinets and exceeding 21 inches for all other individual units but not exceeding 60 inches;
- (4) a drawer depth (front to back) exceeding 10 inches but not exceeding 24 inches; and
- (5) prepackaged for retail sale.

For purposes of this scope, the width parameter applies to each individual unit, *i.e.*, each individual top chest, intermediate top chest, tool cabinet, side cabinet, storage unit, mobile work bench, and work station.

Prepackaged for retail sale means the units are packaged in a cardboard box or other container suitable for retail display and sale. Subject tool chests and cabinets are covered whether imported in assembled or unassembled form. Subject merchandise includes tool chests and cabinets produced in the PRC or Vietnam but assembled, prepackaged for sale, or subject to other minor processing in a third country prior to importation into the United States. Similarly, it would include tool chests and cabinets produced in the PRC or Vietnam that are later found to be assembled, prepackaged for sale, or subject to other minor processing after importation into the United States.

Subject tool chests and cabinets may also have doors and shelves in addition to drawers, may have handles (typically mounted on the sides), and may have a work surface on the top. Subject tool chests and cabinets may be uncoated (*e.g.*, stainless steel), painted, powder coated, galvanized, or otherwise coated for corrosion protection or aesthetic appearance.

Subject tool chests and cabinets may be packaged as individual units or in sets. When packaged in sets, they typically include a cabinet with one or more chests that stack on top of the cabinet. Tool cabinets act as a base tool storage unit and typically have rollers, casters, or wheels to permit them to be moved more easily when loaded with tools. Work stations and work benches are tool cabinets with a work surface on the top that may be made of rubber, plastic, metal, wood, or other materials.

Top chests are designed to be used with a tool cabinet to form a tool storage unit. The top chests may be mounted on top of the base tool cabinet or onto an intermediate chest. They are often packaged as a set with tool cabinets or intermediate chests, but may also be packaged separately. They may be packaged with mounting hardware (*e.g.*, bolts) and instructions for assembling them onto the base tool cabinet or onto an intermediate tool chest which rests on the base tool cabinet. Smaller top chests typically have handles on the sides, while the larger top chests typically lack handles.

Intermediate tool chests are designed to fit on top of the floor standing tool cabinet and to be used underneath the top tool chest.

Although they may be packaged or used separately from the tool cabinet, intermediate chests are designed to be used in conjunction with tool cabinets. The intermediate chests typically do not have handles. The intermediate and top chests may have the capability of being bolted together.

Side cabinets are designed to be bolted or otherwise attached to the side of the base storage cabinet to expand the storage capacity of the base tool cabinet.

Subject tool chests and cabinets also may be packaged with a tool set included. Packaging a subject tool chest and cabinet with a tool set does not remove an otherwise covered subject tool chest and cabinet from the scope. When this occurs the tools are not part of the subject merchandise.

Excluded from the scope of the investigations are tool boxes, chests and cabinets with bodies made of plastic, carbon fiber, wood, or other non-metallic substances. Also excluded from the scope of the investigations are portable metal tool boxes. Portable metal tool boxes have each of the following characteristics: (1) Fewer than three drawers; (2) a handle on the top that allows the tool box to be carried by hand; and (3) a width that is 21 inches or less; and depth (front to back) not exceeding 10 inches.

Also excluded from the scope of the investigations are industrial grade steel tool chests and cabinets. The excluded industrial grade steel tool chests and cabinets are those:

- (1) Having a body that is over 60 inches wide; or
- (2) having each of the following physical characteristics:
 - (a) A body made of steel that is 0.055" or more in thickness;
 - (b) all drawers over 21" deep;
 - (c) all drawer slides rated for 200 lbs. or more; and
 - (d) not prepackaged for retail sale.

Also excluded from the scope of the investigations are work benches with fewer than two drawers. Excluded work benches have a solid top working surface, fewer than two drawers, are supported by legs and have no solid front, side, or back panels enclosing the body of the unit.

Also excluded from the scope of the investigations are metal filing cabinets that are configured to hold hanging file folders and are classified in the Harmonized Tariff Schedule of the United States (HTSUS) at subheading 9403.10.0020.

