The MRTS and MARTS are related collections sharing the same initial sampling frame and jointly collect data that are published in conjunction with each other. These two surveys, currently cleared separately under control numbers 0607-0717 and 0607-0104, respectively, will therefore be combined under one control number and will be collectively called the Monthly Retail Surveys (MRS).

The MRS are administered monthly to a sample of employer firms (*i.e.*, businesses with paid employees) with establishments located in the United States and classified in retail trade and/or food services sectors as defined by the North American Industry Classification System (NAICS).

The MRTS provides estimates of monthly retail sales, end-of-month merchandise inventories, and quarterly e-commerce sales of retailers in the United States. In addition, the survey also provides an estimate of monthly sales at food service establishments and drinking places.

Sales, inventories, and e-commerce data provide a current statistical picture of the retail portion of consumer activity. The sales and inventories
