Docket No. 17-AGL-13]

**Proposed Amendment of Class E
Airspace; Medford, WI and Waupaca,
WI**

AGENCY: Federal Aviation
Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking
(NPRM).

SUMMARY: This action proposes to modify Class E airspace extending up to 700 feet above the surface at Taylor County Airport, Medford, WI and Waupaca Municipal Airport, Waupaca, WI, to accommodate new standard instrument approach procedures (SIAPS) for instrument flight rules (IFR) operations at these airports. This action is necessary due to the decommissioning of the Medford and Waupaca non directional radio beacons (NDB), and cancellation of NDB approaches. This action would enhance the safety and management of IFR operations at these airports.

SUPPLEMENTARY INFORMATION:**Authority for This Rulemaking**

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would amend controlled airspace in Class E to ensure the safety of IFR operations at Taylor County and Waupaca Municipal airports.

**Availability and Summary of
Documents Proposed for Incorporation
by Reference**

This document proposes to amend FAA Order 7400.11A, Airspace Designations and Reporting Points, dated August 3, 2016, and effective September 15, 2016. FAA Order 7400.11A is publicly available as listed in the **ADDRESSES** section of this document. FAA Order 7400.11A lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (14 CFR) part 71 by modifying Class E airspace extending upward from 700 feet above the surface at Taylor County Airport in Medford WI. The Agency proposes to retain the current Class E airspace within a 6.8-mile radius of the airport and to remove the segment of airspace within 2.7 miles each side of the 162° bearing from the airport extending from the 6.8-mile radius to 7 miles southeast of the airport due to the decommissioning of the Medford NDB and cancellation of the NDB approach.

The agency also proposes to modify the Class E airspace extending upward from 700 feet above the surface at Waupaca Municipal Airport, Waupaca,

WI. The agency proposes to retain the current Class E airspace within a 6.4-mile radius of the airport and to remove the segment within 2.7 miles each side of the 118° bearing from the airport, extending from the 6.4-mile radius area to 7 miles southeast of the airport due to the decommissioning of the Waupaca NDB and cancellation of the NDB approach. This proposal would enhance the safety and management of the SIAPs for IFR operations at these airports.

Class E airspace designations are published in paragraph 6005 of FAA Order 7400.11A, dated August 3, 2016, and effective September 15, 2016, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.