Merchandise subject to the investigations is classified under HTSUS categories

9403.20.0021, 9403.20.0026, 9403.20.0030 and 7326.90.8688, but may also be classified under HTSUS category 7326.90.3500. While HTSUS subheadings are provided for convenience and Customs purposes, the written description of the scope of these investigations is dispositive.

SUPPLEMENTARY INFORMATION:

Background: On October 30, 2015, the Department published in the **Federal Register** the Program Integrity and Improvement final regulations (80 FR 67125). These final regulations contained provisions governing cash management, including the establishment of new rules regarding financial accounts marketed to students receiving title IV program funds under the Higher Education Act of 1965, as

amended (HEA). The final regulations were intended to ensure that students have convenient access to their title IV, HEA program funds, do not incur unreasonable and uncommon financial account fees on their title IV, HEA program funds, and are not led to believe they must open a particular financial account to receive their Federal student aid.

As part of the Secretary's effort to ensure that title IV recipients are informed but not misinformed about the terms of financial accounts offered to them through their institution, § 668.164(d)(4)(i)(B)(2) requires that prior to the student opening an account offered by a financial account provider, institutions list and identify the major features and commonly assessed fees associated with each financial account offered under a T1 or T2 arrangement, as well as the URL where the complete terms and conditions of each account may be obtained. The regulations do not require institutions to adopt the Secretary's format for this information once it is published in the **Federal Register**, but it does state that institutions that do meet the format, content, and update requirements in the Secretary's format will be deemed in compliance with the requirements of the regulations, with respect to the major features and assessed fees associated with the account offered pursuant to the T1 or T2 arrangement.

If an institution chooses to use its own format to comply with the disclosure requirements in § 668.164(d)(4)(i)(B)(2), or a format provided by its financial account provider, the institution must list the major features, commonly assessed fees, and the URL where the terms and conditions of each account may be obtained.

In the preamble of the final regulations, we committed to work with the Consumer Financial Protection Bureau (CFPB) to ensure that the disclosures required under § 668.164(d)(4)(i)(B)(2) do not conflict with theirs. We also assured stakeholders that, to the maximum extent possible, the disclosures would be as similar as possible to the CFPB's requirements to mitigate confusion and

administrative burden. We believe that the proposed format described below meets those goals.

Request for Information

After consultation with the CFPB, the Secretary seeks feedback from the public regarding the proposed format, content, and update requirements for the disclosures. We propose that, in cases where the account provided is a prepaid account, as addressed in the CFPB's notice of final rule and official interpretations for Prepaid Accounts under the Electronic Fund Transfer Act (Regulation E) and the Truth in Lending Act (Regulation Z) (81 FR 83934), each institution's financial account provider can include, in the student choice menu described in § 668.164(d)(4)(i), the CFPB's appropriate short-form disclosure as described in 81 FR 83934. If an institution offering a prepaid card under its T1 or T2 arrangement meets the disclosure requirements established by the CFPB in 81 FR 83934, it would be in compliance with § 668.164(d)(4)(i)(2) of the cash management final regulations. However, because § 668.164(d)(4)(i)(A)(1) requires that institutions disclose in writing that students do not need to use a particular account to receive their Federal student aid, institutions using the CFPB disclosure template must also display a message, along with the disclosure, stating that students do not need to use the prepaid account to receive Federal student aid. We also recommend including, along with the message, a note that directs students to ask about other ways to receive their Federal student aid. We remind institutions that the CFPB's short-form template was not drafted to implement the Department's cash management regulations; accordingly, institutions using that template should not regard it as authorizing T1 or T2 arrangements that feature imposition of any fees otherwise prohibited under § 668.164(e) or (f), as applicable.

For institutions whose financial account provider either does not offer a prepaid account or chooses not to use the CFPB's short-form disclosure template, we propose the following format:

You do not need this account to receive your Federal student aid.
Ask the financial aid office about other ways to receive your money.

