Abstract: The U.S. Government's War Risk Insurance program is a standby emergency program for national defense and national security. It becomes effective upon and simultaneously with the automatic termination of ocean marine commercial war risk insurance policies. Those policies are automatically terminated upon the outbreak of war, whether declared or not, between any of the five great powers (United States of America, United Kingdom, France, People's Republic of China, the Russian Federation) or upon the hostile detonation of a weapon of war employing atomic or nuclear fission.

The War Risk Insurance program makes it possible for applicants to obtain war risk insurance from the U.S. Government when such insurance is unavailable on reasonable terms from the commercial market. The program is mutually beneficial to the United States and to the ship owner in that it assures continued flow of essential U.S. trade and provides protection for the ship owner from loss by risks of war.
