DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Consent Decree Under the Clean Water Act, Clean Air Act and Resource Conservation and Recovery Act

On May 12, 2017, the Department of Justice lodged a proposed consent decree with the United States District Court for the District of Puerto Rico in the lawsuit entitled *United States v. Homeca Recycling Center Co., Inc.*, Civil No.: 17-1618. The United States filed this lawsuit under the Clean Air Act, the Clean Water Act and the Resource Conservation and Recovery Act.

Homeca Recycling Center Co., Inc. (“Homeca”) operates three scrap metal recycling facilities in Caguas, Playa Ponce, and Hormigueros, Puerto Rico. At these facilities it crushes vehicles and white goods for shipment to metal refineries. The complaint alleges that Homeca violated the above statutes by, among other things: (a) Allowing liquids from the vehicles to leak onto and contaminate the bare ground; (b) allowing these liquids to flow off-site and into United States waters during storm events; and (c) improperly managing motor vehicle air conditioner (“MVAC”) refrigerants. The complaint seeks civil penalties for these past violations.

The proposed settlement requires Homeca to pay a \$50,000 civil penalty and to establish and follow various practices that will ensure that it maintains compliance with the statutes and applicable regulations in the future. These include constructing bermed and covered concrete pads at its facilities, removing of all fluids from vehicles prior to crushing, implementing corrective action at its facilities, removing refrigerants from MVACs, and obtaining permit coverage under, and

maintaining compliance with, a multi-sector general permit covering storm water discharges.

The Consent Decree will resolve the claims of the United States for the violations alleged in the complaint through the date of lodging of the consent decree.

The publication of this notice opens a period for public comment on the proposed consent decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States v. Homeca Recycling Center Co., Inc.*, Civ. DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Consent Decree Under the Clean Air Act

On May 12 2017, the Department of Justice lodged a proposed Consent Decree with the United States District Court for the District of Nevada in the lawsuit entitled *United States v. Nevada Cement Company, Inc.*, Civil Action No. 17-302.

The Consent Decree resolves civil penalty and injunctive relief claims under Sections 113(b) and 167 of the Clean Air Act against the Nevada Cement Company (“NCC”). The settlement addresses six separate violations of the Prevention of Significant Deterioration (PSD) provisions of the Act in which the Complaint alleges the company upgraded five major parts of the cement plant and changed its manner of operations, without installing any pollution controls.

The proposed Decree, if approved by the Court, would require NCC to achieve substantial reductions of nitrogen oxides (“NO_x”), set a sulfur dioxide limit and perform two mitigation projects at its cement manufacturing plant located in Fernley, Nevada. To reduce NO_x emissions, the proposed Decree would require NCC to install a new stack on one kiln, modern pollution controls and monitoring on both kilns, optimize the operation of both kilns and set the final NO_x emission limit per kiln after extensive testing and optimized operations. The mitigation projects are to address prior NO_x emissions and involve the change out of older diesel engines.

NCC has also agreed to pay a civil penalty of \$550,000.

The publication of this notice opens a period for public comment on the Consent Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States v. Nevada Cement Company, Inc.*, D.J. Ref.
