These surveys are made mandatory under the provisions of sections 224 and 225 of title 13, United States Code. These surveys will provide continuing and timely national statistical data for the period between economic censuses. The data collected in the surveys will be within the general scope and nature of those inquiries covered in the economic census. The next economic census will be conducted in 2018 for the reference year 2017.

Annual Retail Trade Survey

These data serve as a benchmark for the more frequent estimates compiled from the Monthly Retail Trade Survey. A new sample will be introduced for the collection of data covering the 2016 reference year.

Annual Wholesale Trade Survey

The Annual Wholesale Trade Survey collects data on annual sales, e-commerce sales, year-end inventories held both inside and outside of the United States, method of inventory valuation, total operating expenses, purchases, gross selling value, and commissions from a sample of employer firms with establishments classified in wholesale trade as defined by the North American Industry Classification System (NAICS). These data serve as a benchmark for the more frequent estimates compiled from the Monthly Wholesale Trade Survey. A new sample will be introduced for the collection of data covering the 2016 reference year.
