Discussion

Pursuant to 21 U.S.C. 824(a)(3), the Attorney General is authorized to suspend or revoke a registration issued under section 823 of the CSA, “upon a finding that the registrant . . . has had his State license . . . suspended [or] revoked . . . by competent State authority and is no longer authorized by State law to engage in the . . . dispensing of controlled substances.” Also, DEA has long held that the possession of authority to dispense controlled substances under the laws of the State in which a practitioner engages in professional practice is a fundamental condition for obtaining and maintaining a practitioner’s registration. *See, e.g., James L. Hooper*, 76 FR 71371 (2011), *pet. for rev. denied*, 481 Fed. Appx. 826 (4th Cir. 2012); *see also Frederick Marsh Blanton*, 43 FR 27616 (1978) (“State authorization to dispense or otherwise handle controlled substances is a prerequisite to the issuance and maintenance of a Federal controlled substances registration.”).

This rule derives from the text of two provisions of the CSA. First, Congress defined “the term ‘practitioner’ [to] mean[] a . . . physician . . . or other person licensed, registered or otherwise permitted, by . . . the jurisdiction in which he practices . . . to distribute, dispense, [or] administer . . . a controlled substance in the course of professional practice.” 21 U.S.C. 802(21). Second, in setting the requirements for obtaining a practitioner’s registration, Congress directed that “[t]he Attorney General shall register practitioners . . . if the applicant is authorized to dispense . . . controlled substances under the laws of the State in which he practices.” 21 U.S.C. 823(f).

Moreover, because “the controlling question” in a proceeding brought under 21 U.S.C. 824(a)(3) is whether the holder of a DEA registration “is currently authorized to handle controlled substances in the [S]tate,” *Hooper*, 76 FR at 71371 (quoting *Anne Lazar Thorn*, 62 FR 12847, 12848 (1997)), the Agency has also long held that revocation is warranted even where a practitioner has lost his state authority by virtue of the State’s use of summary process and the State has yet to provide a hearing to challenge the suspension. *Bourne Pharmacy*, 72 FR 18273, 18274 (2007); *Wingfield Drugs*, 52 FR 27070, 27071 (1987). Thus, it is of no consequence that the IDFPF has indefinitely suspended Respondent’s state license and that Respondent may

prevail on his appeal to Illinois Cook County Circuit Court.³ What is dispositive is the fact that Respondent is not currently authorized to dispense controlled substances in the State in which he is registered.

Here, there is no dispute over the material fact that Respondent is no longer currently authorized to dispense controlled substances in Illinois, the State in which he is registered. Accordingly, he is not entitled to maintain his registration. I will therefore adopt the CALJ’s recommendation that I revoke Respondent’s registration and deny any pending applications to renew or modify his registration. R.D. at 7.

Order

Pursuant to the authority vested in me by 21 U.S.C. 824(a)(3) and 28 CFR 0.100(b), I order that DEA Certificate of Registration No. FN5571864 be, and it hereby is, revoked. Pursuant to the authority vested in me by 21 U.S.C. 823(f), I order that any applications to renew or modify the above registration be, and they hereby are, denied. This Order is effective immediately.⁴

DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Consent Decree Under the Oil Pollution Act

On June 1, 2017, the Department of Justice lodged a proposed Consent Decree (“Consent Decree”) with the United States District Court for the District of Puerto Rico in the lawsuit entitled *United States and Commonwealth of Puerto Rico v. Port*

³ Similarly, and contrary to Respondent’s claim, Due Process does not require the CALJ to delay summary disposition of the case until his motion to stay pending before the Illinois Circuit Court had been decided. *Resp. Reply* at 3–4. Rather, Due Process required the CALJ to provide Respondent the opportunity to respond to the Order to Show Cause and the Government’s Request for Summary Disposition. The CALJ did provide Respondent such an opportunity, and the Respondent did so respond. Respondent provided no authority for the notion that the CALJ violated Respondent’s right to Due Process by, in fact, providing Respondent an “opportunity to be heard” instead of delaying such opportunity. Respondent’s claim that the CALJ should have delayed his recommended decision is particularly unavailing where, as here, there are no controlling facts in dispute.

⁴ For the same reasons which led the IDFPF to order the indefinite suspension of Respondent’s medical license, I conclude that the public interest necessitates that this Order be effective immediately. 21 CFR 1316.67.

Stewart GmbH&Co. Kg of Germany, Civil Action No. 3:17-cv-01742.

In a Complaint, the United States, on behalf of the Department of Commerce, National Oceanic and Atmospheric Association (“NOAA”), and the Commonwealth of Puerto Rico, on behalf of the Puerto Rico Department of Natural and Environmental Resources (“DNER”), seek to recover damages for the injury to, destruction of, loss of, or loss of use of natural resources under the Oil Pollution Act, 33 U.S.C. 2701, *et seq.* The Complaint alleges that on October 27, 2009, Port Stewart GmbH&Co. Kg of Germany (the “Defendant”), caused damage to a coral reef habitat on the southeast side of Puerto Rico near the entrance to Yabucoa Channel in the Caribbean Sea due to the grounding of the *T/V Port Stewart*, an oil tanker that it owned and operated. The proposed Consent Decree in this case requires that Defendant pay a total of \$550,000 for the damage, which includes \$412,000 to restore injured coral reefs in the area, and \$128,000 in reimbursement of NOAA costs and \$10,000 in reimbursement of DNER costs in assessing the damage.

The publication of this notice opens a period for public comment on the proposed Consent Decree. SUPPLEMENTARY INFORMATION:

I. Abstract

The National Aeronautics and Space Administration seeks to collect information from members of the public to plan, conduct, and register participants and volunteers for the NASA Human Exploration Rover Challenge, which supports science, technology, engineering, or mathematics (STEM) education. This engineering design challenge focuses on NASA's current plans to explore planets, moons, asteroids, and comets—all members of the solar system family. The challenge will focus on designing, constructing

and testing technologies for mobility devices to perform in these different environments, and it will provide valuable experiences that engage students in the technologies and concepts that will be needed in future exploration missions. NASA collects the minimum information necessary from teams, participants, and volunteers to plan and conduct the event.