Monthly fee	Per purchase	ATM withdrawal	Cash reload
\$0	\$0	\$0 in-network \$1.95* out-of-network	N/A
ATM balance inquiry (in-network or out-of-network)			\$0 or \$1.95*
Customer service (automated or live agent)			\$0 or \$1.95 per call
Inactivity			\$0
The financial institution offering this account charges # other types of fees.			
Here are some of them:			
[Additional fee type]			\$1.00*
[Additional fee type]			\$3.00

* This fee can be lower depending on how and where this card is used.

You may be offered overdraft features. Fees could apply. *OR* No overdraft/credit feature.

Your funds are/are not eligible for FDIC or NCUA insurance.

Find details and conditions for all fees and services in the terms and conditions of the account [\[link\]](#).

We propose that institutions choosing to use this form would be required to comply with the following instructions:

- The institution's disclosure must list the following fees: Periodic fees, per purchase fees (including point-of-sale fees), ATM withdrawal fees, cash reload fees, ATM balance inquiry fees, customer service fees, and inactivity fees. These fees are referred to as "static fees" because all institutions using the Secretary's format must list these fees on the disclosure, even if the amount of the fee is zero or the fee relates to a feature that is not offered as part of the specific account. In cases where the amount of any fee could vary, the disclosure must show the highest amount the account provider may charge for that fee, followed by a symbol, such as an asterisk, linked to a statement explaining that the fee could be lower depending on how and where the account is used. The asterisk would be included, for example, if point-of-sale fees differ depending on whether the cardholder is required to provide a PIN or signature. In cases where a static fee is not imposed, the institution may

demonstrate that the fee is not applicable by placing "N/A" or an equivalent designation in the appropriate field.

- The disclosure must include the number of fee types the accountholder may be charged under the specific account program, excluding those fees that are either disclosed on the form or in close proximity as described below.
- The disclosure must also list the two additional fee types, if any, that generated the highest revenue from accountholders during the previous 24 months excluding static fees, any purchase price, any activation fees, and any fee types that generated less than five percent of the total revenue from accountholders, as well as the amounts of such additional fees. The two additional fee types would be determined for the specific financial account program or across programs with the same fee schedule. Institutions must ensure that the financial account provider reviews their fee revenue periodically and that they assist the institution in updating the disclosure if needed.

- The disclosure must include statements regarding linked overdraft credit features, Federal Deposit Insurance Corporation/National Credit Union Administration insurance, and a link to the terms and conditions of the account.
- The disclosure must include a written statement that students do not have to accept the T1 or T2 account and may recommend that students ask about other ways to receive their Federal student aid.
- In close proximity to the disclosure, though not necessarily within the disclosure itself, the institution must disclose the financial account provider's name, the name of the account, for T2 accounts any purchase price for the account (such as a fee for acquiring an access device or a replacement for an access device), and any fee for activating the account. If the financial account is a T1 account, the institution must also use this space to disclose that a student accountholder may access his or her title IV, HEA program funds in part and in full up to the account balance via domestic withdrawals and transfers free

of charge, during the student's entire period of enrollment following the date that such title IV, HEA program funds are deposited or transferred to the financial account, as required under § 668.164(e)(2)(v)(C). We also remind institutions that any account that falls under the definition of a T1 account may not charge fees for opening or activating the financial account or initially receiving or activating an access device, nor for overdrafts or fees assessed on point-of-sale transactions.

We request assistance from the community in evaluating the effectiveness of the proposed format, content, and update requirements. Specifically, the Secretary requests information on whether—

1. We have included all relevant fee information in the disclosures;
2. The disclosures would be inappropriate for a particular type of account;
3. Simply placing a "\$0" or "N/A" in a place where no fee is charged would suffice to convey all of the necessary information;
4. There is a preferred start date for the requirement to include the two additional fee types that generated the highest revenue from accountholders during the previous 24 months;
5. Any conflict exists regarding other regulatory requirements, particularly with the proposal to allow institutions to use the CFPB disclosures described in 81 FR 83934 for this purpose;
6. Students may find the disclosures confusing or unhelpful and, if so, whether the commenter can suggest specific alternatives;
7. There are any other potential problems with including this format within the student choice menu to satisfy the requirements in § 668.164(d)(4)(i)(B)(2); or
8. Opportunities exist to further streamline the format of the template to reduce administrative burden.
