SECURITIES AND EXCHANGE COMMISSION

Proposed Collection; Comment Request

Upon Written Request, Copies Available From: Securities and Exchange

Commission, Office of FOIA Services, 100 F Street NE., Washington, DC 20549-0213.

Extension:

Rule 611, SEC File No. 270-540, OMB Control No. 3235-0600.

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 ("PRA") (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission ("Commission") is soliciting comments on the existing collection of information provided for in Rule 611 (17 CFR 242.611). The Commission plans to submit this existing collection of information to the Office of Management and Budget ("OMB") for extension and approval.

- Rule 611 (17 CFR 242.611)—Order Protection Rule

On June 9, 2005, effective August 29, 2005 (*see* 70 FR 37496, June 29, 2005), the Commission adopted Rule 611 of Regulation NMS under the Securities Exchange Act of 1934 (15 U.S.C. 78a *et seq.*) to require any national securities exchange, national securities association, alternative trading system, exchange market maker, over-the-counter market maker, and any other broker-dealer that executes orders internally by trading as principal or crossing orders as agent, to establish, maintain, and enforce written policies and procedures reasonably designed to prevent the execution of a transaction in its market at a price that is inferior to a bid or offer displayed in another market at the time of execution (a "trade-through"), absent an applicable exception and, if relying on an exception, that are reasonably designed to assure compliance with the terms of the exception. Without this collection of information, respondents would not have a means to enforce compliance with the Commission's intention to prevent trade-throughs pursuant to the rule.

There are approximately 304 respondents¹ per year that will require an aggregate total of 18,240 hours to comply with this rule. It is anticipated that each respondent will continue to expend approximately 60 hours annually: Two hours per month of internal legal time and three hours per month of internal compliance time to ensure that its written policies and procedures are up-to-date and remain in

¹ This estimate includes twelve national securities exchanges and one national securities association that trade NMS stocks. The estimate also includes the approximately 255 firms that were registered equity market makers or specialists at year-end 2015, as well as 36 alternative trading systems that operate trading systems that trade NMS stocks.

compliance with Rule 611. The estimated cost for an in-house attorney is \$396 per hour and the estimated cost for an assistant compliance director in the securities industry is \$349 per hour. Therefore the estimated total cost of compliance for the annual hour burden is as follows: [(2 legal hours × 12 months × \$396) × 304] + [(3 compliance hours × 12 months × \$349) × 304] = \$6,708,672.²

Written comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's estimates of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted in writing within 60 days of this publication.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information under the PRA unless it displays a currently valid OMB control number.

Please direct your written comments to: Thomas Bayer, Director/Chief Information Officer, Securities and Exchange Commission, c/o Remi Pavlik-Simon, 100 F Street NE., Washington, DC 20549, or send an email to: PRA_Mailbox@sec.gov.

Dated: May 8, 2017.

Assistant Secretary.

² The total cost of compliance for the annual hour burden has been revised to reflect updated estimated cost figures for an in-house attorney and an assistant compliance director. These figures are from SIFMA's *Management & Professional Earnings in the Securities Industry 2017*, modified by Commission staff to account for an 1800-hour work-year and multiplied by 5.35 to account for bonuses, firm size, employee benefits, and overhead.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-80613; File No. SR-ISE-2017-37]

Self-Regulatory Organizations; Nasdaq ISE, LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change Relating to Complex Order Quoting

May 5, 2017.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on April 26, 2017, Nasdaq ISE, LLC ("ISE" or "Exchange") filed with the Securities and Exchange Commission ("SEC" or "Commission") the proposed rule change as described in Items I and II, below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to designate that a symbol will not be eligible for Market Maker quotes in the complex order book after the symbol migrates to Nasdaq INET technology. In addition, that symbol will trade in price/time priority.

The text of the proposed rule change is available on the Exchange's Web site at www.ise.com, at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

¹ 15 U.S.C. 78s(b)(1).

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

Today, ISE permits Market Makers to enter quotes on certain symbols for complex strategies on the complex order book in their appointed options classes. Market Maker quotes for complex strategies are not automatically executed against bids and offers on the Exchange for the individual legs nor can they be marked for price improvement.³ Market Makers are not required to enter quotes on the Exchange's complex order book. Quotes for complex orders are not subject to any quotation requirements that are applicable to Market Maker quotes in the regular market for individual options series or classes, nor is any volume executed in complex orders taken into consideration when determining whether Market Makers are meeting quotation obligations applicable to market maker quotes in the regular market for individual options series.

The Exchange proposes to designate that a symbol will not be eligible for Market Maker quotes in the complex order book after the symbol migrates to the INET platform. Specifically, the Exchange filed a proposal to begin the system migration to Nasdaq INET in Q2 of 2017.⁴ The migration to INET will be on a symbol by symbol basis as specified by the Exchange in a notice to Members.⁵ The Exchange is proposing to implement this rule change on the INET platform as the symbols migrate to that platform. Once a symbol moves to INET no complex quoting⁶ will be available for that symbol and the symbol will be allocated in price/time priority.

INET is the proprietary core technology utilized across Nasdaq's global markets and utilized on The NASDAQ Options Market LLC ("NOM"), NASDAQ PHLX LLC ("Phlx") and NASDAQ BX, Inc. ("BX") (collectively, "Nasdaq Exchanges"). The migration of ISE to the Nasdaq INET architecture would result in higher performance, scalability, and more robust architecture. With this system

⁵ The Exchange will issue an Options Trader Alert prior to the migration and will specify the dates that symbols will migrate to the INET platform.

⁶ The Exchange notes that Phlx does not offer complex order quoting functionality.
