BILLING CODE 4140–01–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Substance Abuse and Mental Health Services Administration

Current List of HHS-Certified Laboratories and Instrumented Initial Testing Facilities Which Meet Minimum Standards To Engage in Urine Drug Testing for Federal Agencies

AGENCY: Substance Abuse and Mental Health Services Administration, HHS.

ACTION: Notice.

SUMMARY: The Department of Health and Human Services (HHS) notifies federal agencies of the laboratories and Instrumented Initial Testing Facilities (IITF) currently certified to meet the standards of the Mandatory Guidelines for Federal Workplace Drug Testing Programs (Mandatory Guidelines).

A notice listing all currently HHS-certified laboratories and IITFs is published in the **Federal Register** during the first week of each month. If any laboratory or IITF certification is suspended or revoked, the laboratory or IITF will be omitted from subsequent lists until such time as it is restored to full certification under the Mandatory Guidelines.

If any laboratory or IITF has withdrawn from the HHS National Laboratory Certification Program (NLCP) during the past month, it will be listed at the end and will be omitted from the monthly listing thereafter.

This notice is also available on the Internet at *http://www.samhsa.gov/workplace.*

FOR FURTHER INFORMATION CONTACT: Giselle Hersh, Division of Workplace Programs, SAMHSA/CSAP, 5600 Fishers Lane, Room 16N03A, Rockville, Maryland 20857; 240–276–2600 (voice).

SUPPLEMENTARY INFORMATION: The Department of Health and Human Services (HHS) notifies federal agencies of the laboratories and Instrumented Initial Testing Facilities (IITF) currently certified to meet the standards of the Mandatory Guidelines for Federal Workplace Drug Testing Programs (Mandatory Guidelines). The Mandatory Guidelines were first published in the **Federal Register** on April 11, 1988 (53 FR 11970), and subsequently revised in the **Federal Register** on June 9, 1994 (59 FR 29908); September 30, 1997 (62 FR 51118); April 13, 2004 (69 FR 19644); November 25, 2008 (73 FR 71858); December 10, 2008 (73 FR 75122); and on April 30, 2010 (75 FR 22809).

The Mandatory Guidelines were initially developed in accordance with Executive Order 12564 and section 503 of Public Law 100–71. The ''Mandatory Guidelines for Federal Workplace Drug Testing Programs,'' as amended in the revisions listed above, requires strict standards that laboratories and IITFs must meet in order to conduct drug and specimen validity tests on urine specimens for federal agencies.

To become certified, an applicant laboratory or IITF must undergo three rounds of performance testing plus an on-site inspection. To maintain that certification, a laboratory or IITF must participate in a quarterly performance testing program plus undergo periodic, on-site inspections.

Laboratories and IITFs in the applicant stage of certification are not to be considered as meeting the minimum requirements described in the HHS Mandatory Guidelines. A HHS-certified laboratory or IITF must have its letter of certification from HHS/SAMHSA (formerly: HHS/NIDA), which attests that it has met minimum standards.

In accordance with the Mandatory Guidelines dated November 25, 2008 (73 FR 71858), the following HHS-certified laboratories and IITFs meet the minimum standards to conduct drug and specimen validity tests on urine specimens:

HHS-Certified Instrumented Initial Testing Facilities

Dynacare, 6628 50th Street NW., Edmonton, AB Canada T6B 2N7, 780–784–1190 (Formerly: Gamma-Dynacare Medical Laboratories)

BILLING CODE 4160–20–P

* The Standards Council of Canada (SCC) voted to end its Laboratory Accreditation Program for Substance Abuse (LAPSA) effective May 12, 1998. Laboratories certified through that program were accredited to conduct forensic urine drug testing as required by U.S. Department of Transportation (DOT) regulations. As of that date, the certification of those accredited Canadian laboratories will continue under DOT authority. The responsibility for conducting quarterly performance testing plus periodic on-site inspections of those LAPSA-accredited laboratories was transferred to the U.S. HHS, with the HHS' NLCP contractor continuing to have an active role in the performance testing and laboratory inspection processes. Other Canadian laboratories wishing to be considered for the NLCP may apply directly to the NLCP contractor just as U.S. laboratories do.

