I. Background

Bulk Proof of Delivery (BPOD) provides commercial customers or mailers with the ability to receive signature proof of delivery records for applicable mailpieces without requesting them individually or attaching PS Form 3811, Domestic Return Receipt, on each mailpiece (if applicable). The Postal Service provides records by the delivery tracking data and the delivery date, with recipient information, producing letter facsimiles of delivery records, and presents those to the mailer or the mailer's approved third-party designee in Adobe PDF format electronically.

Proof of Delivery or Return Receipt Electronic (RRE) is a domestic special service that provides customers with an alternative to the PS Form 3811, Domestic Return Receipt. After purchasing a RRE, customers visit USPS.com to enter their item tracking number and the email address where they wish to receive their return receipt. After the item is delivered, the customer is sent a return receipt proof-of-delivery letter via email that includes the date and time of delivery, and recipient information.

II. Rationale for Changes to USPS Privacy Act Systems of Records

Privacy Act System of Records 820.200, System Name: Mail Management and Tracking Activity, is being revised to improve customer and mailer experience with shipping records that include Proof of Delivery information for mailpieces having a USPS Tracking and/or Special Services label and article numbers, by providing more accurate, complete and reliable delivery information.

III. Description of Changes to Systems of Records

Pursuant to 5 U.S.C. 552a(e)(11), interested persons are invited to submit written data, views, or arguments on this proposal. A report of the proposed revisions has been sent to Congress and to the Office of Management and Budget for their evaluations.
