

Note: The yarn size designations describe a range of yarn specifications for yarn before knitting, dyeing and finishing of the fabric. They are intended as specifications to be followed by the mill in sourcing yarn used to produce the fabric. Dyeing, finishing and knitting can alter the characteristic of the yarn as it appears in the finished fabric. This specification therefore includes yarn sizes provided that the variation occurs after processing of the greige yarn and production of the fabric. The specifications for the fabric apply to the fabric itself prior to cutting and sewing of the finished garment. Such processing may alter the measurements.

Meeting Accessibility: Pursuant to 5 U.S.C. 552b, as amended, and 41 Code of Federal Regulations (CFR) 102-3.140 through 102-3.165, and the availability of space, this meeting is open to the public. Seating is limited and will be provided only to the first 220 people signing-in. All persons must sign-in legibly.

Written Statements: Pursuant to 41 CFR 102-3.140, the public or interested organizations may submit written statements to the membership of the Panel at any time or in response to the stated agenda of a planned meeting. Written statements should be submitted to the Panel's Designated Federal Officer (DFO). The DFO's contact information can be obtained from the General Services Administration's Federal Advisory Committee Act Database at <http://facadatabase.gov/>. Written statements that do not pertain to the scheduled meeting of the Panel may be submitted at any time. However, if individual comments pertain to a specific topic being discussed at a planned meeting, then these statements must be submitted no later than 5 business days prior to the meeting in question. The DFO will review all submitted written statements and provide copies to all the committee members.

Public Comments: In addition to written statements, the Panel will set aside 1 hour for individuals or interested groups to address the Panel. To ensure consideration of their comments, individuals and interested groups should submit written statements as outlined in this notice; but if they still want to address the Panel, then they will be afforded the opportunity to register to address the Panel. The Panel's DFO will have a "Sign-Up Roster" available at the Panel meeting for registration on a first-come, first-serve basis. Those wishing to

address the Panel will be given no more than 5 minutes to present their comments, and at the end of the 1-hour time period, no further public comments will be accepted. Anyone who signs-up to address the Panel, but is unable to do so due to the time limitation, may submit their comments in writing; however, they must understand that their written comments may not be reviewed prior to the Panel's deliberation. To ensure timeliness of comments for the official record, the Panel encourages that individuals and interested groups consider submitting written statements instead of addressing the Panel.

Dated: May 5, 2017.

Aaron Siegel,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; Air Pollution Regulations for Outer Continental Shelf (OCS) Activities

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), "Air Pollution Regulations for Outer Continental Shelf (OCS) Activities" to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR. Public comments were previously requested via the **Federal Register** on May 29, 2015, during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before June 9, 2017.

ADDRESSES: Submit your comments, referencing Docket ID No. EPA-HQ-OAR-2011-0724, to (1) the EPA online using <http://www.regulations.gov> (our

preferred method), by email to a-and-r-docket@epa.gov or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW., Washington, DC 20460, and (2) OMB via email to oir-submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

The EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

Abstract: Section 328 of the Clean Air Act gives EPA responsibility for regulating air pollution from outer continental shelf (OCS) sources located offshore of the states along the Pacific and Atlantic Coasts, and along the eastern Gulf of Mexico coast (off the coast of Florida). In general, these OCS sources must obtain preconstruction permits (usually Prevention of Significant Deterioration or "PSD" permits) and title V operating permits, and then maintain ongoing compliance with their permit conditions. Industry respondents include owners or operators of existing and new or modified OCS sources. These respondents must prepare permit applications and, after receiving their permits, conduct testing, monitoring, recordkeeping and reporting as required by their permits. The recordkeeping and reporting requirements are necessary so that the EPA can determine whether these sources are meeting all the requirements that apply to them. The EPA has delegated the authority to

implement and enforce the OCS regulations for sources located off the coast of California to four local air pollution control agencies, and for sources located off a portion of the Atlantic Coast to three state agencies. These agency respondents must review sources' permit applications and reports, issue permits, observe performance tests and conduct inspections to ensure that the sources are meeting all the requirements that apply to them. Section 176(c) of the Clean Air Act (42 U.S.C. 7401 *et seq.*) requires that all federal actions conform with the State Implementation Plans (SIPs) to attain and maintain the NAAQS. Depending on the type of action, the federal entities must collect information themselves, hire consultants to collect the information or require applicants/sponsors of the federal action to provide the information.

The type and quantity of information required will depend on the circumstances surrounding the action. First, the entity must make an applicability determination. If the source is located within 25 miles of the state's seaward boundary as established in the regulations, the requirements are the same as those that would be applicable if the source were located in the corresponding onshore area. State and local air pollution control agencies are usually requested to provide information concerning regulation of offshore sources and are provided opportunities to comment on the proposed determinations. The public is also provided an opportunity to comment on the proposed determinations.

Form numbers: None.

Respondents/affected entities: Entities potentially affected by this action are those which must apply for and obtain a permit pursuant the OCS permit program. In addition, state and local agencies that have been delegated authority to implement and enforce the OCS permit program, which must review permit applications and issue permits, are affected entities.

Respondent's obligation to respond: Mandatory (see 40 CFR part 55).

Estimated number of respondents: 37 industrial facilities and 5 state and local permitting agencies.

Frequency of response: On occasion, as necessary.

Total estimated burden: 27,018 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$2,365,385 (per year). This includes \$30,816 annually in Operation and Maintenance costs.

Changes in estimates: There is a decrease of 1,156 hours in the total estimated respondent burden compared with the ICR most recently approved by OMB. This decrease is primarily due to a decrease in the projected number of OCS sources subject to the program.

Courtney Kerwin,

Director, Regulatory Support Division.

Cross-Media Electronic Reporting: Authorized Program Revision Approval, State of Colorado

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's approval of the State of Colorado's request to revise certain of its EPA-authorized programs to allow electronic reporting.

DATES: EPA's approval is effective June 9, 2017 for the State of Colorado's National Primary Drinking Water Regulations Implementation program, if no timely request for a public hearing is received and accepted by the Agency, and on May 10, 2017 for the State of Colorado's other authorized programs.

FOR FURTHER INFORMATION CONTACT: Karen Seeh, U.S. Environmental Protection Agency, Office of Environmental Information, Mail Stop 2823T, 1200 Pennsylvania Avenue NW., Washington, DC 20460, (202) 566-1175, seeh.karen@epa.gov.

SUPPLEMENTARY INFORMATION: On October 13, 2005, the final Cross-Media Electronic Reporting Rule (CROMERR) was published in the **Federal Register** (70 FR 59848) and codified as part 3 of title 40 of the CFR. CROMERR establishes electronic reporting as an acceptable regulatory alternative to paper reporting and establishes requirements to assure that electronic documents are as legally dependable as their paper counterparts. Subpart D of CROMERR requires that state, tribal or local government agencies that receive, or wish to begin receiving, electronic reports under their EPA-authorized programs must apply to EPA for a revision of those programs and obtain EPA approval. Subpart D provides standards for such approvals based on consideration of the electronic document receiving systems that the state, tribe, or local government will use