Upon finding a Canadian laboratory to be qualified, HHS will recommend that DOT certify the laboratory (**Federal Register**, July 16, 1996) as meeting the minimum standards of the Mandatory Guidelines published in the **Federal Register** on November 25, 2008 (73 FR 71858). After receiving DOT certification, the laboratory will be included in the monthly list of HHS-certified laboratories and participate in the NLCP certification maintenance program.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[17X.LLAK942000.L54200000.FR0000. LVDIL0440000; AA086373]

Notice of Application for a Recordable Disclaimer of Interest for Lands Underlying the George River in Alaska

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The State of Alaska (State) has filed an application with the Bureau of Land Management (BLM) for a Recordable Disclaimer of Interest (RDI) from the United States in those lands underlying the George River from its mouth to Julian Creek. The State asserts that the George River, a major tributary of the Kuskokwim River in southwestern Alaska, was navigable and unreserved at the time of Alaska Statehood in 1959.

DATES: Comments on this action are due on or before September 5, 2017.

ADDRESSES: You may submit comments on the State of Alaska's Application for an RDI or the BLM Draft Summary Report for the State's Application for a Recordable Disclaimer of Interest by mail or email. To file by mail, send to: RDI Program Manager (AK–942), Division of Lands and Cadastral, BLM Alaska State Office, 222 West 7th Avenue, #13, Anchorage, AK 99513. To submit by email, send to: *anichols@blm.gov.*

FOR FURTHER INFORMATION CONTACT: Angie Nichols, RDI Program Manager, at 222 West 7th Avenue, #13, Anchorage, AK 99513; 907–271–3359; or *anichols@blm.gov;* or visit the BLM Recordable Disclaimer of Interest Web site at *https://www.blm.gov/programs/lands-and-realty/regional-information/alaska/RDI/kuskokwim.* Persons who use a telecommunications device for the deaf (TDD) may call the Federal Relay System (FRS) at 1–800–877–8339 to contact the individual identified in this section during normal business hours. The FRS is available 24 hours a day, seven days a week, to leave a message or a question with that individual. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: On March 10, 2006, as modified on September 16, 2015, the State of Alaska filed an application (AA–86373) for an RDI pursuant to section 315 of the Federal Land Policy and Management Act of 1976 and the regulations contained in 43 CFR subpart 1864 for the lands underlying the George River. The State asserts that this river was navigable at the time of Alaska Statehood. As such, the State contends that ownership of the lands underlying this river automatically passed from the United States to the State of Alaska in 1959 at the time of Statehood under the Equal Footing Doctrine; the Submerged Lands Act of 1953; the Alaska Statehood Act; and other title navigability law.

The State's application is for all submerged lands underlying the portion of the George River from its mouth to Julian Creek. Specifically, these are the submerged lands within the bed of the George River between the ordinary high water mark of the left and right banks, beginning at the confluence of Julian Creek in Township 24 North, Range 44 West, Section 4, Seward Meridian, Alaska, U.S. Geological Survey (USGS) 1:63,360 series topographic map Iditarod A–3 (1954). Thence southerly to its confluence with the Kuskokwim River in Township 21 North, Range 46 West, Section 21, Seward Meridian, Alaska, USGS 1:63,360 series topographic map Sleetmute D–5 (1954, minor revisions 1975). The applied section of the George River flows through the following Townships and Ranges:

Seward Meridian:

Township 24 North, Ranges 44–45 West;

Township 23 North, Ranges 45–46 West;

Township 22 North, Ranges 45–46 West;

Township 21 North, Range 46 West.

The precise location may be within other townships due to the ambulatory nature of these water bodies.

An RDI is a legal document through which the United States disavows ownership of specified land, but it does
